THE WAR.

Another Intrigue Between Bismarck and Prim.

A King Found for Spain and an Emperor for Germany.

Fighting Near Paris Reported in Progress all Day Friday.

Bazaine's Alleged Offer of Surrender Denied.

The Latest Balloon Advices from Paris.

HOPES OF PEACE ABANDONED.

The Spirit of the French People Resolute.

Neither Territory Nor Fortresses to be Surrendered.

GERMANY AND SPAIN.

An Emperor of Germany and a King of Spain Found—Prim again Conspiring with Prussia—Hopelessness of Bonapartist Restoration.

Special Dispatch to the New-York Times.

LONDON, Sept. 26.—Our Madrid correspondent telegraphs today as follows:

The frequent visits of the Prussian Ambassador to General PRIM is much commented on by the journals. A Ministerial organ announces that in a few days there will be joyful news for Spain.

I have inquired into the grounds for this statement, and this is the result of my inquiries in Government circles.

After the proclamation of the Prussian King as Emperor of Germany, it is the intention of Count VON BISMARCK to compensate the King of Saxony for the loss of his crown by placing his son, Prince JOHN, upon the throne of Spain, by the aid of Gen. PRIM. The latter risks his head, it is true, in this game, but he will take the hazard.

OLOZAGA ON NAPOLEONIC RESTORATION.

Señor SAGASTA, before Señor OLOZAGA's departure yesterday, and while with other friends at the station, asked him if he thought the restoration of NAPOLEON possible. "Easier," was his reply, "raze the Pyrenees to their base."

BATTLES NEAR PARIS.

A French Account of that of Sept. 19, Received by Balloon—Heavy Artillery Fire—Resolute Conduct of the Guard Mobile—More Fighting on the 23d.

TOURS, Sept. 26.—Letters received from Paris by the balloon give the following French account of the battle on the 19th:

"Gen. DUCROT, with a strong force, occupied the heights from Villejuif to Meudon. On Monday he made a reconnoissance, and encountered masses of Prussians who were concentrated in the woods. The enemy had many cannon. Notwithstanding this, the French attacked them vigorously, and they were driven back with precipitation. The Prussians, however, reformed in the woods in good order, and took a strong position on the heights of Chatillon. Here the German artillery fire became tremendous. Gen. DUCROT was compelled to seek the shelter of Fort de Vanves. His artillery was well served, and the Mobiles were cool and resolute. Gen. DUCROT finally withdrew into Paris. The Prussians suffered severely, and made no further demonstration after the French retreated under the guns of the fort."

ANOTHER ACCOUNT.

TOURS, Sept. 26.—The balloon from Paris which fell near Evreux brought, among other documents, the following dispatch, giving an official account of the battle of Chatillon: "On the morning of the 19th Gen. DUCROT, who with four divisions occupied the heights extending between Villejuif and Meudon, made a forward movement for reconnoitering, when he met considerable masses of the enemy scattered in the neighboring woods and villages, and provided with a numerous artillery. After a sharp engagement DUCROT was compelled to fall back, his right having advanced with too much precipitation. The centre concentrated in good order around an earthen redoubt on the heights of Chatillon. The left wing was compelled by the enemy's fire to maintain their position on the heights of Villejuif. The fight, about 4 o'clock, taking vast proportion, DUCROT ordered the retreat, and carried back his troops under the protection of the forts, after having caused the eight pieces of the redoubt to be spiked. He retired to the fort of Vanvres in perfect order. Our artillery displayed a great stubbornness and precision, and the Garde Mobile much deliberatedness and good order. Orders were given to finally concentrate the troops within Paris. Our losses are reported to be very unimportant, while the enemy is said to have suffered considerably. No attack has been attempted against the forts. The French batteries today fired over 25,000 shots."

MISCONDUCT OF THE ZOUAVES.

The Garde Mobile behaved handsomely. Gen. TROCHU states that our artillery has inflicted enormous losses upon the enemy. He reproved with great energy the behavior of the First Regiment of Zouaves, who, yielding to an unaccountable fit of panic, fell back in disorder, spreading the alarm, and compromising the good success of the day, which, in spite of their misdemeanor, has proved to be very favorable to the French arms. He orders that energetic measures should be taken against this demoralized, undisciplined soldiery, and even requires the application to them of military laws.

It is stated that M. GAMBETTA has issued a proclamation enforcing the views of Gen. TROCHU.

ENGAGEMENTS IN THE COUNTRY.

TOURS, Sept. 26.—There have been several engagements with the enemy in the open country between Paris and Blois. The results were not serious.

A DAY OF FIGHTING ON FRIDAY.

LONDON, Sept. 26.—Fighting all day Friday near Paris, as reported from Tours, but the accounts are so contradictory that the English journals refuse to publish them.

STRASBOURG AND METZ.

Ignorance of Events in Strasbourg—Hopes of an Army at Metz—Effect of the Bombardment—Bazaine Not Ready to Surrender.

LONDON, Sept. 26.—The inhabitants of Strasbourg are still kept in ignorance of events outside the city; they believe the French have been victorious, and that an army is advancing to the relief of the city.

The Cathedral at Strasbourg has not been irreparably injured by the Prussian bombardment. The astronomical clock in the tower is still going.

THE PROPOSITION TO SURRENDER METZ.

TOURS, Sept. 26.—The Government here denies the statement of the Berlin correspondent of the London *Times* that Marshal BAZAINE had made proposals for surrender.

ANOTHER REPORT TO ESCAPE.

LONDON, Sept. 26.—The *Times* this morning publishes a special telegram from Saarbrücken, dated Sept. 24, giving the following intelligence:

"Yesterday at Metz Marshal BAZAINE made a feint on the side of Marcy la Haut, and attempted to escape to Thionville. There was a heavy cannonade for some hours. After a sharp fight at Moulin, seven miles from Metz, the French were driven in again. Their losses were serious. Marshal BAZAINE sent back the Prussian prisoners he had taken in the engagement."

THE SITUATION IN PARIS.

News by Balloon Received at Tours—Fire from Prussian Shells—Positions of the Prussians—Change of Attack Indicated—The Gun-Boats on the Seine.

TOURS, Sept. 26.—The Paris balloon brings news that a fire had occurred within the fortifications at Vincennes, caused by the Prussian shells. It was quickly extinguished.

Dumbbuses are no longer used in Paris. All the horses in the city have been seized, and are used to transport troops at any moment to any given point.

GAMBETTA'S LETTER.

The official journal of the Republic today publishes the note from M. GAMBETTA to CRÉMIEUX, received from Paris by balloon, to the effect that Paris is determined on a heroic resistance; that she is strong in soldiers, and that the supplies are adequate for the entire Winter. The rumors of an intestine fight at Paris were absolutely untrue.

POSITIONS OF THE PRUSSIANS.

The Prussian dragoons are at Meudon. They have also strong forces at Bougival, Reuil, Nanterre, and near Chatillon. Skirmishes have occurred at Villejuif, Labaye, Chevilly and elsewhere. The Prussians have apparently concluded to abandon the St. Denis side, and their movements now look as though they intended to attack at Sceaux. Later information reports the Prussians near Bourget and at St. Cloud.

SKIRMISHING.

Still later dates have been received from Paris. Beyond some skirmishing at the outposts, there was nothing new.

A Versailles message says the Prussians have undertaken nothing important in that neighborhood.

The gun-boats on the Seine are ready for action, and intrenchments and barricades are going up everywhere around the city.

PRECARIOUS COMMUNICATION.

A large number of messengers who were recently dispatched to Paris with official and other messages, have returned here. They were unable to get through the Prussian lines.

LONDON, Sept. 26.—Communication between Paris and Tours is totally suspended, except by the hazardous service of balloons.

THE PEACE NEGOTIATIONS.

Excitement in Brussels Over the Failure—Deep Sympathy with France in Belgium—Hope of Peace Dissipated—Austria and Prussia.

BRUSSELS, Sept. 25.—The grave intelligence of the failure of peace negotiations produced great excitement. Large crowds of people assembled in the Place de la Mounai, discussing the condition of affairs, and a band of workmen paraded the city, singing the "Marseillaise," and answered some isolated cries with "Vive la France." The excitement arises from mingled grief and alarm.

PRUSSIAN ARROGANCE.

The Belgian Press unanimously denounces the arrogance of the Prussian pretensions.

HOPE OF PEACE ABANDONED.

LONDON, Sept. 26.—All hope of a settlement between Prussia and France is abandoned. The general feeling is that the refusal by France of BISMARCK's proposition will place that country in a worse position.

M. THIERS' MISSION.

LONDON, Sept. 26.—Baron VON BEUST, the Austrian Prime Minister, assured M. THIERS of his deepest sympathy with France, but was compelled to say that intervention was now impossible.

It is said M. THIERS will offer the Czar important concessions in the East as the price paid for Russia's good offices.

THE SPIRIT OF FRANCE.

An Uprising for Defense Urged—The Garrison of Havre—Affairs in Lyons—No Territory or Fortresses to be Surrendered.

TOURS, Sept. 26.—The great majority of the Prefects of the departments have met to organize a general uprising for the national defense.

LONDON, Sept. 26.—The Prefects of the Western Departments, in accordance with the recent proclamation of the Government, are imploring the people to rise and overwhelm the invaders. Calais votes three millions of francs for raising troops. The *Patrie* newspaper is now issued at Poictiers. It was a semi-official journal, under the old régime, but it is now enthusiastic for the Republic.

HAVRE DEFENSES.

The garrison of Havre has been reinforced, and has also received a number of mitrailleurs. The place is now fully prepared to resist attacks.

CLUSERET DENOUNCED.

Several journals here dwell on the fact that the Government permits such disorders to continue as those at Lyons. CLUSERET is there, and his influence, they say, is very bad. It seems to be his purpose to excite serious disturbances.

SUSTAINING THE GOVERNMENT.

The Government here is in receipt of patriotic addresses from all parts of France, announcing adherence to the proclamation of the Government. The Moniteur today publishes a proclamation issued by the Provisional Government at Paris, on the 20th inst., reaffirming that the policy of France is not to cede one inch of territory or one stone of a fortress.

MISCELLANEOUS.

A Napoleonic Manifesto Promised—Gazette Favors Annexing Alsace and Lorraine—Military Movements in Various Localities—Lyons Mentioned—A Truce between Prussia and Schleswig.

BRUSSELS, Sept. 26.—The immediate publication of a manifesto from NAPOLEON, in reply to the last proclamation of the Government at Tours, is promised. M. CONTI, private secretary of the Emperor, is said to be the writer of the document.

ALSACE AND LORRAINE.

DRESDEN, Sept. 25.—The popular majority of Saxony is in favor of the annexation of Alsace and Lorraine.

PRUSSIAN OPERATIONS.

LONDON, Sept. 26.—Dispatches from Orleans state that cavalry encounters are reported at Dacoches and Antenay. Prince ALBERT, with a large force, was reported at the former place. The Prussians are hastening the reconstruction of the fortress of Laon.

A heavy force, according to a Saarbrücken telegram, composed mainly of Bavarians, is penetrating the country toward Lyons.

FRENCH OPERATIONS.

TOURS, Sept. 26.—The official journal of the Republic today publishes decrees increasing the number of regiments and conferring for the time extraordinary powers upon the general officers who are appointed delegates of the Government, but who must hereafter render an account personally to the Minister of War. A division of cavalry has reached here from the South of France. A large force of Mobiles has passed through the city going to Orleans.

LONDON, Sept. 26.—The French fleet in the Baltic has been charged with the duty of cutting the cable connecting North Germany and Sweden.

The English Press compare the war movements in France with those of the late American contest, especially with the campaigns of Gen. GRANT against Vicksburg and Richmond.

TREATY REGARDING WOUNDED.

A treaty between Belgium and Prussia providing for the release of the wounded in Belgian hospitals, has been signed by the representatives of both Governments.

TOURS CROWDED.

TOURS, Sept. 26.—The city is crowded with refugees from all parts of France. The hotels and private houses are filled to overflowing, and at night many people are compelled to sleep in the street.

French Men-of-War at New-London, Conn.—The French Sanitary Fair in San Francisco.

NORWICH, Conn., Sept. 26.—The French frigate *Magicienne* and two corvettes arrived at New-London last night, and will remain several days. This afternoon the frigate exchanged salutes with Fort Trumbull, and moved up the River opposite the city, where she will repair some slight damages caused by the storm of the 18th.

SAN FRANCISCO, Sept. 25.—At the French Sanitary Fair the receipts and subscriptions of yesterday and last night amounted to $83,000. The total receipts are over $50,000. The Fair will continue two days longer.

CITY WAR NEWS.

The German War Fund Collections.

The German ladies of Hoboken, at a private meeting, at the residence of Mr. STIASTNEY, formed a ladies' branch and association, to co-operate with the New-York Ladies' Association. Mrs. STIASTNEY was chosen President, and the following Vice-Presidents were elected: Mmes. G. Kunoth, Dr. Kudlich, Kuhn, J. Bunsle, Russ and Wahle, who was elected Treasurer, and Carl de Grock Secretary. Two delegates, Mmes. Stiastney and Bunsle, were elected to represent the branch organization with the New-York Association, and an executive committee was appointed. Three sub-committees, consisting of the Collection Committee, the Working Committee, and the Floral Committee, were also appointed, with power to add to their number. An appeal has been issued by the ladies, calling for aid. Contributions will be received at the residence of Mrs. STIASTNEY, No. 128 Hudson-street; of Mrs. MAX WALLBRUNN, 1 Washington-street, and by CHARLES VOLLMARE, at the Park Hotel.

The pupils of the German School Institute, No. 4 Allen-street, have raised, by collection among themselves, $24, which has been transmitted to the Treasurer of the General Fund.

A concert, which was given on Sunday evening at the Stadt Theater, in Germania Hall, fourth-street, by the united vocal societies in Bloomingdale, in aid of the general fund, it is estimated, has yielded the handsome sum of not less than $1,000.

In Hudson City, N. J., two German Patriotic Aid Societies—one for the south and the other for the upper wards, of which Mr. TAHL is the President, and Mr. HEFFENREHER, Secretary; and the other for the two lower wards, of which Mr. KASANG is the President, and Mr. PABEN the Treasurer. Both are operating harmoniously together, and expect to make soon another remittance of funds to the amount of $1,000.

The French National Subscription.

Since the issue of the appeal of the French Subscription Committee in this city, many of the French contributors in various parts of the country are doubling their subscriptions. Mrs. MORTIMER has just made a contribution of $100 in cash. The French Committee has forwarded to M. GERDY, the President of the Committee in this City, another installment to the amount of $901 05.

The Société Française de Bienfaisance, at Galveston, has transmitted to the Committee a check for $1,012 on Messrs. NORTON & BLISS, of this City, being the proceeds of the collections among the French at Galveston, exclusive of $70 in gold, forwarded to Galveston by the French at Dallas, Texas.

From San Francisco, M. TANCHARD, of the French Committee, reports that a gentleman in that city, named JOHN B. FELTON, has subscribed to contribute monthly $250 for the next four months—$1,000 in all.

Departure of the Steam-ship Hermann.

Yesterday the steam-ship *Hermann* lay off Staten Island all day until 5 P. M., when she quietly steamed down the bay, and went to sea. The report that a German gun-boat was coming to convoy her out to sea proved to be incorrect. The *La Fonde Prestille* was understood to be off Sandy Hook all day yesterday, lying just outside the jurisdiction, three miles from shore. The *Hermann* is not deeply loaded, and were it not for the fact that she has sanitary stores on board, contributed by German residents here, she would probably not be sent to sea at all, as the low rates of freight do not warrant the active employment of any of these vessels. It is believed that there is but one French vessel outside, and with a fair start, the *Hermann* could, doubtless, run away from her. A protest has been sent to Washington against permitting French war vessels to molest German commerce, but as long as the French corvette remained outside the jurisdiction she could not be interfered with. The Frenchmen here were delighted yesterday with the situation of affairs, as they think that the Germans should be annoyed for interfering with the departure of the *Lafayette* last week.

The Panama and West India Cable—The Shore End Laid at Jamaica.

KINGSTON, Jamaica, Sept. 26.—The shore end of the new cable was laid yesterday, and is working admirably. Sir CHARLES BRIGHT is now making the necessary arrangements to continue the cable to Aspinwall.

GENERAL TELEGRAMS.

The Narrow Escape of Minister Sickles from Brigands.

Generous Action of the Officers and Men of the "Franklin."

Gen. Cordova to Succeed Gen. De Rodas in Cuba.

All Political Prisoners in Rome Set Free.

GEN. SICKLES' ESCAPE.

How He Circumvented the Spanish Brigands—The Spanish Government at Length Aroused.

LONDON, Sept. 26.—A correspondent writing from Madrid 15th, says: The government has already been made thus the Government and needed the greater part of the gendarmes from their posts in the mountains and on the highroads, leaving the farmers and travelers at the mercy of the brigands. Not withstanding numerous dense heavy rescues of daring highway robberies and random murders by unrestrained bandits, the Government is doing nothing to check their outrageous proceedings. There is scarcely a province in the Peninsula without two or three of these bands, who murder, plunder, and carry on depredations without the least molestation. Procuring arms and ammunition, and adopting some political banner, they enter the villages and exact redions and funds from the authorities. Recently they captured a rich citizen in Andalusia and demanded $40,000 for his release. Besides requiring smaller sums, in other instances they inflict cruel treatment—butchering the inhabitants that resist their exactions. You have heard of Gen. SICKLES' escape. The General had to come as far to Madrid, on business. This fact was made known to some brigands by their accomplices at La Granja. The General was expected to leave Madrid by the 4 o'clock P. M. train, but he left at 12 P. M. Having, perhaps, been warned against the insecurity of the roads, he adopted the shrewd policy of crossing the mountains when not expected. On arriving at Villalba, accompanied by his Secretary, the General called for the same conveyance which had taken them from La Granja to Villalba. The driver, evidently surprised to see them, said he expected them by the 3 P. M. train. The carriage was immediately got ready and set off for the mountains. When the coach in which it was expected the General would come arrived at a lonely spot among the mountains, a couple of brigands broke the coach and demanded the General from among the passengers. The negative being given, they closely examined the passengers, and, not finding him, contented themselves with robbing all that were there. The Government, knowing what a serious affair it would be should a foreign representative fall into the hands of the brigands, have sent a detachment of *gendarmes* to protect the General whenever he goes to Villalba.

GENERAL EUROPEAN NEWS.

Modification of the Spanish Ministry Probable—Gen. Cordova Likely to Succeed De Rodas in Cuba—Condition of the Island Regarded with More Favor—Yellow Fever in Spain.

Special Dispatch to the New-York Times.

LONDON, Sept. 26.—Advices from Madrid indicate that a modification of the Spanish Ministry is probable. Señor MORET, Minister for the Colonies, and Señor ECHEGARAY, Minister of Public Works, declare that they will retire if Señor RIVERO does.

CABALLERO DE RODAS presses his resignation of the Captain-Generalship of Cuba. Gen. CORDOVA will probably replace him at Havana.

The idea of the cession of Cuba to the United States gains ground in Madrid.

Yellow fever is increasing at Barcelona. It has also appeared at Valencia, where some of the officers attached to the Custom-House have been attacked with it.

MADRID, Sept. 26.—DE RODAS, the Captain-General of Cuba, has been informed by the Spanish Government that his resignation will be accepted if it is insisted upon.

The Hindrance in Germany—Rupture Between Holland and Venezuela.

Special Dispatch to the New-York Times.

LONDON, Sept. 26.—The TIMES correspondent, "Rickwacker," telegraphs from Hamburg, on the 26th inst., that no cattle are allowed to pass between Home Dermstadt and Prussia on account of the prevalence of the cattle disease known as the "rinderpest."

BRUSSELS, Sept. 26.—The *Indépendance Belge*, today, publishes the note sent from the Venezuelan Government to Holland, justifying the rupture of relations between the two countries, but hoping for speedy restoration of the *entente cordiale*.

Aid for the Widows and Orphans by the Loss of the "Capsizing"—Contributions of the Officers and Crew of the United States Steamer Franklin.

LONDON, Sept. 26—Evening.—The following is an extract of an article published this evening in the *Globe*: "Among the foremost and largest of the subscriptions to the fund for the relief of the widows and families of the crew which perished in Her Majesty's ship *Captain*, is a contribution of the officers and ship's company of the United States steam frigate *Franklin*, now lying at Portsmouth. This contribution was handed in with a promptness and liberality which could hardly have been looked for, even by one of our own ships of war. The gallant crew of the *Franklin* paid over to the fund a very large sum, which must have been subscribed in a very short time. It is not the amount, although, as we have said, the item is the largest on the list, that causes us so keenly to appreciate the act; it is the kindly spirit that prompted it—the open-hearted and combined generosity of the sailor and American."

BRUSSELS, Sept. 26.—Gen. SCHEIDER died here today. The body will be sent to Germany.

ITALY AND ROME.

Release of Political Prisoners—Victor Emmanuel's Letter to the Pope—Gen. Cadorna to the Provisional Government—Celebration of Italian Unity in This Country.

LONDON, Sept. 26.—As soon as the Italian troops were installed at Rome the prisons were searched, and all the political prisoners set free. The letter of VICTOR EMMANUEL to the Pope, denouncing the necessity for the occupation of Rome, is condemned by some as too dutiful, and by others as too arrogant.

FLORENCE, Sept. 26.—Gen. CADORNA, in addressing the Provisional Government at Rome, commissioned by himself, on Saturday last, said: "Your task is sublime. The 20th of September is as one in your history, for it makes Home again the capital of the Kingdom. God is manifestly with you."

SAN FRANCISCO, Sept. 26.—The Italian residents of the city intend to celebrate the occupation of Rome by the Italian Army.

STATE FAIRS.

New-York State Fair—Award of Premiums for Implements and Machinery.

UTICA, N. Y., Sept. 26.—The judges in the Implement and Machinery Department of the State Fair, having concluded their two weeks' labors, will announce their awards to-morrow as follows:

Grain Drill—Bockford & Huffman, Macedon, N. Y., a bronze medal. Combined Grand Drill—Briggs & Robbins, Owego, N. Y., a bronze medal. Broadcast Sower (one horse)—Wilson & Marsh, East Bloomfield, N. Y., a bronze medal. Combined Sower (two horse)—Wilson & Marsh, Flower & Co., Palmyra, N. Y., a bronze medal. Hand Seed Drill—E. F. Holbrook, Boston, N. Y., a bronze medal. Harrows—Gibson & Ingle, New-York Mills, a bronze medal. Pulverizing Harrow—Beckwith, Willet, Syracuse, N. Y., a bronze medal. Sulky-riding attachment to Harrows—A. F. Shaner, Dellyville, N. Y., a bronze medal. Hand Cultivator—John Cantine & Co., Schenectady, N. Y., certificate of merit. One-horse Cultivator—F. F. Ferry, Canandaigua, N. Y., a bronze medal. Two-horse Cultivator—F. S. Carhart, Hallenser, N. Y., a bronze medal. Potato-digger—George W. Kints, certificate of merit. Hand Potato-digger—Brinckerhoff & Van Duzer, Auburn, N. Y., a bronze medal. Hay-carrier—George Smith, Syracuse, N. Y., a bronze medal. Hay carrier and stacker, E. L. and W. L. Scovill, Waterloo, a bronze medal. Fruit for general purposes, John H. Chapman, Clayville, N. Y., bronze medal. Hay-fork, Pennock Manufacturing Company, Kennetsquare, Penn., bronze medal. Power Corn-sheller—George Parnell & Son, bronze medal; hand corn-sheller, Jacob Brooks, Woodstock, Vt., bronze medal; sand-paper machine, Davis & Goodhill, Albany, N. Y., bronze medal; stump machine, C. A. Cutcrch, New-Berlin, N. Y., bronze medal; reversible plow, F. F. Holbrook, Boston, Mass., bronze medal; reversible plow, Ford Brothers, Owasco, N. Y., certificate of merit; hand corn-sheller, Harmon W. Cornell, Owego, N. Y., bronze medal; hand corn-mill, Warner, Mitchell & Co., Springfield, Ohio, bronze medal; corn-cutter, John H. Ketcham, Dutchess, N. Y., bronze medal; corn-husker, L. A. Aspinwall, Albany, N. Y., bronze medal; Wood's corn-husker, Jacob Russell, Brooklyn, N. Y., certificate of merit; mowing-machine, knife-grinder, C. C. Hardy, of Rutland, N. Y., bronze medal; cattle-pump, Edward Beakins, Rochester, N. Y., certificate of merit; Kirby hand mowing machine, Aurora Co., Oneida, N. Y., bronze medal; fanning-mill, J. D. Decks, Alden, N. Y., certificate of merit; hand-planer, Reed & Garfield, South Brookfield, N. Y., certificate of merit; planing-machine, Frank & Co., Buffalo, bronze medal; grain-scourer, or corn-mill, S. W. Payn, Troy, N. Y., bronze medal; a grain-scourer, or corn-mill, Hiram Drake, Albany, N. Y., bronze medal; certificate of merit; vertical tenoning-machine, Daniel Donovan, Albany, certificate of merit; circular sawing-machine, Daniel Dewester, Albany, certificate of merit; planing and matching machine, Daniel Dewester, Albany, bronze medal; tenoning and mortising machine, Daniel Dewester, Albany, bronze medal; double tenoning machine, Davis & Goodhill, Albany, bronze medal; molding-machine, Davis & Goodhill, Albany, bronze medal; farm gate-mill, Monroe Brothers, Utica, bronze medal; cotton-gin condenser, H. N. Emery, Albany, bronze medal; castor-oil for cotton, J. & H. G. Sherwood, Auburn, Mass., certificate of merit; horse-clipping and sheep-shearing machine, American Horse-clipping and Sheep-shearing Machine Company, certificate of merit; horse power and thresher, Martin Williams, St. John-sonville, N. Y., bronze medal; horse power and thresher, Seymour Chandler, Mottville, & Co., Albany, certificate of merit. Lawn-mower—J. M. Childs, Utica, N. Y.; Graham, Emigh & Passmore, Philadelphia, Penn.; bronze medal. Lawn-mower, second—Chadborn & Caldwell, Newburg, N. Y., certificate of merit. Washing-machine—Brinckerhoff & Van Duzer, Auburn, N. Y., bronze medal. Washing-machine, second, Samuel Devoaux, Auburn, certificate of merit; fitching-machine, John Valentine, Buffalo, bronze medal; steam-engine, Wood & Mann, Utica, bronze medal; scroll-sawing machine, Jerome S. Moseby, Syracuse, bronze medal; planing-machine duster, McGannon, Granger & Co., Green Island, N. Y., bronze medal.

Extensive Preparations at St. Louis—The Best Exhibitions Ever Seen in American Promised—Opening Day in Kansas Today—The North Carolina Fair.

ST. LOUIS, Mo., Sept. 26.—The demand for stalls for horses and cattle and pens for hogs, to be exhibited at the Fair next week, is unprecedented, and additional accommodations are being constructed. All the prominent stock-breeders in Missouri and Kentucky, and a large number from other States, both East and West, will be present, with the finest herds in the country. The entries for other departments are unusually large and varied, and the Fair, as a whole, will undoubtedly exceed any ever held in America. ....The Kansas State Fair will open, to-morrow, at Fort Scott. A large amount of stock has already arrived from Ohio, Indiana, Missouri and Texas, and the indications are that the Fair will surpass any previous exhibition held in this State.

RALEIGH, N. C., Sept. 26.—Extensive preparations are being made for the State Fair to commence here on the 12th of October next, and to continue for four days. It is expected that the exhibition and attendance will be the largest ever seen in the State. Rev. CHARLES PHILLIPS, D.D., of Davidson College, will deliver an address. The trotting track is in excellent order; a large number of special premiums are offered by leading business men, in addition to the regular premiums.

A Contest of Legs—Walking for the Championship at Boston—The Winner Makes Fifty Miles in Nine Hours and Fifty Minutes.

BOSTON, Sept. 26.—The fifty-mile walk for the championship of America and a silver cup, the second man to receive $50, came off today, on the Union Base-ball Grounds. The contestants were J. BERKENDINE, of Boston; J. ADAMS, of New-York; P. DIEHGOMA, of Boston; J. GOBY, of Philadelphia; J. BYRNES, of Boston, and "Young" WATES, of Boston. The race was well sustained until about noon, when some of the men showed signs of exhaustion. DIEHGOMA retired after making thirty miles in seven hours and three minutes, and GOBY having made over thirty miles in five hours and forty-four minutes, was seized with cramps, and was obliged to give up. The race was now between ADAMS and WATES, ADAMS leading and winning the race in nine hours and fifty minutes. Allowing for rest, WATES was one and four-fifths of a mile behind. About 1,000 persons were present, and much interest was manifested during the afternoon. JAMES SAYRE gave an exhibition of speed, making two miles in sixteen minutes and ten seconds.

President Grant at Boston—His Movements Thereabouts.

BOSTON, Sept. 26.—Gen. GRANT and wife, U. S. GRANT, Jr., HARLEY GRANT, Mr. FRIP and daughter, of Washington, D. C., arrived at the St. James Hotel this evening by a drawing-room car attached to the express train from New-York. Ex-Gov. CLIFFORD accompanied them from Groton, Conn. Immediately upon arrival the President stepped off the car, and taking the arm of Mr. CLIFFORD, proceeded to a close carriage, and was taken to the hotel. He was greeted with cheers by the crowd in waiting. The President appeared to be in excellent health and spirits. He occupies the same apartments he did on former occasions. After a short time he received Mayor SHURTLEFF & few members of the City Government, Judge RUSSELL, and others. He was serenaded by GILMORE's Band. At noon to-morrow the President and his family will visit Cambridge, where U. S. GRANT, Jr., will be left. The President leaves for Washington on Wednesday.

Fire in Bridgeport, Conn.—Loss $35,000.

BRIDGEPORT, Conn., Sept. 26.—A fire broke out here on Sunday night, destroying the hotel stables of Dr. E. B. MIDDLEBROOK, a tenement house belonging to Dr. MIDDLEBROOK, occupied by several families of colored people, and causing considerable damage to the furniture establishment of HATHEWAY & HAYDEN, and to the large four-story brick house belonging to Messrs. SHERMAN, occupied by W. H. FITZGERALD as a dry-good store. FITZGERALD's store was badly damaged by water. The adjoining buildings were more or less scorched, and the dry-goods of Messrs. W. GODDARD & CO. was removed out of his store. The loss is estimated at $60,000. There were insurances on the stock burned or damaged to the amount of $26,000 in the following Companies, among others: Etna, of Hartford, $5,000; City Fire, $1,000, and Charter Oak, $1,000; New-York Companies, Continental, $2,500; Germania, $2,000; Manchester, $2,000; North America, $2,000; Commerce, $1,000; Western, $1,000; Franklin, Philadelphia, $1,000; Albany City, $2,500; Narragansett, R. I., $1,500. The percentage of loss to the Companies will not be large, except in the case of the Franklin, which is a total loss.

THE WEST.

Census of Minneapolis Cities—Chemical Issue—Chicago Fears—A New Railroad Scheme.

CHICAGO, Ill., Sept. 26.—The population of St. Paul, Minn., is 20,065, and of Minneapolis, Minn., 12,016. The returns of the latter city have been refused by the United States Marshal, because they were badly taken and are unreliable.....Hon. HORATIO SEYMOUR, of New-York, in response to a serenade at the Metropolitan Hotel, St. Paul, on Saturday evening, said that New-York would soon make its canals free for all the products of the West..... It is understood here that Mr. MCCULLAGH, the managing editor of the Cincinnati *Enquirer*, will take the same position on the Chicago *Republican* on Monday next, and that Mr. SCHUYLER, the business manager of the Chicago *Evening Post*, will, at the same time, take the same place on the *Republican*. The *Republican* will be reduced to a seven-column sheet, and sold at three cents per copy.

EUREKA, Ill., Sept. 26.—The Chicago, Pekin and South-western Railway Company broke ground at Eureka today. There were no bonfires, demonstrations nor speech-making, the matter proceeding in a quiet, business-like way. The contractors expect to complete the work this Fall and Winter.

The Cincinnati Industrial Exposition—Matters Assuming a Satisfactory Shape.

CINCINNATI, Ohio, Sept. 26.—The Industrial Exposition commenced its second week under favorable circumstances, though articles are daily arriving. The things are now in good shape, and the display is splendid. All the machinery will be in operation by Wednesday. The attendance today and to-night will reach 5,000. The managers are much encouraged.

Strike of Railroad Laborers—Two Hundred Men Demanding Their Pay.

HARTFORD, Conn., Sept. 26.—Two hundred laborers on the Air Line Railroad near Middle town, who have not been paid for some time, came into the city today, and demanded their pay and made sundry threats which led finally to the calling out of an extra Police force, and the Mansfield Guards. The laborers besieged the McDonough House, and the office of the Air Line Company, and threatened to tear down the building. The military were under arms during the evening, but the men attempted no violence. A portion of the laborers were paid $10 each, and are now quiet.

Revolution in Poughkeepsie—The City Government Blocked.

POUGHKEEPSIE, N. Y., Sept. 26.—The taxpayers of this city having refused to vote for an appropriation asked for by the Common Council, the Aldermen, to-night, voted to disband the Police force, and to stop all repairs on public property.

The Governor-General of Canada Made a Peer of the Realm.

OTTAWA, Ont., Sept. 26.—Sir JOHN YOUNG, Governor-General of the Dominion of Canada, has been created a Peer of the United Kingdom. The title his Excellency has selected is said to be Baron LEPAR, taken from one of his estates in Ireland.

Destructive Fire at Cheyenne.

CHEYENNE, Wyoming Territory, Sept. 26.—Half a block on Eddy-street was destroyed by fire last night. The loss is estimated at from $150,000 to $200,000. There is very little insurance.

Weather Report—Extent of the Aurora.

MIDNIGHT, Sept. 26.—Plaister Cove, N. F.—Bright aurora early in the night, now clear; wind, N. W.

St. Johns, N. B.—Bright aurora early in the evening; now clear and starlight.

Portland, Me.—Clear and cold; no aurora.

Boston.—Clear and mild; aurora not very brilliant.

Worcester, Mass.—Clear and cold; wind W.; no aurora.

Springfield, Mass.—Clear; wind N.; no aurora.

Berwick, Conn.—Clear; wind S.; slight aurora.

Hartford, Conn.—Clear; wind N.; some aurora, but not as brilliant as last night's display.

New-Haven, Conn.—Clear; wind south; little aurora.

Providence—Clear; wind south; little aurora.

New-Bedford, Mass.—Clear; little aurora.

New-York—Clear; wind south-west; no aurora.

Philadelphia—Clear and warm; slight aurora.

Baltimore—Cloudy; wind south-east; slight aurora.

Washington.—Cloudy; wind, N. W.; thermometer, 68; no aurora to-night.

Richmond, Va.—Cloudy and cool; wind, N. W.; thermometer, 65.

Charleston, S. C.—Clear; thermometer, 67; no aurora to-night, but extremely brilliant Saturday night.

Augusta, Ga.—Clear; no wind; no aurora.

Savannah, Ga.—Cloudy and cool; wind south-west; no aurora to-night.

Macon, Ga.—Clear and warm.

Montgomery, Ala.—Clear; thermometer 75.

Boyne, Ga.—Clear and pleasant; no aurora.

Lynchburg, Va.—Clear; thermometer 75; no aurora.

Mobile, Ala.—Cloudy, warm; thermometer 79; no aurora.

New-Orleans—Clear; thermometer 77; no aurora.

Galveston, Texas—Clear; wind north.

Houston, Texas—Clear and pleasant; wind north.

Poughkeepsie, N. Y.—Clear and cool; thermometer 66; no aurora.

Albany, N. Y.—Clear and cool; thermometer 65; slight aurora.

Utica, N. Y.—Clear and cool; brilliant aurora.

Rochester, N. Y.—Clear and cool; no aurora.

Syracuse, N. Y.—Clear and cool; little aurora.

Auburn, N. Y.—Clear and pleasant; little aurora.

Scranton, Pa.—Clear and cool; no aurora.

Elmira, N. Y.—Clear and cool; little aurora.

Buffalo, N. Y.—Clear and cool; aurora very brilliant and increasing.

Erie, Pa.—Clear and cool; aurora visible up to 10 o'clock; but now disappeared.

Cleveland, Ohio—Cloudy and warm; brilliant aurora at 9 o'clock; now not visible.

Pittsburg, Penn.—Clear and pleasant; thermometer, 60°; no sign of the aurora.

Cincinnati—Cloudy and cool; no aurora visible here, to-night.

Chicago, Ill.—Cloudy; no aurora visible.

Springfield, Ill.—Cloudy, cool; no aurora.

St. Louis, Mo.—Cloudy and cool; no aurora.

Keokuk, Iowa—Cloudy and appearance of rain.

Davenport, Iowa—Cloudy; suddenly, no aurora.

Des Moines, Iowa—Cloudy; had heavy thunder storm this evening.

Milwaukee—Clear and cold; no aurora.

Madison, Wis.—Cloudy and warm; little aurora was visible.

St. Paul, Minn.—Clear and warm; very bright aurora; presents fine appearance.

Minneapolis, Minn.—Clear and warm; magnificent aurora, presenting fine appearance.

Omaha, Neb.—The aurora on Saturday night was the most brilliant ever witnessed here; it has been raining most of the past week; thermometer 50°; little aurora visible to-night.

Cheyenne.—Clear and pleasant; a slight aurora.

Denver, Colorado—The aurora on Saturday first appeared a little south of east, with vivid red colors, shifting at intervals to a white. It shifted its position slowly southward. At 1 o'clock it was nearly south, presenting the most magnificent hues.

Deer Lodge, Montana.—The finest display of the Aurora ever witnessed occurred Saturday night. The display was quite brilliant last night and colors beautiful.

Salt Lake—There was the finest display of the aurora Saturday night ever witnessed. There was none to-night.

Rutland, Vt.—The weather is clear and cool. The aurora, at 10½, was very strong and brilliant, affecting the telegraph wires. It is now (9½ A. M.) fading away.

BASE-BALL.

White Stockings vs. Athletics—The Position of Wisconsins.

PHILADELPHIA, Sept. 26.—The game between the Athletics, of this city, and the White Stockings, of Chicago, was decidedly the best played here this season. The batting of both sides was at times heavy, and the fielding first-class. About 5,000 people witnessed the game, which resulted in favor of the visitors 19

OUR STEEL MANUFACTURES.

Bessemer Steel—Its Invention and the Distinctive Character of the Process—The Harrisburg Steel Works—The Plant—The Chemistry—The Manufacture—The Character of Bessemer Metal and its Adaptation to Railways.

From Our Special Correspondent.

HARRISBURG, Sunday, Sept. 18, 1870.

In 1854, Mr. Henry Bessemer read before the British Association of Mechanics and Engineers, a paper, in which he described with great detail and scientific accuracy, a method of making cast-steel, by forcing a powerful blast of air upward through the bottom of a vessel containing cast-iron. The well-known ability and metallurgical knowledge of the inventor, the high reputation of the practical iron and steel makers who constituted his statements, and the apparently sound theoretical basis of the scheme, caused a profound sensation in England. It was well known that melted cast-iron treated with air, sometimes kept much of its original heat, and for a reason not well understood. Various patents had been taken out for treating it with a blast of air, but they were found to give no practical results. One feature to which Mr. Bessemer attached vital importance, was the use of an immense volume of air, injected in such a manner as to hurl the fluid metal in the form of spray, or small pellets, about the interior of a suitable vessel, thus rapidly and thoroughly exposing the largest amount of its surface to the action of atmospheric oxygen. The point where all other methods had failed was here. A stated supply of air playing leisurely over and within the bath of metal would oxidize the impurities so slowly, that the heat developed would be more than counterbalanced by radiation, and the result would be the cooling and solidification of the bath before any material effect could be produced. But the extreme ebullition produced by the mighty blast to which Mr. Bessemer treated it, and which flung the molten iron in sprays and sheets, and kept them dancing up and down in the up-rushing air, enabled the oxygen to act upon a surface almost indefinitely great, and, by the resulting combustion, develop heat more rapidly than it could be carried off by radiation and the escape of the heated atmospheric nitrogen. His method, therefore, in creased the heat of the bath to a degree of temperature utterly without precedent in the whole range of chemistry and the arts. Now, the master-key to the Bessemer process is the fact that the metal is kept thoroughly fluid during the whole process of purification, and when that is complete, and the steel is made by the addition of the requisite quantity of carbon, it can be run into ingots, homogeneous in their constitution, and of any practical size desired. Originally, Mr. Bessemer stopped the blast before the purification was complete, in order to have in the metal a sufficient quantity of carbon to constitute steel. But there was encountered a practical difficulty in determining the moment for stopping the blast with sufficient exactitude; and, accordingly, Mr. Robert Mushet took out a patent, the substance of which consists in continuing the blast until all the impurities are removed to the utmost practical degree, and adding afterward a metal containing a known quantity of carbon.

When Mr. Bessemer first announced his invention, he only claimed to have demonstrated experimentally the possibility of making steel by it. It was foreseen that there would be great difficulty in perfecting the machinery, and determining the proper materials, and being unwilling to import unnecessarily his great enterprise by pushing it into practice before it was really practicable, he withdrew it from public view for nearly two years, which time he occupied with careful experiments, and finally overcame every obstacle which would have overthrown it. The process was then introduced, first in Sweden, and successively into other countries, and since 1860 the Bessemer process has grown rapidly in favor and real utility, until now the annual product exceeds 125,000 tons of metal.

We have spent a delightful day at the Pennsylvania Steel Works, located on the east bank of the Susquehanna, about three miles south of Harrisburg. This establishment was built in 1866-7 by A. L. Hollet, Esq., now of the Troy Bessemer Steel Works, and has cost just about one million dollars. The plant is as follows:

A. Iron foundry, for machine and structural castings.

B. Machine shop, for construction and repairs.

C. Steel foundry, consisting of a, three large cupola furnaces, for melting the iron; b, two small air furnaces, for melting spiegel-eisen; c, two five-ton converters, with revolving gear; d, casting pit, with cranes, ladle, and hydraulic apparatus; e, blowing engines, double, and capable of working up to twelve hundred-horse power; f, force pumps and accumulator for hydraulic power.

D. Forge for blooming the ingots, containing: a, four heating furnaces; b, one thirteen-ton hammer; c, one six-ton hammer.

E. Rolling mill, containing: a, one train twenty-three-inch rolls, driven by a vertical engine, working at five hundred-horse power; b, six heating furnaces; c, one two-ton hammer; d, rotary cross-saws, with engine; e, straightening presses, drills for fish-holes, &c.

Let us examine the details of this process in order to comprehend the necessity for this tremendous enginery. The iron, which is to be converted into steel, is melted in one of the cupola furnaces. Each cupola will melt in twelve hours from eighty thousand to one hundred thousand pounds of pig-iron; after which the accumulated ashes and slag must be discharged, the furnace cooled, and the cinder removed. While this is doing, the second cupola is lighted and the third is ready for use whenever the others have been stopped for charging or general repairs. In this way one cupola is always ready for service. The metal is tapped off frequently into a large ladle standing upon scales, where the weight of the charge may be accurately determined. When everything is ready, the charge, of about twelve thousand pounds, is run into one of the converters. This is an egg-shaped iron vessel, about fifteen feet high and nine feet diameter, hung by trunnions upon a gooseneck iron frame-work. To one trunnion is attached a heavy pinion, worked by a rack driven by a water-engine, which rotates the vessel in a vertical plane. Through the other trunnion, which is hollow, passes an air-pipe, which is continued down the outside of the vessel, and opens into a chamber at the bottom of the converter. This chamber communicates with the main cavity of the vessel through 120 holes, each three-eighths of an inch in diameter. These holes are contained in ten cylindrical fire-bricks, imbedded in refractory materials, and the whole bottom—chamber and all—is removable at pleasure. The main cavity is lined a foot thick, with a mixture of crushed quartz, sand and clay, and opens at the top obliquely upward through a "nose," pointing toward the chimney. It is evident that the blast must pass through a trunnion, because the vessel could not be rotated if received in any other manner. Prior to receiving the charge, the lining is heated nearly to whiteness, and the vessel is inclined to a horizontal position, or beyond, in order to keep the air-holes above the fluid iron, while charging. The blast is then turned on, the vessel righted, and the pressure of the blast keeps the metal from pouring through the air-holes. Immediately the reactions commence.

The cast-iron used in the converter contains about two per cent. of the element silicon, which has a powerful affinity for oxygen, and the combustion of which generates the enormous heat spoken of. Those who have partially examined the process generally suppose that this heat results from the combustion of carbon, always contained in pig-iron; but this cannot be. Aside from the fact that the carbon does not burn much until after the heat has nearly reached a maximum, it can be demonstrated, as a problem of chemical physics, that it does not yield any considerable amount of heat, as compared with silicon, and of the heat which it does yield, the greater part is probably carried off with the escaping blast, and is therefore lost to the iron. When the carbon oxidizes, which it does in the latter stage of the conversion, a long body of flame issues from the converter of a dazzling whiteness. It is so brilliant that the eye scarcely endure it, and with the heavy roar of the blast, the rumbling from the volcanic turmoil within, and the showers of sparks thrown out of the vessel in thousands of scintillating pellets, forms a scene which must be witnessed in order to be appreciated.

The chemical reactions are, with a single exception, identical with those which take place in all other processes for the conversion of cast-iron into wrought-iron or steel. Indeed, the Bessemer process is merely a new mechanical means of effecting old reactions. In puddling, in the Siemens-Martin process, in short, in all of them, we have, on the one hand, certain oxydizable matters, and on the other, the oxygen which converts them into gases, which escape up chimney, and slags which separate from the iron, like oil from water. The Bessemer is the same, with the exception of the behavior of a single element—phosphorus. This substance does not oxidize in the converter. Yet in the puddling furnace, it oxidizes readily, and is found always in the slag, usually as phosphoric acid. The explanation is, that at very high temperatures, phosphorus has less affinity for oxygen than for iron—a proposition supported by a great many facts, and according well with the laws of chemistry. Unhappily, we substitute to co-substitute it well generally, and to steel particularly. Most iron ores contain it, and in the blast furnace it is concentrated into the pig, especially when smelting the red gray irons necessary to the Bessemer process. Hence it is, that for this process those varieties must be selected which do not contain it.

The completion of the blow and the exhaustion of the impurities is denoted almost instantaneously by a change in the whiteness of the flame to a fiddle, furious, translucent glare, accompanied with smoke. The change occupies scarcely three seconds, and great care must be taken to turn down the vessel the moment the conversion is complete. The product contained in the vessel is nearly pure iron, in a state of perfect fluidity. A small quantity of oxide of iron is mechanically mingled with it, which must be removed, and for this purpose five or six per cent. of *spiegel-eisen* is run into the vessel. The manganese of this metal at once decomposes the oxide of iron, takes up its oxygen, freeing the iron, and passes into the slag as oxide of manganese. The carbon of the spiegel is partly oxydized and partly remains in the iron, giving it its steel properties. After waiting a few seconds for this reaction to complete itself, the vessel is rotated further down, and its contents discharged through the nose into a ladle, wielded by a huge hydraulic crane, and then poured through a hole in the bottom of the ladle into iron ingot molds. The blowing occupies about twenty minutes, and the loss of metal is about thirteen per cent.

The rotation of the converter, which, together with its charge, weighs over thirty tons, the shifting of the ingot molds, ladles and other parts, and the removal of the ingots, are all effected by hydraulic power. These simple machines are delightful objects to the eye of the engineer who seeks for the ideal of his art, not in ostentatious display, but in silent, resistless force and the simplest possible mechanism. The arrangement of the converters, casting-pit and cranes forms a unit of mechanism of which these are constituent and essential parts, with every dimension so intimately related to all the others as the parts of an automatic machine. The arrangement at Harrisburg is the work of Mr. Holley, and is a total renovation of the English method and an immense improvement.

The ingots are highly crystalline, and generally contain many cavities, which, however, have not been exposed to the air, and therefore close together perfectly under hammer or in the rolls. The weight of the ingot is about 1,400 pounds, and it will make two railway bars. It cannot usually be hammered, until after it has been cooled and reheated. It averages a foot square, and is three or three and a half feet high, and has considerable taper. In order to enter a 20-inch train of rolls, it must be bloomed down to about six inches, and for this purpose it is reheated to full orange redness, hammered, and cut in two. It is reheated a second time for rolling, and each bloom receives seventeen passes, issuing from the last one over thirty feet in length. The ragged ends are sawed off by two saws, placed twenty-eight feet five inches apart, and when cool the bar is just twenty-eight feet long, having contracted five inches, and weighs usually sixty-seven pounds to the yard—more or less, of course, according to pattern.

Bessemer steel, if properly made and never treated otherwise than as designed, is almost a perfect railway metal, at least as nearly so as any steel can be. It contains, according to present practice, about .15 to .50 of one per cent. of carbon, and is, therefore, rather hard, though still a decidedly low steel. This is as it should be, since the head of the rail must be very hard, in order to resist the powerful and repeated hammering of railway travel. If made materially harder, it would begin to exhibit brittleness, and if softer, would wear out faster. The life of a steel rail is unknown, as none have ever worn out in this country; but many instances have occurred where they have outlasted eight or ten iron rails laid side by side, or and to end, with steel, and are still in good condition. The wear of an ordinary good iron rail is shown by the lamination, or gradual smashing and splintering, of the head, and the development of the welds made by piling. This never occurs with cast steel of any sort. Cast steel has no weld, no parts of unequal hardness, and wears gradually and smoothly down, as the metal is ground or polished away by the wheels. At the joints there is a flattening, or rounding off, which, I presume, will never be prevented by any kind of metal. Occasionally, if the metal be a little too hard, a small piece is sometimes chipped off at the end, though this does not often happen. Steel rails have sometimes broken clean through; but this generally has occurred at curves, where the rail has been bent laterally, by hammering cold with a sledge. This treatment is fatal to any steel, and being useless and uncalled for, is protested against by the manufacturer. The percentage of steel rails which have broken is wonderfully small, though I possess no reliable data on this subject.

The Pennsylvania Steel Works have been uniformly successful with their product, and make a metal of absolutely uniform quality. I regret to say that they are content to use three-fourths foreign iron, and only one-fourth American. It is true that very little Bessemer pig is made in this country, and, as a disinterested party, I sincerely hope that the Bessemer steel-makers will be compelled to adopt measures to produce domestic irons for their own consumption. In truth, blast furnaces are as much a part of a Bessemer plant as a rolling-mill, and no company ought to undertake to manufacture the steel, unless they are able and willing to build them. It is impossible to doubt that suitable ores may be found in many localities, and with patience, enterprise and a judicious outlay of capital, may certainly be smelted with profit to the steel maker. English irons used at Troy and Harrisburg cost over $40 per ton, while domestic irons used at Cleveland cost about $25. But it will require a better blast-furnace practice than that which is now in vogue throughout Pennsylvania, and which is simply horrible in a majority of cases. The cost of making Bessemer rails is nearly $100 per ton, and as that is now the market price, the margin of profit is small. The retrenchment must be chiefly in the cost of pig-iron. It will require vast research, innumerable analyses, and the most thoroughly scientific and skillful blast-furnace practice, to effect a reduction of the cost. But in a State so rich as Pennsylvania in mineral wealth, there certainly seems to be no sufficient reason why the effort should not be successful.

The annual product of the Pennsylvania Works may be practically estimated at fifteen thousand tons of rails, all of which are consumed by the Pennsylvania Railroad Company.

We go next to York, to examine the "Codrus" process.

Rev. Dr. Maclay, of the Methodist Mission in China, announces that an alphabetical dictionary of the Chinese language in the Foochow dialect, on which he and Rev. C. C. Baldwin

[illegible]

A young girl, riding with her lover to the North Adams Cattle Show, a few days ago, was thrown from the wagon and instantly killed.

Seven prisoners escaped a few nights since from the Clinton County, Iowa, Jail, and have not since been retaken.

The fish ladder in the Saginaw Valley, Mich., increases every year. Cold air qualifiers are used for preserving purposes.

The citizens of Toledo, Ohio, are desirous of having public bathing-houses, similar to those at Philadelphia and New-York.

A woman of sixty years of age, at New-Haven, has turned burglar. She recently broke into a private mansion and carried off a child's savings bank.

"Lord and Lady Hamilton, of England, and their beautiful daughters," recently caused a flutter of pleasant excitement at Atlanta, Ga., while en route to this City.

The present population of Illinois is 2,527,922, against 1,711,951 in 1860. What a wonderful increase, and yet the Chicagoans are not satisfied.

The California and Oregon Railroad is now in operation to Sale, a distance of sixteen miles north of Ubiah and fifty-six miles south of Marysville. It opens up many fine districts for settlers.

The colored schools of Richmond, Va., are classified as follows: Grammar, 2; Intermediate, 4; Primary, 11. There are thirty-four white schools.

A tragedy, at Wheeling, West Va., while walking about in search of food and shelter, the other night, fell over a bluff sixty feet high, and was fatally injured.

A Montgomery, Ala., exchange says: "Every lady who admonishes her servants into greater truthfulness, fidelity, self-respect and orderly ways of life, is doing a missionary work of the best sort."

Oliver Lacour, of Kingston, in this State, a young man about twenty-four years of age, eloped last week with a woman of fifty, the wife of his employer. Before leaving, she had her husband to a brutal manner with a stick.

Valuable silver mines have lately been discovered by three adventurers about seventy-five miles from San Bernardo, Cal. The ore is said to be richer than any yet found in California.

The tobacco crop of Pennsylvania is unusually good this year. Both in quantity and quality it exceeds anything ever seen before in that region of country. The planters complain of a scarcity of labor.

Kansas City, Mo., is progressing very fast. A recent valuation of property shows that the investments made in bricks and mortar, during the present season, aggregate more than $1,000,000.

Mrs. C. Henry, a lady residing at Albany, recently went to Troy on a short visit in company with her child and a nurse. While engaged in making purchases at a store, the nurse ran off with the child, and has not since been heard of.

An enterprising citizen of Worcester, Mass., went to Sutton, in the same State, for the purpose of seeing a ghost. He remained for a sufficient length of time to a haunted house, but failed to learn anything supernatural.

Mr. J. McDonald, Member of Parliament for Antigonish, Canada, was arrested a few days ago on suspicion of having been implicated in the burning of his own house, with two men named Baxter and Delaney, who are also in custody. He has given bail for his appearance.

A Mr. Pickels made a very brief, but eminently satisfactory speech at a meeting of school men at Wilmington, Del., the other night. He announced that the public debt had been wiped out, and that the City Treasurer had still $90,000 to his credit.

An unnatural son at Albany recently indulged in the cruel sport of knocking down his aged father on the public street. The poor old fellow, who escaped into an insurance office, told the agent that his boy had once attempted to kill him with an ax.

A boy, twelve years of age, engaged himself recently at Beaufort, S. C., upon the neck of his cruel mistress by cutting into it with a razor. She had flogged him in a most unmanlike manner, apparently without sufficient reason, and he took that way of showing his gratitude. The woman will not die.

A religiously-inclined person named Cortez, confined for eighteen months at the jail in San Francisco, grew in the esteem of his jailers so much that they permitted him to make short excursions into the city. He finally ran away, but was subsequently captured at a saloon while in the act of sipping coffee and ogling a pretty waiter girl.

Two gentlemen, partners in business, at St. Joseph, Mo., recently went out guning. After walking some distance they came upon a fine flock of birds, and separated for the purpose of bagging a greater number. The starting of the birds was the signal to fire. The guns were discharged, but, by a singular coincidence, none of the shot was left for the birds. It all went into the breasts of the gentlemen themselves.

Death of the First Female Lawyer of Missouri—A Tribute of Respect to her Memory.

The Missouri *Democrat* of the 17th inst. says: "The untimely death of Mrs. Lemma Barkeloo, a young lady who had recently been admitted to the Bar, has already been announced. The members of the Bar met yesterday morning in the Probate Court-room to pay a tribute of respect to the deceased. Major Lucien Eaton called the meeting to order, and Hon. Albert Todd was elected President.

On taking the chair, Mr. Todd said:

"Brethren: We have come together on an occasion of profound sadness. In the death of Miss Barkeloo, the Bar of St. Louis loses a brother, and the world a sister. She had just received license to practice in the highest Courts of the State. The fact is worthy of our attention, for, in the variety of occupations open to women, she chose our profession, which is regarded as the most difficult. She was the first woman admitted to practice in this court, yet she was entirely free from those impulses which of late have led many of her sex into the arena monopolized heretofore by men, and which we call the advocates of woman's rights. She was in the first bloom of womanhood, in excellent health; no one who saw her could understand that her prospects could ever she entered upon the profession from moroseness or disappointment. She went into it as free from any such suspicion as any person I ever heard of. I thought it most praiseworthy; I thought it an experiment that was worth trying. She was prior to John Lane, look at the qualities of this young woman for winning success. It was my privilege to fill the chair of a law professor of Washington University, and she was a member of the law class. I saw she had the talent to win success. She was modest, and had equanimity and true moral courage. She was courageous in attempting difficult tasks, and had the power of attracting others to her. She was of a kindly disposition, and made herself pleasant and agreeable to others. At the close of the last session of the law school, she called at my office to consult me about opening an office here. She said her parents lived in Brooklyn, New-York. I advised her to open her office at home, where she would have the support of her friends. She said she had thought of that, but had courage to open an office anywhere, if there seemed a chance for success. I told her I considered her chances as good here as elsewhere; that the Western people were generous and liberal in their sentiments, and she would be better sustained here than in the East. She was earnest and hopeful, studious and painstaking. The time will come when the Bar of this city will erect a monument to her with a broken column, typical of her genius.

During the eulogy of the Committee, Mr. W. H. H. Russell spoke in fitting terms of the deceased.

The Committee, upon retiring, reported the following resolutions, which were read by Mr. Woods and unanimously adopted:

Resolved, 1. That in the death of Miss Lemma Barkeloo, we deplore the loss of the first of her sex ever admitted to the Bar of Missouri.

2. That in her erudition, industry and enterprise we have to regret the loss of one, who, in the morning of her career, bade fair to reflect credit upon her profession and a new honor upon her sex.

3. That our sympathy and condolence be extended to the relations of the deceased.

Major Eaton, in whose office she studied and practiced, spoke of her as a well-read lawyer, an untiring student, and an agreeable and amiable friend. She was earnest, quiet and untiring in her studies, and, being gifted with a fine intellect and good judgment, gave promise of great attainment. He had never known a student more assiduous in his studies, who devoted so fastidious attention of her profession. Here had been an apprentice

A NOVEL SPECTACLE.

The Ocean Restored and Inundated—Burning Widow Crushed.

The Chicago Journal of the 16th has the following:

A somewhat singular spectacle is just now visible at the intersection of Eighteenth-street, Canal-street and Candiport-avenue. It is nothing more nor less than a "lone, lorn" widow woman living in a small house located on an island. And the way she happened to become thus isolated from the world around her was this: the three streets which intersect each other at that point are being graded, macadamized and improved by the city authorities. In the progress of these improvements and changes it was found that the little house of shanty order owned and occupied by this "interesting widow, with five small children," stood in the way, and its removal was necessary in order to push forward the improvements to completion. The contractors accordingly opened negotiations with the widow for the purchase of her "cabin." They offered her twenty-five dollars for removing it out of their way. The owner failed to "see it." The contractors importuned, entreated, threatened; but the woman stubbornly refused to budge out of their way, or to sell her property at any such paltry figure. The work of enlarging and improving the streets was brought to a stand-still. Council after Council of War was held, and finally it was decided to dig a trench entirely around the house, and fill it with water from the adjoining hydrants. This was accordingly done, and in a few hours there was the widow and her children were dwelling upon an island. The water in the trench was four or five feet deep, seem ill greatly, and severed the floor, so that the occupants were compelled to mount a table to keep dry. The situation became distressing, and some acts of repentance visited the spot, and, in spite of the shocking bad manners, ignominiously. Still the heroine of the occasion obstinately refused to capitulate, and when our informant left the place, the remaining master of the situation, determined, apparently, never to strike her colors while her ammunition and provisions hold out. Her only means of reaching "terra firma" is by a rope stretched across the trench from a pump in the rear of one window of her domicile, so as to form a tolerable bridge. If the situation remains unchanged much longer, perhaps some enterprising party will establish a ferry, for her convenience and the benefit of his own pocket. This is an age of bold enterprise, as well as of strange novelties.

THE GUARIAN FESTIVAL.

First Day of the Entertainment at Jones' Wood—Lively Times Among the Germans.

The three days' annual festival of the natives of Guabik, or the Canacadu Volunteers, as this sect of the natives of the Kingdom of Wurtemburg is designated, was begun yesterday, at Jones' Wood, under most favorable circumstances. All day, from noon until late in the afternoon, the Wurtemburgers of this city flocked with their families to Jones' Wood, to participate in the festivities, which the Canacadu Volunteer Society have arranged for them. The opening of the festivities was announced shortly before noon, by a salute from the cannon, and bellows accompanied. During the afternoon the visitors were entertained among other things with Bostonian national dances, acrobatic performances and cakewalks. Dancing was indulged in on the platform "until late in the evening." The theatricals, which were arranged by Mr. Keil, with good taste, were generally admired by the visitors, especially the last column in the centre of the festival grounds, which, with its display of fruits of every description, formed a sort of an arrival-point, which, in conjunction with the general character of the festival, which, as stated before, at home is a sort of agricultural fair of the peasantry at the close of the harvest time. This Corinthian column was forty-eight feet in height, fourteen feet higher than those used for former occasions, and has been erected at a cost of $600. At the front corners of the base of the column, the respective busts of Schiller, Mozart, Beethoven and Humboldt. The tableaux, under the direction of Mr. Schreyer, Bauer, were very creditably presented, and consisted of the following representations: 1. The news of the breaking out of the war; 2. Bismarck; 3. Taking leave; 4. The divorce; 5. The battle-field and the return home.

It is estimated that not less than 5,000 persons visited the festival grounds yesterday. Today the grand picturesque and allegorical procession spoken of in yesterday's Times will take place on the festival grounds.

THE BILLIARD CHAMPIONSHIP.

Arrival of Rudolph in New-York—His Advantages in Venice—The Disputed Cue Safe.

Rudolph, the French billiard champion and the holder of the diamond cue, in reference to whose whereabouts considerable excitement has been occasioned in billiard circles, particularly in regard to the proposed contest with Jonathan Dubois, which, by the terms of the agreement, was to have taken place last evening, arrived in this City from Europe on Sunday. Upon the departure of Rudolph for France, in June last, the above-mentioned cue was the stake fixed upon for the match, but the French player, not having been apprised of the July 15, rules, theories were indulged in in reference to the contest, and the money already staked was thought by many to be forfeited. Rudolph yesterday, however, called upon Geo. Wilkes, the stakeholder, and although desiring a brief period to prepare himself for the great game, expressed his willingness to play the match, if play last evening. The game did not take place, but will in all probability in a few days. Upon the departure of Rudolph for Europe no war had been declared, but upon his arrival in France, he became enthusiastic in his country's cause, and volunteered in the army. He has been in several engagements, and has escaped with his life, than are the most dangerous. In the latter he was taken prisoner and paroled, giving a pledge not to again engage in the hostilities during the continuance of the war. Upon leaving Paris for the front, he deposited the diamond cue, then in his possession, with a friend in that city, with specific instructions that should he not return in four days, it should be forwarded to Mr. Wilkes. The arrival of Mr. Rudolph in New-York puts an end to all comments which may have been indulged in, calculated to injure him as a man, or impugning his good faith as a professional billiard player.

The School Ship Mercury—Rewards for Merit.

The Commissioners of Charities and Correction proceeded to the school ship *Mercury*, yesterday, lying near Hart Island, for the purpose of presenting medals to such of the scholars as had earned them by good conduct, &c. All the Commissioners were present on the occasion, and a large number of invited guests accompanied them. The presentation was made by Commissioner Isaac Bell, President of the Commission, in a very appropriate speech, after which a visit of inspection was paid to the ship, and the boys were "piped to dinner" greatly pleased with this day's entertainment. The medals were distributed as follows:

Gold medal, for seamanship, to William Devine; silver medal, for seamanship, to Wm. Brennan; bronze, for seamanship, to Thomas McGovern; gold medal, for scholarship, to Edward Shannon; silver medal, for scholarship, to Benj. Thompson; bronze medal, for scholarship, to Wm. H. Rawson; gold medal, for good conduct, to Wm. Madden; silver medal, for good conduct, to Wm. H. Barre; bronze medal, for good conduct, to John Knott.

The Chinese in Belleville.

Although the Chinese laundrymen at Belleville have been manifested in their work, their employer, Capt. Harvey, is the object of great indignation among the working men of the town. He has on two or three occasions received threatening letters, which, however, have not been followed by any overt acts of vengeance. A public "indignation meeting" is now called, to be held this week, at which resolutions will doubtless be hurled at the offender.

Custom-House Affairs—Liens Upon Imported Goods.

It is not generally known that section seventeen of the act of July 18, 1866, was repealed by section three of the act of March 2, 1867, and, strange as it may appear, many merchants have been acting in accordance with the obsolete provision of law. Section seventeen of the act of July 18, 1866, provides that when the Collector of Customs has been duly notified of the existence of a lien upon any imported articles, he shall, before delivery of such goods, give reasonable notice to the party or parties claiming the lien. The repealing section states that whenever the Collector shall be notified in writing by the owner, or consignee of the vessel that a lien has been entered upon merchandise, as aforesaid, the Collector may refuse to deliver such goods until satisfied that the freight has been secured or paid. The practice is, now, to require the notification of the lien to be made in due form, and by the owner or consignee, and not by any clerk of the party; and, furthermore, the parties making the lien, instead of detaining goods to a large amount, can obtain satisfaction by the de-

BOOK TRADE-SALES.

Tenth Day—A Large Attendance and Fair Prices.

Messrs. Leavitt & Strebigh began their tenth day's sale yesterday with the invoice of Thomas Nelson & Sons, of Philadelphia. The "Holy Bible," with Dore's Magnificent Illustrations, Family Register, &c., elegantly bound in antique morocco, full gilt, gilt leaves, two volumes, sold for the trade price, $36. Dante's "Inferno and Purgatorio and Paradiso," in two volumes, containing 114 illustrations by Doré, one of per volume, trade price, $20. Milner's "Paradise Lost," illustrated by Dore, one volume, imperial folio, full red morocco, sold for $37 50; the next preceded, and sold for $37 50; trade price, $50; same, half morocco, retails for $60. Cassell's "Bunyan's Pilgrim's Progress," illustrated, the trade price of which is $6, went for $6 25½. "Gulliver's Travels," illustrated, half morocco, gilt, brought $8, just half the trade price. "Le Fontaine's Fables," illustrated by Doré, gemotte, half morocco, gilt, brought $18, the trade price being $36. "Don Quixote," illustrated by Doré, in two vols., $18 in below the trade price, and Hurst's "Georgetown," Random, 1810, was disposed of at $11 a volume, the trade price being $20.

The sale was then continued with the invoice of Thomas Nelson & Sons, of this City. "My Own Library" brought $1 in for the five volumes, exactly one-third of the trade price. "The Library of Short Stories" went for 40 cents a volume, 20 cents below the trade mark. Three dollars or one half the trade price was obtained for "Ballantyne's Entertaining Library for Boys," in two illustrated. The "Gouila Library," also by Ballantyne, brought good price—much better than was obtained for the "Lady of the Lake Library," three elegantly gilt-edged volumes, which were sold for the trifling sum of 10 cents a volume. The invoice also included a large number of Oxford University Bibles and Prayer Books. The Bibles were sold in sizes at prices to $1. In regarding to binding, Hymn-books sold at 50 cents to $1 62.

The invoice of L. Reeve & Co. was next taken up. A book on "British Beetles; an Introduction to the Study of our Indigenous Coleoptera," by R. C. Rye, sold for $1 50 a volume; the trade price is $2. Bates's "Naturalist on the Amazon," an interesting work, brought $3 62, $6 50 below trade price. The illustrated edition of the "Gold Book of Fairs," which sells to the trade at $47 50 per volume, was disposed of at $8 12½. "A Second Century of Orchedaceous Plants," illustrated from the magnificent published in Curtis's *Botanical Magazine*, and also the work of the first Century, was sold for $19; the trade price is $29 25. "A Monographic Revision of Siskin-Hinclays," was disposed of for $24—less than one-third of the trade price. "The Pilicos Exception; or, Colored Figures and Descriptions," brought $3 50 a copy, and "Ornithology," was disposed of for $26. "Illustrations of British Mythology," by Mrs. Hussey, were sold for $14; one-third of the trade price. "Curtis' British Entomology" sold for $13 per volume, the trade price for the set (eight volumes) being $120.

The invoice of Ackermann, Murray & Son, of Queen-street, next called, the first on the list being Hallam's "Constitutional History of England," which sold for 56 cents a volume. The trade price in England is 5 shillings, or about 87 40 cents currency. The commissions of the sale also have adjourned for dinner, the reasonable time been long calculated for the invoice of Fourcade, of London, which includes a number of books in the Arabic, Chinese, Persian and Spanish languages. They brought prices varying from 45 cents to $1 10. Grund's Italian French Paintings" went for $27, and Humphrey's "History of the Art of Printing," in Chinese, &c., for $15. Mansfield's "Rudiments of Jewish Grammar," $1 25, and Murray's "Geographical Distribution of Mammals," $6 75. Ottley's "Italian School of Design," 1 volume, imperial folio, sold for $23 50; Owen Jones' "Examples of Chinese Ornament," imperial 4to, 100 beautiful plates in rich colors, $11, and Owen's "Odontography" for $8 50. Fucoux's "Ancient Costume of Ecclesiastical Orders; Costume," brought $25 50, and Waring's "Arts connected with Architecture," 4to 50. Siebold's "Nippon, or Descriptions of Japan," sold for $17.

Chapman & Hall's invoice consisted of a variety of books on travels, novels and reminiscences, all of which were disposed of at prices varying from $2 to $3 25—the latter being the price per volume obtained for the works of Washington Irving.

At the evening sale the invoice of Edward Lumley, No. 311 New-Oxford-street, London, was the first called. "Anglo-Saxon Remains from Before the Norman Conquest," "Anglo-Saxon Text of Thomas Taylor's Illustrative Original Saxon Characters," originally sold in the trade at five shillings English, yesterday brought 45 cents, and the "Anglo-Saxon Local Nomenclature," by Fred. H. Leo, Ph. and LL.D., of Halle, 75 cents. The "Arabian Nights Entertainments," adapted for the young, with 100 illustrations, sold for 20 cents. "Artist Lovers," beautiful stories of Quentin Matsys, the famous painter of Antwerp, and Age of Jonathan Boucher, was sold for the small sum of 10 cents. "The Saint Augustine Manuel," A little Books of the Contemplation of Christ, or of God's Words, went for 20 and 37 cents. Cobbett's price is five shillings English. The life of the same Saint brought but 50 cents. Trade price cache as the "Manuell." A charming volume of ballads and songs from the German brought but 25 cents. A splendid edition of the "Book of Common Prayer," used in the service book of the High Church in Russia, and printed in Russian, was sold at a low figure of $1 12½ per volume, although the trade price in England is £3 12s., or about $20 50. Another aristocratic copy, sold in England at the trade at £12 sterling, the two volumes brought $7 50. A large number of Catholic works were disposed of at a very low figure, scarcely the price of the paper. "Dibos' Book on Coins," Ancient and Modern, silver, brought 75 cents, and the best engravings of Georgie Chrimmers, sold in London for $47 wholesale, but $2 25.

The sale of books was here brought to a close, although the catalogue was by no means finished. It appears that a very large number of the English books offered for sale, for the reason or other detained at the Custom-House. Not one-fourth of Mr. Lumley's invoice has been delivered to the auctioneers, and in consequence the sale of the English stock caused much disappointment to both buyers and sellers. It was except the unfortunate circumstance, a most fortunate one for the gentlemen who had in the City for many years. Among the invoices disposed of since Saturday, were those of Provost & Co., of London; Ward, Lock & Tyler, Warwick House, Paternoster-row; R. Gnarlich, Chapman & Hall, Piccadilly; Jas. Edward Jarman, No. 84, Oxford-street, London; Wm. L. Allison, successor to James O'Kane & Co., of the City; Caldwell & Co., of No. 24 Nassau-street; H. Wood, Jr., (chromos); A. L. Bancroft & Co., San Francisco, Cal.; Samuel Rayner & Co., (envelopes) and Jas. B. Smith & Co., (blank books), of Tompkins & Jackson; J. Ewing and Edward Jones, of Boston, each have stereotype plates, which will be sold today. E. B. Smith & Co., of Detroit, Mich.; H. H. & T. W. Carter, of Boston; Ray & Chatterton, of this City, and Malloy & Brother, Madison, Wis., were among the firms represented yesterday not heretofore reported. A number of chromos were disposed of, after which the sale was adjourned to this morning, when the stationery and other remaining articles will be offered for sale.

Another of Judge Bedford's Sharp Sentences.

The proceedings before Judge Bedford, at the Court of General Sessions, yesterday, included the trial of Dennis O'Neill, indicted on a charge of having made an attack on Charles Krausen, of No. 501 Hudson-street, in Houston-street, near Macdougal, a short time ago, at a late hour, and of having robbed him of a watch. A man named Featherston was tried and convicted of being an accomplice in the act, and was sent to State Prison for a long term. O'Neill and Featherston were seen at a liquor-store on the corner of Hudson and King streets by Policeman Frank Wilson, with the stolen property in their possession. The accused was found guilty of robbery in the first degree. Although a young man, the Police gave him a bad name, and said he was a troublesome and dangerous character. He was sent to State Prison for twenty years.

The Erie Suits in Paterson.

Mr. Abbott and Mr. Scudder, counsel for the Erie Railway Company in the McGregor tees case, in the Passaic Circuit Court, concluded their arguments for a nonsuit yesterday. The points of their argument have been already noted in these columns, and the arguments, yesterday, consisted mainly of an elaboration of the original propositions, the reading of charters, statutes, &c. Upon their conclusion, Judge Bedle adjourned the Court to 10 o'clock this morning, when the decision upon the motion for a nonsuit will be delivered.

Criminals Sentenced in the Court of General Sessions.

Kate Marsh, the little girl who aided a man and a woman to commit a horrible assault on a respectable work-girl, was sent to the House of Refuge by Judge Bedford, at the Court of General Sessions, yesterday. In imposing sentence, the Judge said Police Capt. Kennedy and Superintendent Jourdan had reported the accused to be an adept at crime. Her parents deserved severe punishment for helping her to lead an evil life.

Otto Kreuthers, aged eighteen years, was sent to the Penitentiary for two years, for having stolen $100 from Wm. Johnson, of Lexington-avenue, corner of Fiftieth-street, for whom he acted as stable-boy.

Thomas Cosgrove, charged with knocking down John O'Malley, belonging to the brigade of Cork, in Front-street, and with having robbed him of a watch, pleaded guilty on the indictment, and was subsequently sent to State Prison eight years and six months.

Edward Cooper, charged with obtaining money from Peter Curry of No. 237 Avenue A, and first from the paying teller of the Bull's Head Bank, by means of worthless checks, pleaded guilty. Sentence was suspended at the earnest solicitation of the prisoner's wife, from whom letters were read in which she stated that her husband had been led into his offense in consequence of gambling. The prisoner was discharged on promising to make restitution of the money fraudulently obtained by him, and to behave himself in the future.

John Raymond, aged fourteen years, was sent to St. Catharine's Reformatory for having stolen a diamond ring from No. 18 Mulberry-lane, where he was employed as errand boy.

John Doolan, was sent to the same place for having stolen six coats from R. Arnout, of No. 247 Water-street.

The Court then adjourned until this morning.

MUNICIPAL AFFAIRS.

Board of Aldermen—Tickets Speculators—Polling Places.

The Board of Aldermen met at 3 P. M. yesterday, Mr. Coman in the chair. A communication was received from Augustin Daly against the passage of the ordinance licensing ticket speculators. It was laid over.

The President said that members must hand in their lists of polling places on Wednesday or on Thursday next. The Board then adjourned to Wednesday next.

Board of Assistant Aldermen—Assistant Secretary in Central Park.

The Board of Assistant Aldermen met at 3 P. M., yesterday, President Garvin in the chair. The ordinance empowering and directing the Controller to issue stock, (about $150,000,) the proceeds to be applied to the construction of an observatory, &c., in the Central Park, was concurred in.

A resolution was adopted changing the name of Laurens-street to South Fifth-avenue.

Twenty-fifth-street, from Sixth-avenue to the North River; Ninth-avenue, from Thirty-fourth to Forty-fifth-street; Forty-fifth-street, from Fourth to Fifth-avenue, were ordered to be paved with Belgian pavement.

ment of the plaintiff, received a percentage on the gross earnings. It is also charged that Fisher and the plaintiff gave orders for large quantities of paper of Fisher, Porter, Taylor & Co., to Messrs. Gouverneur and Kemble, and that, in known cases, therefore, he (the Concern) paid more than market rates, which he (Porter) claimed, through that plaintiff could himself have, and which he said he (Porter) did for his firm. Porter's plea, and Fisher's, were substantially the same, and that it was understood among bidders that Porter had sole charge of the purchase of the paper, and that it was understood among them that it (Porter) was to be purchased through him, and that this understanding and the preferential patronage to Porter, induced the Concern to pay more for its paper than it other wise would have done, and that, before making any charges on its name, fame and credit, Dr. LANAHAN says that it is the duty to ascertain the truth of facts to believe or disbelieve, and that he (Lanahan) was not satisfied of and did not believe in the truth of the charges of fraud, and that, on the contrary, the testimony of such facts, acts and practices showed that the plaintiff was misled and saw that the interest he acquired in said Book Concern, and sought to retain, was in the nature of a gift, and that the charge by him, of or concerning Mr. Gouverneur, was made for the purpose of obtaining an injunction in the Chancery Department of the Methodist Book Concern for the Account concern and in the discharge of his (Dr. LANAHAN'S) duty as assistant agent and editor of the Concern, and not from any ill will or malice toward the plaintiff. It is further charged in Dr. LANAHAN'S answer, that the charge was made in a certain firm named by him from about July, 1869, to July, 1870, and that all offices on another firm also named, from about 1868 to 1869, were performed by Gouverneur through J. F. Porter, the party directly referred to, and that Porter demanded and received a percentage from those firms on all orders sent to them during those periods.

LAW REPORTS.

COURT CALENDAR—THIS DAY.

SUPREME COURT—GENERAL TERM.

Held by Barnard, Cardozo and Sutherland, J.J.

J.J.—Court opens at 10 A. M.

Non-enumerated causes only will be taken up.

SUPREME COURT—CHAMBERS.

Held by Barnard, J.—Calendar called at 11 A. M.

Not down causes Nos. 128 and 129.

TRIAL TERM.

Part I.—Held by Curtis, J.—Calendar called at 10 A. M.

Nos.		Nos.	
2022—Reed vs. Chafee.		2040—Cuff vs. Whitney.

COURT OF APPEALS.

ALBANY, N. Y., Sept. 26.—The Court of Appeals calendar for Tuesday, October 4, stands as follows:—Nos. 162, 164, 165, 166, 167, 168, 169, 170, 171, 172, 136, 140 and 151.

DECISIONS.

SUPREME COURT—CHAMBERS—Before Judge Brady.

In the matter of Thomas Taylor, an alleged lunatic; order granted.

SUPREME COURT—CHAMBERS—Sept. 26.

SPECIAL NOTICE TO THE BAR.

Thursday, Sept. 29, will be the last day to file notice of issue for the first Monday, October, motion calendar. All notice of issue must be filed by 5 o'clock on that day. If not so filed they will be placed on the third Monday motion calendar, unless otherwise ordered by the Court.

By order of the Court.

CHAS. P. LOEW, Clerk.

B. C. BRAMER, Clerk at Chambers.

COMMON PLEAS—SPECIAL TERM—Sept. 26.

Before Chief-Judge Joseph F. Daly.

PRACTICE—TAXATION OF COSTS.

Volts vs. Orrlieb et al.—In this case, which is a suit on undertaking, the answer was on motion stricken out as sham. Plaintiff gave notice of taxation of costs, fixing the amount at full costs as in cases where trial has been had, which was allowed by the Clerk. Defendants' counsel excepted to the bill of costs on the ground that where the answer was stricken out as sham under section 159 of the Code, a judgment must be entered as by default of an answer, and the bill of costs fixed accordingly, which excludes all costs except those allowed before notice of trial. The Court held the exception of defendants' counsel to be good, and taxed the bill of costs accordingly, allowing to plaintiff his costs before trial and the costs of motion to strike out the answer. John White for plaintiff; Christopher Rise for defendants.

BROOKLYN CITY COURT.

Before Judge Nelson.

Samuel McNabb vs. John Voorhees.—This was an action to recover $5,000 damages for injuries sustained by the plaintiff, on the 6th of November last, at the hands of the defendant, who, it was alleged, in driving at a furious rate, ran over and injured the plaintiff to the amount claimed. It was, however, maintained by the defendant that the injuries had arisen from his negligence, and on that account, the Court granted a non-suit.

CT. 2. Chase, for plaintiff; E. C. Platt, for defendant.—This case coming on for the second time before a jury, after being discharged, counsel a communication to be handed to the Judge, complaining him on his conduct on the Bench. Judge NELSON, in reply, expressed himself very much surprised at such an application, and thanked them for the attention that had been given to the business of the Court.

Jan. & July	68	100 Mil. & St. Paul	63½

MONDAY, Sept. 26—P. M.

The failure of all peace prospects between Prussia and the Paris Provisional Government led to rather lower quotations from London and Frankfort, this morning, and caused our Gold Room to advance to 113¾ ₱ cent., as against 113 on Saturday. This advance was well sustained up to the close of Bank hours, although not backed by the course of the Foreign Exchanges, which, if anything, were a shade weaker than on Saturday: London 60-days, 109½@109¾ ₱ cent. for the best Bills.

In the Money market the rates keep low on call loan to the Brokers, and on prime Mercantile paper, 6 (short date, 7 ₱ cent. per annum is accepted as Bank and on the Street. As remarked in our weekly review, there is a class of time negotiations that is quoted much higher than 7 ₱ cent. relating to the new Railway undertakings which were thrown out of their calculations upon the Foreign Money markets by the occurrence of the War. We hear of 12@15 ₱ cent. per annum being paid on such paper.

On the Stock Exchange the feeling in the Public Funds of the United States was less firm than on Saturday, owing to the lower quotations by Cable from London and Frankfort. The difference was not observable until after the 1st P. M. Government Board, when the 6's of 1881 were marked 1⅛ ₱ cent. weaker than on Saturday night, and weaker also than the sales early in the forenoon. In the other 5-20s and in the long 6 ₱ cents. of 1881, the difference was about the same, and also the same on the 5 ₱ cents. 10-40s. There was no particular pressure to sell, but rather a suspense in the market, awaiting further news from abroad. In the State Bonds the bidding was stronger for new Tennessees, and in Pacific Bonds 6 ₱ cent. Gold Mortgages business was done at the best price of Saturday in Centrals, while Unions were ¼ ₱ cent lower. On the Miscellaneous Shares there was a renewal of activity in Pacific Mail, with transactions at 32¾@33 ₱ cent., as against 32¼@¾ at the close of business on Saturday. The New-York and Western Railway speculation, the *Bull* interest had the advantage. The advices from the West are in favor of higher figures for the Rock Island, Lake Shore and North-west Stocks, in respect both to the gross earnings and net profits of these lines, as compared with last season. The profits of the North-west Company for August, over and above expenses and interest, were $565,170, and this result places $1,552,895 to the credit of income on both classes of the Stock since the 1st of June, including a small balance carried over from the late Fiscal Year. The improvement in Income is due, in a large measure, to the saving in running and contingent expenses, under the new Tracy Administration of the property. The rate at present is only 21 ₱ cent., as against 42 ₱ cent. this time last year. As four ₱ cent. already stands on Income account, to the credit of both classes of the Stock, there can here reasonable doubt that five ₱ cent. for the half year, in cash, will be divided to the Preferred and Common Stock bidders in December. The same party, substantially, manages the Rock Island property, which today advanced to 117¾ ₱ cent. Their half-yearly Dividend period is October. We are not advised as to whether the regular division will be advanced to 6 ₱ cent., making with the April Dividend 10 ₱ cent. for the year, or an extra Scrip Dividend declared. The buyers of the Stock appear to have great confidence that one or the other division of profits is sure to take place. The Stock of the Ohio and Mississippi Road recovered to 32 ₱ cent. New-York Central Stock and Scrip were firmer than on Saturday, and the St. Paul's steadier. The recently-introduced Union Pacific Shares sold as cheap as 33½ ₱ cent. In regard to the Lake Shore Road—Buffalo to Chicago—we are advised today of the most satisfactory traffic, not as well as gross, and there is no doubt that the line is on the high road to prosperity, both in respect to its immediate and prospective business. The gross traffic is now going on at the rate of nearly a million and a half of dollars ₱ month. We hear through other quarters than the friends of the Road that the passenger trains were never known to be so heavy on the Southern Shore of Lake Erie, and never more promptly run.

After the late Boards the following quotations were made as compared with Saturday night, market closing strong but dull.

CLOSING QUOTATIONS, SEPT. 26.

	Saturday.	Monday.
United States 10-40s	109⅝	109⅝
United States 5-20s of 1862	112⅞	112⅞

As an error occurred in our estimate of the Second Quarter's revenue, in our weekly review, we republish the figures corrected:

Quarter.	Dec. 31.	Dec. 31.	Dec. 31.
Customs	$40,000,000	$41,000,000	$42,000,000
Taxes	31,000,000	34,000,000	36,000,000
Total	$71,000,000	$75,000,000	$78,000,000

The Philadelphia *Ledger* of Sept. 26, says of the Coal market:

"There is little change to note in the anthracite coal trade the past week. While there has been some demand for all sizes of coal there has been more for others than for the large sizes, the prices steady and prices on the whole firm. The demand for shipment, for domestic use, and on the lines of the several carrying companies, has ruled unusually strong, as the past week, but not for the general anxiety to sell as much coal as possible at present prices for future delivery we should no doubt have had to advance the figures of our quotations. The shipping prices of coal on Saturday at Reed, Richmond, Philadelphia, for shipments from Port Boston, stand as follows: Chas. Henry were, for Schuylkill Red Ash, $4 75@$4 90; Egg and Stove, $4 75@$5; Stove and Chestnut, $4 50@$4 65; Broken, $4 50; and Chestnut, $4 25@$4 40; Anthracite Broken, $4 50; Egg, $4 75; Stove, $4; and Chestnut, $4 25. To the prices within the limits above named, the Reed Ave. ste. Boston Stove grade. Consignee vessels at the close of the past week, were not in as good supply as they had been for a week or ten days before, consequently freight charges were firm, about as follows: Reed, to Portland, $1 75; Shennandoah, $1 90; Boston, $1 90@$1 95; Dorchester, $2 20; Lynn, $2 50; Roxbury, $2 40; Salem, $2 50; Marblehead, $2 60; Provincetown, $3; Brooklyn, New-York, and Newark, $1 50; Bridgeport, $1 75; New-Haven, $1 75; Wilmington, $1 90; Charleston, $2 25; Baltimore, $1 50. Tuesday, if a vessel stood, there will be a meeting of parties interested in the trade to fix the prices for next September by which to adjust wages at the mines the first week in October, when it is expected that the basis will be lowered, in which the miners will no doubt object, and trouble in some of the coal regions may arise. At the present price of coal in the market, the present high and prospective business profits of operators, their continuance to mine coal at heavy loss upon the wages of the past year, is not to be thought of. The coal trade, on the whole, has been fair the past week. The Reading Railroad brought down of all kinds for the week ending on the 23d inst., 121,161 tons, against 116,266 the previous week, and for the week ending Dec. 31, 2,800,000 tons, against 2,611,000 tons in corresponding time last year, being an increase of 189,000 tons. The product of coal of the anthracite, semi-anthracite and bituminous coal regions for the week, so far as reported by the several carrying companies, is 619,000 tons, against 600,000 tons the previous week, and for the year, so far as reported, 19,000,000 tons, against 18,000,000 tons, being an increase of 1,000,000 tons. In the above aggregates of coal produced last week there is included 36,000 tons of anthracite, 13,000 tons of semi-anthracite, and 40,147 of bituminous. The lessened shipments this week, as compared with shipments in corresponding time last week, are mainly owing to the suspension for the fact that the work of water in the Delaware and Hudson Canal, as previously notified, has very materially reduced tonnage for that route."

The *New-York Times Europe*, of Sept. 12, says: "The rains which fell especially for the first three days of the week, have very materially improved the appearance of the meadows, and some grain-farmers, who were discouraged with the prospects of their crops, consider left them to be cut at this late and unpromising season of the year, with a fair chance of ripening by the delay. Since Monday a heavy reduction on Oats, we have the novel agricultural feature presented of hay being worth equal in Oats, weight for weight, seven quarters of useful, well-conditioned clean food, procurable at the price of a load of hay. We expect, therefore, that livery consumers, and the, should foreign importations diminish, our own fall crop of oats crop, with a still more confident eye to France, may lead to some reaction upward; while, if so, then, how equally deplorable, must follow, in spite of the large supplies of Indian Corn, the prospect of the crop being wholly on the side of the Prussians, and our supplies of new English quality as well as of foreign being plentiful, we have further given way in value about 2s. ₱ quarter, and the total absence of all speculative spirit may for a time keep the trade in unduly low condition. We have accounts from Germany that the outstanding crops have suffered materially from continued rains and the want of sufficient hands, and this may change the present political blockade of the Prussian ports into a commercial one, as we advance in the season (Michaelmas), unless a complete change of the current of the war takes place. The Grain Growers of Germany expected, and it seemingly need a revenue of the invasion should be the predominating force, there is no telling how scarce food may become not only in France but throughout Europe. The incubus of the war, though generally felt now in the stagnation of markets and enhanced rates would soon be removed by a sudden change."

BANKING AND FINANCIAL.

HARVEY FISK, | A. S. HATCH.
FISK & HATCH,
BANKERS AND FINANCIAL AGENTS,
OFFICE OF THE CENTRAL PACIFIC RAILROAD,
AND ALL ITS BRANCHES,
No. 5 NASSAU-ST.,
NEW-YORK, Sept. 26, 1870.

FIVE-TWENTY BONDS ARE SELLING today at an average of 111¼, and at the price if the Government should allow their to run five years—they pay only three and three-quarter per cent. per annum.

SIXES OF 1881, TEN-FORTIES AND CURRENCY, at present prices, pay only four and a half per cent. interest per annum.

CENTRAL PACIFIC SIXES, into which so many are now wisely converting their five-twenties and other Government bonds, are today selling at 90 to 90¼ flat, that is, the three months' interest now accrued goes to the purchaser—pay, at this rate, seven per cent. per annum.

We say "wisely," and for the following reasons: The main line is finished, fully equipped, with no floating debt, and is worth over one hundred million dollars; the sixes are a first mortgage on this property; they cannot be increased, and the amount is only $26,000,000; the gross earnings from Sept. 1 to Sept. 15, were $5,017,000 gl, and for the first fifteen days in September reached $335,000, and will reach fully the enormous sum of $6,000,000 this year; the net earnings on their local business alone are enough to pay the interest on these bonds without taking into account at all their immense through business; their receipts this year for corresponding months are twenty-five to thirty per cent. more than last year, and we have no doubt the increase will be fully in this proportion the coming year.

We have known all about the affairs of the road from its commencement, and that the men connected with it are careful and prudent business men; and, in short, we have no hesitation in recommending holders of Government bonds to make the exchange.

The difference of about 22 per cent. is a sure profit.

The bonds bear interest six per cent., January and July, both principal and interest payable in New-York City, dollar for dollar, in United States gold coin.

FISK & HATCH.

GEORGE OPDYKE & CO. are agents for the sale of the following desirable securities, which they offer at low prices:

N. Y. and O. Midland First Mortgage Bonds, seven per cent. gold.

St. Louis and S. E. Railway First Mortgage Bonds, seven per cent. gold.

Alabama State 8s.

New-Jersey Town Bonds, seven per cent.

Some excellent Western 6s per cent. securities.

COMMERCIAL AFFAIRS.

NEW-YORK, Monday, Sept. 26, 1870.

The receipts of the principal kinds of Produce since our last have been as follows:

Ashes, pkgs	15	Leather, sides	10,007
Beef, bbls	1,000	Spirits turp., bbls	2,111
Beef, tierces	25	Rosin, bbls	5,577
Cotton, bales	2,510	Rice, pkgs	222
Cotton-seed Oil, bbls	40	Cut meats, pkgs	301
Cotton-seed, sacks	100	Bacon, pkgs	1,000
Dried Fruit, pkgs	455	Lard, pkgs	115
Eggs, bbls	237	Lard, tcs	200
Corn-meal, bags	200	Butter, pkgs	2,007
Flour, bbls	12,000	Cheese, pkgs	11,071
Wheat, bushels	276,820	Tallow, pkgs	1,000
Corn, bushels	75,770	Oil, lard, bbls	15
Oats, bushels	200,562	Oil-cake, pkgs	194
Rye, bushels	1,000	Seeds, pkgs	760
Malt, bushels	15,070	Tobacco, hhds	1,000
Barley, bushels	28,720	Tobacco, lbs. and cs.	1,100
Grass-seed, bushels	260	Sumac, bags	174
Peas, bushels	1,000	Wool, bales	1,000
B. E. Peas, bags	465	Hops, bales	1,000
Hops, bales	1,000	Feathers, bags	25
Hides, sides	1,000	Moss, bales	25

The export movement since our last, as reported in the Merchants' Exchange, Fine-street, have been as follows:

Exports of Produce to Foreign Ports from the Port of New-York, from Sept. 19, 1870, to Sept. 26, 1870, inclusive:

Wheat	1,000,614	Barley	104,677
Corn	1,000,000	Rye	1,000
Oats	1,000,000	Peas	16,000
Rye	1,000,000		

HAY—Sale Hay has been in fair demand at 65c. @ 70c. ₱ 100 lbs. for shipping lots, and 75c. @ 80c. for prime. Straw has been inactive at 60c. @ 65c. ₱ 100 lbs. for Long Rye Straw.

HOPS—Continue in slack demand at 15@18c. for new crop, 1869 crop has been very dull at all kinds. Prices have been nominal. Foreign nominal. New Crop Pacific also nominally at from 25c. @ 30c. Crop Oregon at 30@35c. New Crop Wisconsin, Ohio and Michigan, 25@30c. ₱ lb. Old Hops in demand and firm.

HIDES—Cuban Hides have been in fair demand at 24c. ₱ lb. for Matanzas, and 23c. for Cienfuegos. Other Hides have been dull and nominally unchanged.

COTTON—The market continues quiet, there has been much inquiry, though prices have been quoted a trifle lower. The sales reported amount to 1,000 bales, have been disposed of since our last (of which 100 bales to spinners), including 415 bales to spinners, 540 bales to shippers and the balance to speculators. Middlings, closing at 15½c. ₱ lb. Mutually lower business, but prices easier and declining. Sales of Low Middling, including 1,000 bales, for last week, at 15c. ₱ lb. Sales of Middling, including 1,000 bales, at 15½c. ₱ lb. Sales of November, at 16½c. @ 16½c.; 100 bales, December, at 16½c. ₱ lb. Sales of January, at 16½c. @ 16½c.; 100 bales, February, at 16½c. ₱ lb.

Receipts of Cotton at this Port.

Saturday	1,178	1,178	14
Monday	1,000	1,000	1,000
Low Middling	15½	17½	17½
Middling	15½	17½	17½
Good Middling	15½	19	19

Receipts of Cotton at the Port.

Receipts this week	2,178	2,178	14
Receipts since Sept. 1	2,178	2,178	14
Receipts this week last year	1,000	1,000	1,000
Receipts since last year	1,000	1,000	1,000
Receipts since Sept. 1, 1869	1,000	1,000	1,000
Exports this week	2,000		
Exports since our last	2,000		
Exports since Sept. 1, 1870	2,000		
Exports last week last year	1,000		
Exports since Sept. 1, 1869	1,000		
Exports for the year ending Sept. 1, 1869	1,000		
Exports for the year ending Sept. 1, 1870	2,000		
Stock at this port	1,000		

FLOUR AND MEAL—There has been a very moderate business reported in Flour and Western Meal, and prices have been generally quoted a shade lower, as follows: Fine and Superfine Flour, $4@$4 50; Extra State, $4 50@$4 75; Fancy State, $4 75@$5; Extra Western, $4 50@$4 75; Fancy Western, $4 75@$5; Extra Genesee, $4 50@$4 75; Fancy Genesee, $4 75@$5; Extra Southern, $4 50@$5; Fancy Southern, $5@$5 50; Extra Ohio, $4 50@$4 75; Fancy Ohio

H. J. RAYMOND & CO.,
TIMES Office, New-York.

Advertising Rates of the New-York Times.

Ordinary classified advertisements, 20 cents per line each insertion.
Business Notices, fifth page, before Marriages and Deaths, 50 cents per line each insertion.
Special Notices, fifth page, after Marriages and Deaths, 50 cents per line each insertion.
Advertisements on eighth page, 50 cents per line each insertion.
City Items, with word "advertisement" prefixed, 50 cents per line each insertion.
Deaths or Marriage Notices, $1 each insertion.
The above have been the fixed advertising rates of the NEW-YORK TIMES for the past eight years, and will not be changed, although our circulation has largely increased during that time.

To Advertisers.

Advertisers in the TIMES are requested to bring in their replies at as early an hour in the day as possible. If received after 12 o'clock it will be impossible to classify them under their proper heads.
☞ For the accommodation of up-town advertisers, advertisements for insertion in the TIMES will be received at No. 1,238 Broadway, between 30th and 31st-sts., and at No. 49 East 125th-st., between Bway and 4th-av., and at same rates as are charged at office of publication.
☞ Messrs. DREXEL, HARJES & Co., Bankers, No. 1 Place Scribe, Paris, are the accredited agents for the NEW-YORK TIMES in that city.

Notices.

We cannot notice anonymous communications. In all cases we require the writer's name and address, not for publication, but as a guarantee of good faith.
We cannot return rejected communications, nor preserve manuscripts, unless specially requested so to do.

NEWS OF THE DAY.

THE WAR.

Our Madrid correspondent telegraphs that the journals of that city commented largely on the recent frequency of the visits of the North-German Ambassador to Gen. PRIM, and that on inquiry he learned that the belief is held in Government circles that after the proclamation of the Prussian King as Emperor of Germany, a son of the King of Saxony will be placed on the Spanish throne. The Austrian Minister of Foreign Affairs assured M. THIERS, in the recent interview, of his deepest sympathy with France, but intervention was now impossible. M. THIERS, it is said, will offer the Czar important concessions in the East, in consideration of Russia's good offices. According to a Brussels dispatch, the Belgian Press denounces the "arrogance of Prussian pretensions." A London dispatch says Belgium is grieved and alarmed by the failure of the peace negotiations. The same dispatch says a treaty for the release of the wounded in Belgian hospitals has been signed between Belgian and Prussian representatives. A Brussels dispatch says that NAPOLEON progresses to issue a manifesto in reply to the last proclamation of the Government at Tours. The authorship is ascribed to the Ex-Emperor's private secretary. Dispatches from Tours represent that addresses have been received from all parts of France announcing adherence to the proclamation of the Government. The *Moniteur*, now published at Tours, yesterday contained a proclamation issued by the Provisional Government of Paris on the 20th inst., reaffirming that the policy of France is not to cede one inch of territory or one stone of a fortress.

The French report of the battle near Paris, on the 19th, represents that the Prussians were driven back at the first attack of the French, and afterward reformed in the wood of Meudon, and compelled the French to retire under their fortifications. The Garde Mobile, in the official report, is said to have behaved well, but the breaking of a regiment of Zouaves is confirmed. Communication between Tours and Paris is still kept up by means of balloons. Omnibuses have ceased to run in Paris, the horses being required to transport troops rapidly to menaced points of the city. The Prussian cavalry are at Meudon, and strong forces are also at Bougival, Rueil, Nanterre and Chatillon. Balloon intelligence represents that the Prussians appear to have abandoned the St. Denis side, and to intend an attack at Sceaux. Prussian shells had ceased a fire within the fortifications at Vincennes, which was soon extinguished. A Tours dispatch, dated at noon yesterday, says that beyond skirmishing nothing important had occurred at Paris. A Saarbrücken dispatch to the London Times says a large force, composed chiefly of Bavarians, is marching toward Lyons.

The garrison of Strasbourg are said to be ignorant of the events that have transpired in France, and believe that an army is marching to their relief. The bombardment has not caused irreparable damage to the great cathedral, the astronomical clock of which is still going. The French Government denies that Marshal BAZAINE has made proposals to surrender Metz. Advices by way of Saarbrücken say that on the 22d inst. BAZAINE made a feint on the side toward Mercy-la-haut, to cover an attempt to escape in the direction of Thionville. His forces encountered the Germans seven miles from Metz, and were driven back with serious loss. Marshal BAZAINE sent out no prisoners taken by him to the commissaries.

GENERAL EUROPEAN NEWS.

A modification of the Spanish Ministry is expected.... The resignation of DE ROMAS, Captain-General of Cuba, will probably be accepted at Madrid, and Gen. CODROYA is likely to be his successor. The idea of the cession of Cuba to the United States is gaining ground at Madrid.... Yellow fever is on the increase at Barcelona, and has also broken out at Valencia.... The rinderpest prevails to such an extent among the cattle of Hesse-Darmstadt that none are allowed to pass thence into Prussia.... All political prisoners at Rome have been set free. Gen. CADORNA made an address to the Provisional Government of this city, on Saturday, in which he congratulated them that Rome would again be the capital of the Kingdom.

GENERAL.

It has been decided that a widow may continue the business of her husband without taking out a new license, provided she has the bonds changed to her own name.

The water-works of Rochester were completed yesterday. The aqueduct is seventeen miles long.

The Odd-fellows of the District of Columbia formally welcomed the Grandsire of the Grand Lodge of the United States last night at Washington. The Freemasons laid the use of their temple for the occasion.

There were ten deaths from yellow fever at New-Orleans on Sunday.

The Tyne crew left Canada for England on Saturday, all attempts to arrange matches with them having failed.

Sir JOHN YOUNG, Governor-General of Canada, has been created a Peer of the United Kingdom with the title of Baron LEITRIM.

The shore end of the Panama and West India Cable was laid at Kingston, Jamaica, on Sunday, and is working well.

Hon. ROBERT C. GRIER, Judge in the Supreme Court of the United States, died in Philadelphia on Sunday evening, at the age of seventy-seven.

A game of base-ball was played at Philadelphia, yesterday, by the Athlete Club, of that city, and the White Stockings, of Chicago, in which the latter won by a score of 12 to 11.

The Haymaker Base-ball Club, of Troy, beat the Olympic, of Washington, yesterday, by a score of 19 to 15.

Extensive preparations are going forward for the State Fair of North Carolina, which occurs at Raleigh, commencing on the 14th of October.

A fifty-mile walk, for the championship of America, took place at Boston yesterday. The winner was Mr. J. ADAMS, of New-York, who made the whole distance in nine hours and fifty seconds.

A fire occurred at Cheyenne, Wyoming Territory, on Sunday night, which destroyed buildings valued at $150,000 or $200,000.

A Democratic Convention met at Hudson, yesterday, nominated county officers, and indorsed the ticket and platform of the Rochester Convention.

Preparations for the fair, to be held at St. Louis, Mo., next week, are in progress on a large scale, and it is stated that the exhibition of cattle, &c., will be the largest ever seen in America.

The Kansas State Fair opens at Fort Scott today. The indications are favorable for a very successful exhibition.

The Committee of the Common Council having charge of the Farragut obsequies left for Portsmouth last evening. A large number of organizations have already made known their intention of taking part in the ceremonies. The remains of Admiral FARRAGUT will be landed at the foot of Canal-street, at 10 A. M. on Friday.

The *Hermes* was lying at anchor off Staten Island all day yesterday, until 5 P. M., when she put to sea, hoping to elude the attentions of the French corvette.

The Commissioners of Charities and Correction yesterday proceeded to the school-ship *Mercury*, and distributed nine medals to the boys for seamanship, scholarship and good conduct.

In the Court of Oyer and Terminer, yesterday, before Judge BARNARD, five prisoners were arraigned for murder, and one for manslaughter in the first degree. Their trials will proceed on Wednesday next.

In the action of SAMUEL J. GOODENOUGH against JOHN LANAHAN, commenced in the Superior Court of this City, to recover damages for alleged slander uttered against the plaintiff, in reference to his conduct while employed as Superintendent of the printing department of the Methodist Book Concern, the defendant has filed his answer, reiterating the charges and alleging matter intended to justify them. The substance of the answer will be found in another column.

The Party of False Pretenses.

The duplicity of the New-York Democracy extends far beyond the reconstruction question. The whole platform adopted at Rochester is a series of misstatements and evasions—of direct falsehoods so far as the resolutions relate to the Republican policy, and of plausible but false pretenses so far as they relate to the course of Gov. HOFFMAN'S Administration and the claims of his party in this State.

The untruthfulness is in nothing more conspicuous than in the arraignment of the National Administration, which is charged with indifference to the popular demand for a revision and reduction of taxes, and with inefficiency and extravagance in their collection. Nobody pretends that the internal revenue system is perfect, or that its burdens are as light as hereafter they may be. But they were largely reduced last year, and they have again been largely reduced this year—the aggregate of relief thus afforded not only lessening the load of labor, but contributing to the general convenience of the community. The income tax, besides being reduced one-half, has been shorn of its most obnoxious features; and the main body of internal taxation now falls upon a few pursuits, and those pursuits that admit of taxation with the smallest possible inconvenience to the people. The collection of the revenue, too, has exhibited abundant proofs of the energy and fidelity that have been infused into it under Gen. GRANT. The increased receipts are the best answer to the allegation of the Rochester platform. There is not room for more reduction, and the party that has accomplished so much may surely be intrusted with the completion of its work.

Another accusation refers to the public lands. The first of the Rochester resolutions imputes to the Republican Party "enormous gifts to capitalists of the public lands, wasting the common property of the people." The land-grant system has never been a party measure. Its earliest apostle was a distinguished Democrat, and for its continuance a common responsibility attaches to both parties. The call for its abrogation proceeds as loudly from Republican conventions as from the gatherings of their opponents. Certainly the credit of having stopped it, and saved what remains of the public domain from the combinations of speculators that threatened it, belongs to the Republican majority in Congress. They put an end to the system in the last session. The only grant which passed both Houses—that benefiting the Northern Pacific—received the almost unanimous support of the Democratic Representatives. Yet the New-York Democracy parade as a grievance the very policy which their own friends in Congress were not unwilling to perpetuate!

These are examples of the truthfulness and consistency that characterize the declarations of the party against the Republicans. They have their counterpart in the declarations intended to serve Gov. HOFFMAN, by heaping glory on his administration. It may be well enough to say that in vetoing the railroad-aid scheme he "repelled the encroachment of class interest upon the public Treasury;" but he was very careful not to interfere with the encroachment of another class upon the Treasury of this City. The succor sought for railroads was trifling in comparison with the plunder which is permitted for the aggrandisement of Tammany and its Ring. The Governor's failure to protect the City tax-payers is aggravated by his own identification with the men who squander the tax-payers' money. The enormous gains realized by the members of Tammany operate advantageously to Gov. HOFFMAN and his associates on the Democratic ticket. Nor has Gov. HOFFMAN exerted his influence against the Democratic mismanagement of the canals. "The encroachment of class interest?" has an exemplification in the jobbery and costliness of canal management; and for that, just now, the Democrats are responsible.

And what must be the consistency of a party which applauds Gov. HOFFMAN for having protected the Commonwealth "from improvident laws and dangerous combinations" with the infamous Erie set upon the statute-book, and in the presence of combinations controlled by Erie and Tammany jointly, for purposes as hostile to public interests as to public morals? The Governor's purposes must be judged by his doings. It is idle to plead that he intended no harm. It is enough that he gave the sanction, which invests with legal efficacy, to a measure intended to fortify the Erie plunderers against the attacks of the real owners of the road, and that he thus repaid the Erie gang for the assistance they had rendered to Tammany in carrying an election. A tree is known by its fruit, and the Erie infamy is one of the notable products of Gov. HOFFMAN'S Administration. The fraud which could not have been consummated without his assistance is a fitting illustration of the hypocrisy which marks the program of the Democracy in the present campaign.

The Siege and the Populace of Paris.

It is fifty-five years, last July, since the environs of Paris have experienced the annoyances and horrors of a hostile invasion. Few, except those who were children then, will recall the threatened siege of Paris in 1815, and the approach of the English and Prussian armies during the Summer of that eventful year. But if any of our readers have the curiosity to compare the two invasions, let them take up any stirring narration of the Waterloo campaign—such, for instance, as the witty and vivid journal of the British Gen. MERCER, just published—and they will find the same localities, and even the same fortifications, figuring in those histories, as new from the subject of each day's telegrams. Then, as now, we hear of Gerges and Stains, and Pierrefitte and St. Denis, and Aubervilliers, on the north of the city; or of Colombes or North Valerien, on the West; or Meudon, Sceaux and Clamart, on the south; or of Charenton, Nogent and Bondy, on the east. Then, as now, the Prussian soldiers were occupying the pretty villas and gardens which beautify the outskirts of Paris; but then, they were smarting under the effects of years of exactions and "requisitions" of the French armies, and they demolished, sacked, and ruined every pretty house, chateau, or garden they crossed or entered in their march. The Prussian advance, and the bivouacs around the French capital, were marked by trampled fields and gardens, broken furniture, and gutted houses. Then it was known, as it is now, that heights such as St. Denis, Montmartre and Mont Valerien were the keys to the works which NAPOLEON I. had erected or commenced around the city.

But in 1815 peaceful deputations of citizens and women and children came forth to welcome the King restored, and Prussians and English were hailed as deliverers. No shot was fired and no works were assailed. Now, something more real and terrible is threatening the brilliant capital. A line of "iron and fire" surrounds it; and day by day, the German pickets and infantry creep nearer and nearer to it.

If our readers will examine the excellent map published in these columns on the 10th instant, of the fortifications of Paris, they will see that by some strange fatality, the French have allowed the Germans to cross up through the woods on the south, occupy Versailles, and then the wooded heights of Meudon and Clamart, where soon they will no doubt have batteries. These heights are within three miles of the southern portions of Paris, and from them such rifled guns as we had in our war could throw shells into the Tuileries. They apparently even command such forts as Issy and Montrouge. Fighting has already taken place between Villejuit and Montrouge, which shows that the Prussians are beginning their attack on this weak point in the defenses.

The siege of a city of two millions of inhabitants is an event unknown in modern history. As a dramatic incident alone, it has no counterpart in recent annals. But when one reflects what Paris contains, and what a siege will naturally develop, the merely dramatic character of this great event fades away before the frightful misery, anarchy and crime that are sure to appear. Paris has, at the lowest computation, thirty thousand *proletaires*—its miserables—the most villainous, abandoned, murderous rascals and thieves that any large city ever contained. They live usually from hand to mouth. Their food is from other men's property. They prowl about in the lowest dens of the city, and come forth, like birds of prey, at night, or when the carrion of society is open to them. They are kept down usually by the iron hand of the law. What will they do in a siege, when every gendarme, even, is called to the bastions—when every house is open, and the very lights in the streets are extinguished?

Then there are hundreds of thousands of operatives, who honestly believe that the property of the State and of the rich is as much theirs as their own. Are they likely to starve when the houses on the Boulevards are crowded with food, and the depots of the city and Government are full? There are also thousands of Red Republicans who detest TROCHU and despise the moderate Republicans—who want a "social and democratic Republic" at any cost. There are also Imperialists who lived on the spoils of the Empire and who hate the new régime. And strongest of all, is the great middle class—the bourgeoisie—who fear the thieves and the "Reds" more than they do the Prussians. Besides all these elements of anarchy are the fearful multitudes of honest and suffering poor who could not leave the city and have no provision for the future. How long is Paris with such a population likely to hold out against the best army of modern times, thundering at her gates?

Mischievous Movement.

The appeal to "the native Union men of the South" to meet in Convention, at Knoxville, in November, bodes, we fear, nothing but distraction to the Republican Party. We have no inclination to question the motives of GEORGE W. BOOKER, of Virginia, and A. J. HAMILTON, of Texas, by whom the call is issued, and some of the subjects which they propose to submit to the Convention undoubtedly deserve all the attention that can be bestowed upon them. But there is a tendency to mischief in a movement whose promoters aim at separating native Southerners from those of Northern or foreign birth who have made the South their home, and are earnestly laboring to build up its material interests. It looks like Know Nothingism, in a new shape, and on a limited scale. We are quite aware that following in the track of the Union armies there were adventurers, who have done more harm than good both to the South and the Republican cause! They form, however, a fractional minority of the new population in the South, and their capacity for evil every day grows less. It is absurd then, to exclude the whole body of Northern men from a meeting to consider matters affecting all alike. The Republican Party in the Southern States is not so strong that its managers can afford to foment causes of difference between natives and new-comers. Nor is there any wise regard for Southern interests in a movement which, by the organization of a party, and by discriminating against Northern men and immigrants, must at once check the influx of population and wealth that is needed to hasten and strengthen the prosperity of the New South.

There is another very objectionable feature. The propositions to be submitted to the Convention includes one favoring "compensation to loyal men in the South for property taken for the use of the Government during the war, and the payment of all claims due citizens of the South for services rendered prior to the war." Upon this subject a concerted effort is evidently in progress. The platform of the Republican State Convention of Virginia embodies a resolution in substance identical with that presented in the call of Messrs. BOOKER and HAMILTON. Now, any plan of "compensation" of the kind referred to will open the door to unlimited knavery, to log-rolling and corruption, and to claims involving enormous amounts of public money. There would be no end to expenditures of this description if they were once systematically begun, and certainly none to the rascality which, under the cover of loyalty, would make war upon the public treasury. With such a proposition as this to stimulate "native Union men of the South," we presume the Knoxville Convention will in due time be held. We protest, however, against all attempts to ally with the Republican Party a movement essentially narrow and sectional, and having for one of its objects a scheme that must lead to jobbery of the most flagrant character.

The Lottery of Life Insurance.

Our remarks on the growing tendency in life insurance companies to litigate claims arising upon the death of the insured, elicit from the Springfield Republican an argument that would reduce a life policy to the level of a lottery ticket. Instead of deprecating resistance to claims, the Republican actually "welcomes" it:

"We welcome it, rather. Life insurance is comparatively a new business, and there are many points continually arising on demanding legal decisions, and such decisions can only be reached by litigation. We welcome it, too, because we know how liable the best insurance companies are to be deceived by false pretenses and statements, in spite of the efforts of honest agents, and the judgment of capable, reliable examining physicians. Many times deceptions so practiced cannot be discovered till after death, and it is the duty of an insurance company to contest such cases, both for its own protection and the security of its honest and worthy policy-holders."

We are fully alive to the tricks and frauds to which life insurance companies are exposed,—the suppression or perversion of essential facts, connivance with unscrupulous agents or referees, and generally an indifference to moral obligations which exists in transactions with corporate institutions. All this is undeniable. Equally certain is it that the companies, as trustees for the whole insured body, are in duty bound to protect their funds against fraudulent attacks. About so much there can be no difference of opinion. The debatable question is: At what time and in what manner shall the companies act? The Republican replies, in effect, "By litigation after death;" and too many of the companies—if we may judge them by their practice—seem to entertain the same opinion. We say, the policy should be invalidated during the lifetime of the insured, or not at all.

For even in regard to fraud, the companies themselves are largely responsible. The recklessness with which they seek and accept business, the unscrupulousness which extravagant commissions and other results of loose management have engendered in many of their agents, and the carelessness and not unfrequently the incompetency of a large proportion of medical referees, especially in rural districts,—are circumstances that invite fraud and make it easy. Almost anybody that applies for insurance obtains it from one company or another. Agents are careless in their investigations, and for the sake of their own per-centages, push through applications that ought not to be accepted. The companies, in turn, rely a great deal upon the legal shelter which the Courts afford in resisting claims after death, and are therefore more lax than they should be in investigating and discriminating while the insured yet live.

Manifestly, then, there is room for reform here. The companies owe to themselves and the public greater caution in the employment of agents, and a closer supervision over their doings; greater care in the selection of lives and in the conduct of the inquiries which usually precede insurance; and the cultivation of greater thoroughness and skill in their medical men. When these amendments shall have been introduced into insurance management, we shall hear less of fraud, and still less of litigation.

One means of compelling the companies to reform themselves, and to seek in better management the protection now looked for in the law courts, is the utterance of an emphatic protest, on the part of the public, against resistance to claims after death. Unless the quality of certainty be imparted to a life policy, it is worth very little indeed. No man would pay premiums, year after year, under the belief that he was providing for his family, if he supposed that the legacy would turn out to be a lawsuit. The confidence that is essential will be impossible, however, if companies get into the habit of compensating for their own negligence by contesting policies when they become due.

The true ground to be taken is that which provides for the fullest possible investigation of risks, both before and after acceptance, but prior to death. Of course there should be some limit within which these after-inquiries shall be carried on—say, twelve months from the date of application. But beyond this period, or in the event of death before the period end, the policy should be indisputable. If existing companies are not wise enough to introduce the element of certainty into their business, others will spring up to meet the want which litigation creates. On whatever else the lawyers may be privileged to fatten, at least let them be shut off from life insurance.

France and the United States.

The latest French files abound with expressions of satisfaction at the prompt and cordial recognition which Mr. WASHBURNE tendered, on behalf of the Cabinet at Washington, to the Provisional Government of the French Republic. The response of JULES FAVRE contains a terse and eloquent acknowledgment of our official support of the new order of things, which is more discursively reproduced by the majority of the Parisian journals. Nearly all of these are quite unexceptionable on the score of dignity and good taste. A notable want of both requisites is, however, shown in the columns of the *Liberté*, in which the place of honor is given to a correspondent who concludes a laborious résumé of the relations between the United States and Russia, with a whining sort of appeal for the active alliance of both these Powers with France. This writer concludes without difficulty from Mr. WASHBURNE'S note that the American Republic is favorable to that of France. He implies a regret that no offer of material aid accompanies our expression of sympathy, but attributes this to a doubt, on our part, as to how our alleged ally, Russia, means to act. He quotes the farewell address of WASHINGTON to show that we are opposed to giving anything gratuitously, and suggests that the self-interest of both Russia and ourselves should be appealed to, in order to secure our armed intervention in the present conflict. The terms of these proposed offers are defined as follows: To the United States, "For your armed support, we offer you a station in the Mediterranean, which you can select at discretion." To Russia, "France, by the treaty of March 30, 1856, is thought to have saved Turkey. Her victory at Sebastopol has merely secured the ruin of the Ottoman Empire, at present in an advanced state of decomposition. This Empire is a thousand times more dangerous to the peace of Europe than a belt of Sebastopols on the border of the Black Sea, occupied by all the iron-clads in the world. France consents that you should resume the protectorate of the Eastern Christians, for she no longer wishes to spend a thousand millions for the defense of the Crescent, any more than for that of the Tiara."

Given these conditions, says the writer in the *Liberté*, and the alliance of the three Great Powers will be accomplished, and should the invaders not beat a retreat, they will be invaded in their turn! The sanguine Frenchman further exults over the fact that there is an abundance of iron-clads in our ports—in the prospect of "putting hand-cuffs on John Bull."—and on the probability of the inhabitants of Erin finding employment for the readers of the London *Times*. The whole production is an instructive specimen of a methodical kind of madness which might be passed over without comment, were there not sundry indications that it is shared by a large section of the Parisian public. It may be considered a species of poetical justice to find in the columns of the same journal that headed its war letter "from Paris to Berlin," words like these: "France can no longer fight singly, for Prussia has been followed by all Germany, and the contest is not equal." But it shows an enormous falling away from the republican defiance of 1793 to find a populace even partially clinging to such straws as armed intervention from this side of the Atlantic. There is this to be said, however, that there is not the slightest indication of any such misinterpretation being put on our message by any to whom it was officially addressed, or by the vast majority of the newspapers of Paris.

A London dispatch attributes to BISMARCK and PRIM a conspiracy to thrust into the throne of Spain a son of the King of Saxony. There is nothing essentially improbable in the story. PRIM is capable of anything, and BISMARCK is not deterred by trifles. The proposition to unite the Spanish crown upon a HOHENZOLLERN was doubtless the joint work of their subordinate and German victories may seem to PRIM to remove the only formidable obstacle to the accomplishment of his original purpose, or something not far removed from it. The development of Republican feeling is, on the other hand, a source of danger which some months ago he had less reason to dread. The King of Prussia may yet find work enough in protecting German principles at home; and PRIM may yet be tempted to serve his hand.

Whatever the electoral result of the contest between MCCLURG and BROWN, in Missouri, it seems certain that the liberal cause will gain. The Brown Republicans, with Senator SUMNER and Gov. FLETCHER as prominent leaders, are halting for the abrogation of disfranchisement. They would give complete amnesty as a condition of peace. Even Gov. MCCLURG, the candidate of the section opposed to enfranchisement, so far recognizes the liberalizing tendencies of the time as to urge a generous construction of the law by the registrars appointed to administer it. Hitherto a proscriptive law has been made harsher by official interpretation. The Governor insists that this abuse shall end, that every man who takes the oath of loyalty shall be registered, and that the onus of proving him disqualified shall rest upon the registrars. The effect of this instruction will be to add many thousand to the list of voters in the State.

In Germany the authorities carry matters with a high hand. In some places the military officials have forbidden political meetings, and everywhere rigorous measures are employed against journals advocating opinions at variance with the policy of the Prussian monarch. If King WILLIAM persist in his determination to acknowledge only NAPOLEON or the Regency, and to ignore the Provisional Government as one step toward the destruction of the Republic, it is possible that expressions of German Republican opinion may not be easily suppressed.

With all due respect to the military officers who have returned to Washington from North Carolina, we cling to the opinion that nothing can justify Gov. HOLDEN'S course before the State election, and that nothing can now be gained by attempts to identify the Republican Party with HOLDEN or his tactics. The Tribune's accusations, in reference to the garbling of a letter purporting to record KKLUX outrages, have not been rebutted, and they show conclusively how means of influencing public sentiment are manufactured.

From the telegraphic estimates of VICTOR EMANUEL'S letter to the Pope, setting forth the necessity of the occupation of Rome, we infer that the document realizes the happy mean. When the extremists on one side deride it as too dutiful, and the extremists on the other side condemn it as too arrogant, we may be tolerably sure that it combines the respect which a Catholic sovereign must feel toward the governing head of his Church, with the independence which befits the championship of Italian unity.

The epidemic of youthful depravity still increases. Each day some fresh outrage committed by boy criminals is recorded by the Press. In Philadelphia, on Sunday, two lads—MICHAEL WELSH and JAMES DONNELLY, both sixteen years of age—killed SAMUEL SIBBS, also of the same age, while he was sitting quietly on a door-step. The young murderers were both drunk at the time, and we shall probably hear, in the sequel, that this fact has screened them from punishment. Instances of the same kind reach us from all directions, and it is difficult to ascribe such a state of things to mere accident. It is important that some one should seek out the cause, and devise the remedy for evils so deplorable in themselves, and so dangerous alike for the present and the future of society.

We are perpetually reminded of the dangerous character of newly-discovered explosive agents, and of the need for extraordinary caution in dealing with them. A horrible case occurred a few days ago at Greenock, Scotland. Twelve young men, caught in a shower, took refuge in a deserted smithy. One of the number found there a tin box about a foot square, and another observed a little oil on a forge. Neither thought the discovery of moment, but a third of the party took up a hammer, aimed a careless blow at the box, and in an instant the whole building and eleven of the ill-fated youths were blown to atoms. This dreadful agent of destruction ought to be everywhere guarded against by special legislation, providing penalties of the most stringent character for all neglect of well-defined precautions.

Immigration is checked, not stopped, by the European war. Our influx of thrifty Germans has been brought to a pause—let us hope for but a short time. But from other quarters the rush for the New World still continues, and in numbers suffers no abatement. Thus, although the record of last week does not show the average sometimes attained of a thousand or more per day, it does not fall so very far short of it. The total number of passengers arriving at New-York for the week amounts to 4,408, of whom some 3,000 sailed from Liverpool and 600 from Glasgow. When peace comes, there will probably be an exodus for our shores unparalleled before.

Several balloons have already been sent out from Paris since the investment, and have managed to deliver their advices in safety. A service more critical can hardly be imagined than that of being charged with dispatches to be conveyed in such a manner. Now that the Prussians have captured so many balloons, the balloon service must be especially hazardous. A single bullet, even with the best of marksmen and needle-guns, might fail, at a great distance, to hit such a vehicle. But the practice of a gun throwing many bullets at a balloon must, like that of a fowling-piece throwing shot at a bird, increase greatly the chances of bringing the object down. Perhaps the exigencies of Paris at this moment may lead to important discoveries in aeronautic science. Necessity is the mother of invention, and the existing circumstances of the French capital will at least induce many experiments.

The Battle of Waterloo was for years represented at Astley's Amphitheatre, and constituted one of the most popular entertainments in London. Its like manner Austerlitz and other French victories have long been presented as plays or "spectacles" at the Cirque Impériale to the delight of patriotic Parisians. Performances of this kind have usually been deferred until the war is over. An old fashion to the contrary, however, has been presented at the Crystal Palace at Sydenham. The attractions of the Palace are enhanced, it appears, by the representation of a bloody engagement between French and Prussians; and we learn by the advertisements of ten days ago that "the unprecedented success of the blowing up of the Kehl Bridge at the three last displays, when 79,107 persons were present, has led to its repetition next Thursday." We should have supposed that the associations of bloodshed and misery inflicted on two neighboring and friendly nations, which must be connected with such catastrophes, would certainly prevent theatrical representations of them. Time, at least, it might be thought, would be allowed to cool the bitterness and horror of such memories before they were revived in such a shape. The seats of the Crystal Palace may be urgent, and although what is spent at Upper Norwood is death on the plains of Alsace and Champagne, paying auditors are deemed of more consequence to the management than taste, humanity, or international good feeling.

WASHINGTON.

The Steamer Virginia—Treasury Matters—Return of Secretary Boutwell—Leave of Absence of Clerks for the Purpose of Voting—Postal Affairs—Instructions to the New Minister to England—Miscellaneous.

Special Dispatch to the New-York Times.

WASHINGTON, Sept 26.—It is reported here that the iron steamer *Virginia*, which was sold by the Treasury Department some two months since, to a New-York party, has since passed into the possession of the Cubans. She is an ex-blockade-runner, and was built on the Clyde for that purpose, but it is not believed that the Cubans will be able to do much with her. In the first place her plating is very light, and secondly, though fast, her engines require an unusually large amount of coal, while she has very small capacity for freight. She could not make a voyage of any length without seeking shelter and fuel.

CONDITION OF THE TREASURY.

The coin balance today was $97,000,000; currency balance, $30,000,000; coin certificates, $16,600,000; net Government gold, $81,000,000. The Secretary of the Treasury will give the order for the October sales and purchases at the close of this week.

RETURN OF SECRETARY BOUTWELL.

Secretary BOUTWELL was at his office in the Treasury today, and was warmly welcomed back by the visitors and by the heads of Bureaus. So far as his information goes, Gov. BOUTWELL regards the political situation generally as indicating the election of a Republican House in the Forty-Second Congress by a large majority, and that the Democratic gains are not going to be anywhere near Democratic calculations.

A VISITOR FROM BROOKLYN.

SAMUEL T. MADDOX, Esq., of Brooklyn, was in the city, today, looking after sundry Administration matters connected with the political situation in Kings County. The activity of the Brooklyn Republican leaders indicates that they mean to give Gov. WOODFORD an emphatic indorsement at the polls.

GOVERNMENT CLERKS AND THE ELECTIONS.

The regulations relating to leaves of absence to allow clerks in the Departments here to attend the Fall elections, are making some talk. The tendency is to restrict the leaves of absence to the shortest possible time. Secretary BOUTWELL has directed that those Pennsylvanians living north and west of Harrisburg be allowed eight days, and those east of it five days, and the Secretary of War has made the same regulations for the voters of his Department. The acting Secretary of the Interior has promulgated the following: The several heads of Bureaus in this Department will, on the presentation of this order and on application for the purpose, grant such short leave of absence as may be necessary to voters of Pennsylvania in their respective offices who may desire it for the purpose of registering or voting at the ensuing State election in Pennsylvania, deducting such leave from the usual thirty days of the year.

THE POSTAL SERVICE.

The postal service has been increased within the past year by about one million of miles, but under Gen. GILES A. SMITH'S management of the contract office, this has been accomplished at an increased expense of only a quarter of a million of dollars annually, which will enable the Department to make an excellent financial showing in the next annual report.

A LICENSE QUESTION SETTLED.

The question whether a widow may continue the business of her deceased husband without taking out a new license, has been decided by the Revenue Bureau affirmatively, provided she changes the bonds in her own name.

POSTAL RECEIPTS AND EXPENDITURES.

The following is an exhibit of the receipts and expenditures of the Post-office Department for the fiscal year ending June 30, 1870, estimated from the Auditor's statement:

Receipts for the first, second and third quarters of fiscal year, as stated by Auditor	$15,081,264 55
Deduct money-order funds deposited	382,548 00
Total	$14,671,651 55
Deduct fines in first quarter (not months)	15,623 45
Net receipts for three quarters	$14,156,028 10
Ordinary receipts for year based on above	$18,871,197 46
Ordinary receipts as estimated in 1869	17,100,000 00
Excess over estimate (10.35 per cent.)	$1,771,197 46
Gross expenditures for three quarters, as stated by Auditor	$18,002,781 19
Deducted recreditors of money-order funds	850,000 00
Total	$17,442,781 19
Deduct payment under special subsidies	402,780 00
Ordinary expense for three quarters	$16,982,951 19
Ordinary expenses for year based on above	$22,643,974 92
Ordinary expenses as estimated in 1869	24,540,413 00
Expenses less than estimated (10.5 per cent.)	1,896,438 08
Ordinary expenses for year as above	22,643,974 92
Expenses under special subsidy grants	712,500 00
Total	$23,313,474 92
Ordinary receipts as above, $18,871,197 46	
Receipts for free mails	760,000 00
Receipts for special subsidies	712,500 00 — $20,293,697 46
Total estimated deficiency for year	$3,025,777 46
Balance of appropriation for deficiency for year ended June 30, 1869, unexpended at close of that year, but since drawn and applied to expenses in year ended June 30, 1870	$1,500,000 00
Deficiency to be provided for	1,525,777 46
Appropriation for anticipated deficiency	5,740,000 00
To be provided for as above	1,525,774 46
Total amount left undrawn	4,211,222 54
The receipts of the first three quarters of the fiscal year, as compared with the receipts of the same quarter of the last fiscal year, show an increase of 11.41 per cent., or	1,528,029 62
The expenditures for the same period show an increase of 1.52 per cent., or	231,029 08

CENSUS RETURNS.

No complete census returns from the larger cities have been received. There is intentional delay to allow the Marshals to obtain the names of former absentees. The returns come in slowly from the Southern States owing to the sparsely-populated territory and large sub-divisions.

THE NEW MINISTER TO ENGLAND.

Reports have already been circulated as to the character of the instructions to our new Minister to England, and especially on the subject of the Alabama cla

City, pending the inquiry into the fraud. The Secretary replied, stating that the vessel is now in the custody of the United States Marshal at Newcastle, where she must remain until the case shall be settled.

STAMPS ON CHECKS, DRAFTS, &c.

It appears from inquiry made at the Internal Revenue Bureau the impression is general that after the 1st of October stamps will not be required on checks and drafts for a less amount than $100. This is not the case, as the law affords much relief only in the repeal of the stamp tax imposed on promissory notes for a less sum than $100, and on receipts for any sum of money or for the payment of any debt. Nor will any stamp be required upon the transfer or assignment of a mortgage when it or the instrument it secures has been once duly stamped.

AMUSEMENTS.

Musical.

LE PETIT FAUST AT THE GRAND OPERA-HOUSE.

Opera bouffe, with all its glory of elegance and coarseness, of melody and ribald humor, has again burst upon the town, and in a shape entirely worthy of its merits and traditions. "Le Petit Faust," the third work of the composer so far heard here, and in some respects the best, was listened to last night, at the Grand Opera-house, by a house literally crowded to overflowing. The opera was well sung, well acted, well placed upon the stage, and, as might have been expected, was hailed with thunders of applause. The music is in parts exceedingly vigorous, crisp and original. It is never deficient in sparkle, and in some numbers has no little fascination. We have little doubt therefore that its salient airs will become as popular as the most taking themes of scores of the same class made familiar here before. It bids fair, too, to be equally attractive. There is much clever acting in the piece as witnessed last night; and while the singing must be pronounced rather uneven in some passages, it will compare on the whole favorably enough with that of leading artists in opera bouffe already known here.

Mlle. LEA SILLY, the *Mephisto*, is an artist of striking ability. She has a lively imagination, uncommonly picturesque action, a voice somewhat worn but capable of giving ample effect to the music assigned her, and a figure remarkably imposing and effective. There can be no question of Mlle. SILLY's talent, or that it will win her in New-York a full meed of approbation. Mlle. CELINE MONTALAND, the *Marguerite*, has many personal charms, a pleasing and flexible light soprano organ, and a dash and sense of humor, well calculated to make the most of *Gretchen's* abundant opportunities. M. HITTEMANS is a thoroughly sterling artist in his way, with a *vis comica* that gained speedy recognition, and he apparently makes all that can be made out of *Valentin*. M. GAUBINE, the tenor, has an agreeable presence and bearing, plenty of zeal and gayety, and vocal resources equal to the occasion. M. ANTONY, (*King Clothaire*,) possesses a sonorous baritone and fairly sang the notes set down for him. The minor characters were acceptably performed, the ballet, chorus, and orchestra all unequivocally good, and the scenes, especially in the last act—the concluding picture of which is a perfect blaze of voluptuous splendor—uncommonly beautiful. No lack of appreciation on the part of the audience rewarded all these excellencies. They were, as we have said, greeted with tumultuous plaudits, and the floral gifts showered at the feet of the heroines of the hour were colossal in size and sumptuous in profusion.

It is hardly necessary to say that "Le Petit Faust" is rich in coarseness and overrunning at intervals with prurient equivoque. Such of this as seemed best understood appeared to be highly relished by the audience. When a vast crowd fills a theatre like the Grand Opera-house and goes into ecstacies of enjoyment over things that once ears and delicate minds are accustomed to condemn, there is perhaps no use, at this time and place, in launching anathemas at the performance. "The drama's laws the drama's patrons give," and if the public chooses to part with its money more freely to sustain this class of amusement than another, it is unlikely to be diverted from its mood save by those excesses which in time cure all similar evils and bring them to unlovely ends.

A late cartoon in *Punch* conveys a sad but not altogether unwholesome moral on the situation in the French capital. Paris, typified in the usual female figure, is tramping under foot "Opera Bouffe," "Mabile," and other sweet but enervating joys; while with haggard face and straining eye-balls, she points a huge rifled cannon in the direction of the coming invaders. By implication the fatal pleasures she thus contemns have brought her to her evil strait; but she has courage enough and soul enough left, notwithstanding, to fight desperately to escape from it—or failing that, to perish with glory. To be sure, army peculations, false returns and systematic terziversation are strictly responsible for French disaster, while incidentally the splendid condition of the Prussian Army has done wonders to aggravate it. But the Empire, which was peace if not war, implicitly encouraged licentiousness, no doubt, and it is to the Empire the military disasters we have seen are imputed. Opera bouffe is not necessarily, however, a vile, although in an artistic sense it may be a debilitating entertainment. The fact that it has been made the vehicle of much grossness, so that people go to it to hear and see coarse things, and are, many of them, disappointed if they do not see them, shows the readiness with which opera bouffe can carry such matters but does not prove that it can carry nothing else. The satire on grandeur for instance in the "Grande Duchesse," is not only unobjectionable but salutary, and there is much in "La Belle Helene" that is not only exceedingly funny but morally without blemish. Still the dog has a bad name and, as is usual in such cases, it seems to adapt itself as it progresses to meet the reputation thus attained.

There are many features then in "Le Petit Faust" that are really artistically fine. The libretto is here and there very smartly written, and the climaxes are worked up with not only consummate musical art, but with histrionic adroitness deserving of free acknowledgment. Some bits of acting, too, are notably good. *Mephisto's* going to sleep in the too-seductive ballet is a stroke of art quite worthy of his nature. The devil's work is done quite well enough at such a moment to spare him all need of trouble. *Faust*, who is resolutely determined to

"* * * change in a trice
The lilies and laurels of virtue
For the raptures and roses of vice,"

requires at that juncture no diabolical aid or counsel. Other points in the representation merit encomiums, as we have suggested, in the artistic sense, little as may be said of the drama as a whole in the moral sense.

In a word, although we cannot altogether approve of opera bouffe as it is—distinguishing between what it is and what it might be—we are quite ready to admit that "Le Petit Faust," as seen at the Grand Opera-house, is a very amusing, very showy and indeed very splendid entertainment. There is a great deal of glitter about it, and not more than a usual amount of dirt. People, undeniably clever in their way, do many things in it to make us laugh and to make us wonder. Other performances we should certainly recommend, on the score of general utility. At the same time we cannot deny that a didactic opera bouffe would be likely to be but a dull affair. There are ways in which the bad influence of such plays can be avoided, one of which is by staying away from the theatre. Yet the public appreciation of this fact is shown by crowding the theatres where opera bouffe is to be seen as they seldom crowd any others. Under these circumstances we can at the moment no better course than to report as faithfully as we may on the dramatic qualities of such work as represented, leaving its moral aspects, in a general way, to the individual feelings, tastes and opinions which regulate individual action.

MISS NILSSON'S CONCERT.

Last evening Miss CHRISTINE NILSSON appeared for the fourth time in the concert-room before the American public. As on every preceding occasion the house was crowded and the enthusiasm unbounded. The same artists as hitherto, with a single exception, assisted in interpreting the programme for the evening, and with Miss NILSSON, MR. ARTHUR MAS, chief of the violins, the audience were by no means slow in testifying their appreciation of the efforts of the others.

The first selection which Miss NILSSON rendered was GOUNOD'S "Ave Maria," with a violin obligato by Mr. H. VIEUXTEMPS. The piece is a familiar one, as it is also fortunately a favorite. But its rendering last night seemed to give it a new meaning. Miss NILSSON possesses the rare attribute of feeling all that she sings. With her the soul speaks in the song. So from the first note of the "Ave Maria," the melody, the audience and the artist were forgotten, and the prayer was the one thing felt by all alike. Rich and superb as is her voice, the varying shades of expression with which she clothes it leave a far more lasting impression on the auditor than could any feeling of mere wonder at its perfection. It is this quality, this leave given a magnificent voice to be the medium for the creation of every tint of feeling, and this quality in its perfect form, that particularly gives Miss NILSSON her pre-eminence and her complete control over her audience. She carries them with her, till they forget the singer and think only of the sentiment. She is more than an artist, because mistress of her art. That she can execute the most difficult passages with ease, was evident from her rendering of the scena and cavatina from "Lucia." Trills and arpeggios, scales and chromatics, came rippling forth like the gentle murmurings of the way-side stream, winning for the artist the enthusiastic admiration of spectators and of orchestra alike. But it was, perhaps, in the romanza from AMBROISE THOMAS' opera of "Mignon" that Miss NILSSON won her most signal triumph, and this, too, despite an exceedingly uneven accompaniment. Miss NILSSON, thanks to the hints of the composer, is most capable of justly interpreting THOMAS' music. Its peculiarities she thoroughly understands. The opera of "Mignon" was virtually rewritten for her, and she created the part in England, as she did that of *Hamlet* in France. Special interest was therefore felt to hear her in this portion of the opera. Although the romanza selected is by no means the most difficult in the work, it is nevertheless exceedingly trying, and requires the most varied qualities for its proper interpretation. Miss NILSSON sang with spirit and with force, displaying at times the full power of her voice. In response to the loud and prolonged applause which greeted her as she breathed the last note, she sang, in English, "The Last Rose of Summer."

But little need be said in addition to what has already appeared in these columns with reference to the other artists. Encores were generously repeated and as generously complied with. M. VIEUXTEMPS gave his own version of "St. Patrick's Day in the Morning," displaying his wonderful command over the king of instruments and by his instrumentation establishing his claims to stand *facile princeps* among violinists. Miss ANNA MEHLIG replaced Mr. WEHLI as piano-soloist, and played LISZT'S "Faust Waltz" with the marvelous *technique* for which she has won distinction. Miss CARY's rich contralto was heard to advantage in an aria from the "Huguenots," while Signor BRIGNOLI filled his position on the programme with *M'appari*, from "Martha," and the serenade, *com è gentil*, from "Don Pasquale." Signor VERGER was heard with pleasure in the concerted pieces, his voice being hardly such as to render his singing of the air from "Il Barbiere," where the lively little barber narrates his troubles, as interesting as we have heard it from the lips of other artists. Finally, Mr. MARETZEK led the orchestra, and signor CARLO BOSCHI accompanied at the piano with so evident a knowledge of his art that a better acquaintance with him will probably avoid the recapitulation in future of the pretensions of miscellaneous pianists to the special science of the genuine accompanyist. We subjoin the programme of the evening as a matter of record.

1. Overture, "Merry Wives of Windsor,".....Nicolai. Orchestra.
2. Violin Solo, "Ballad and Polonaise,"....Vieuxtemps. Mr. Henry Vieuxtemps.
3. Duett, "La Favorita,".....Donizetti. Miss Cary and Signor Verger.
4. Ave Maria,.....Gounod. Mlle. Christine Nilsson, with Violin Obligato by Mr. Henry Vieuxtemps.
5. Romanza, "Martha,".....Flotow. Signor P. Verger.
6. Large al Factotum, "Barbiere,".....Rossini. Signor N. Verger.
7. Grand scena and Cavatina, "Lucia di Lammermoor,".....Donizetti. Mlle. Christina Nilsson.

PART II.

1.—Overture—"Fra Diavolo".....Auber. Orchestra.
2.—Piano Solo—"Faust" waltz.....Liszt. Miss Anna Mehlig.
3.—No, No, No—"Huguenots".....Meyerbeer. Miss Cary and Signor Verger.
4. Violin Solo on a Popular Air.....Vieuxtemps. Mr. Henry Vieuxtemps.
5. Romanza—"Comme le le Fays".....A. Thomas. Mlle. Christina Nilsson.
6. Trio—"Zitti, Zitti," "Barbiere di Siviglia,".....Rossini. Miss Annie Louise Cary and Signori Brignoli and Verger.
7. Orchestra—"Tannhauser".....Wagner. Orchestra.

MISS KELLOGG.

The *Evening Mail* says: We are glad to learn that Miss KELLOGG will remain in this country during the coming season, and that we shall soon enjoy the privilege of hearing our favorite American prima donna in the concert-room. She will find that her greeting will be none the less kindly and enthusiastic that our admiration has gone out so freely toward Miss NILSSON. No matter what other musical star may be in the field, there is always reserved for Miss KELLOGG a special appreciation and a peculiar degree of good will, as well as of gratitude for the honors she has won for American lyric art, at home and abroad. We, therefore, need only to announce that she is in the field for the coming concert campaign to insure a demand for her services from all quarters.

Theatrical.

THE SEASON AT WALLACK'S.

In the Summer sky and warm breezes of last evening, there was little to denote the inception of a Fall and Winter season within the boundaries of the horizon. Yet that period was then setting in at Wallack's Theatre, wherein was assembled as fashionable and as large an audience as if icy winds had made beach and lake and mountain resorts untenable for the current year. The opening performance passed off most brilliantly. Occurring in a new theatre and offered with new appointments and by a company strengthened by artists new to the house, its effect was of the most pleasant kind. The curiosity excited by the reports of the changes in the place, the agreeable anticipation of welcoming back known and esteemed artists, that of greeting others already admired elsewhere, and the confidence reposed prospectively in the excellence of the entertainment, would have afforded room for too much disappointment had not anticipation and confidence been liberally dealt with, not to make, under exactly contrary circumstances, an impression of the most gratifying kind. For brightness and beauty of decoration, and for arrangement of vestibules, aisles and seats, Wallack's is unexcelled. And while the auditorium and stage have been improved since they were last in use, the company has been added to in weight and in numbers, so that now theatre and personnel quite outshine the scene and the players of last year.

There is no reason, after the detailed description of the labors of carpenters, painters and upholsterers, which has already appeared in these columns, to review their labors at present. Nor need we again call attention to the striking eloquence of Mr. WALLACK'S announcements, which embody—in addition to a promise that the prettiest play of the hour, "The Two Roses," will be the first novelty produced this Autumn—a list of artists combining talent, experience and popularity in a remarkable degree. The representation of "The Rivals" yesterday exacts the limited space we can accord at the late hour at which it was ended. We are told that when this comedy was acted in England it was first damned, then condoned, and finally crowned by the public. We may be permitted to believe that its earliest trials would have been avoided had the cleverly-tangled story, and the epigrammatic dialogue—wholly inferior, of course, to that in "The School for Scandal," but abounding in sense and in point, nevertheless—been unraveled and spoken by as efficient comedians as those to whom all else had intrusted last night. And, the entertainment was one notable not merely for the individual merit of the principal impersonations, but for its smoothness and symmetry. Cordial as was the applause with which Messrs. GILBERT, BROUGHAM and STODDART, and Miss MADELINE HENRIQUES and Miss EMILY MONTAGUE were the main objects, these demonstrations hardly exceeded in warmth those following the best scenes in the piece. The distribution of parts gave ground to foresee all this. Mr. JOHN GILBERT, who was *Sir Anthony Absolute*, has exactly the hardness wanted by the despotic parent, which it were easy to Sopist as brutal, and consequently as unsympathetic beyond the redemption, even, of so comical a passage as that in which he seemingly compels his son's consent to his plan of marrying him with *Miss Lydia Languish*. Mr. GEO. CLARKE, whose first appearance it was at this theatre, embodied *Captain Absolute* with care, simplicity and manliness. Mr. LESTER WALLACK will still be desired in the characters his continuance as a light comedian has made his own, but we could name no more promising artist than Mr. CLARKE, who has youth, intelligence and refinement to fill the substitute position. Mr. J. H. STODDART supplied an exceedingly diverting picture of *Bob Acres*, and his habitual broadening of the lines was not done with so much daring as to cause the figure, so to speak, to fall out of the frame. Mr. JOHN BROUGHAM'S thoroughly unaffected rendering of *Sir Lucius O'Trigger* was, in its way, fully as appreciable. The ungrateful character of *Faulkland* was carefully drawn by Mr. B. T. RINGGOLD, and Mr. J. C. WILLIAMSON, who represented *David*, once more succeeded in disguising face, form and utterance by skillful handling of the brush, and the assumption of the appropriate dialect.

The ladies of Mr. WALLACK'S company came forth in strength, though less formidable in point of numbers than was the sterner stuff. Miss MADELINE HENRIQUES assumed for the first time the *rôle* of *Lydia Languish*. Her acting was marked throughout by the naturalness and grace which have been its most conspicuous qualities in past seasons, and by a variety of expression which has not always been as prominent, and which was recognized and heartly approved. A great deal of earnestness heightened the effect of her first interview with *Capt. Absolute*, and her laughable grief when her castle in the air of romance is rudely pulled down, was fully as untheatrical, and therefore as impressive. The *Mrs. Malaprop* of Miss EMILY MONTAGUE was a very laughter-provoking creature. Miss HELEN TRACY, who was *Julia*, is a new comer, gifted with comeliness, modesty, and a fitness, we should say, for parts, in which quiet emotion is the element demanding most frequent display. Miss ANNIE DEVLAND gave all possible interest to the minor personage of *Lucy*, and all the lesser characters were portrayed with discretion. The scenery throughout was fresh, and the view of the dueling ground was very charming, both in perspective and in cool and subdued color.

After the performance had concluded their respective tasks, and the curtain had fallen amid enthusiastic applause, the manager whose industry and liberality provided the entertainment, and whose experience and taste secured its perfection, was called upon to receive the thanks of the audience. Mr. LESTER WALLACK was at hand, and briefly expressed gratitude for the kindness shown his company and himself.

OBITUARY.

Hon. Robert C. Grier.

Hon. ROBERT COOPER GRIER, until recently the oldest of the Judges of the Supreme Court of the United States, died at Philadelphia, on Sunday evening, at the advanced age of seventy-seven. He has been suffering from paralysis for many years, and his death is not an event altogether unexpected. He was born in Cumberland County, Penn., on the 5th of March, 1794. Educated by his father, Rev. ISAAC GRIER, a distinguished theologian and teacher, until he was seventeen, he then entered as a student at Dickinson College, where he graduated with high honors in 1812. After teaching for a year at Dickinson College, he settled in Northumberland, where his father had removed, and established a seminary of high repute. He assisted his father up to 1815, when the latter died, and was succeeded by ROBERT as principal. In this capacity he served for a year or two; taught astronomy, mathematics, Greek and Latin, lectured on chemistry, and in the intervals studied law. He was admitted to the bar in 1817, and practiced at Bloomsburg, whence in 1818 he removed to Danville. At that place he pursued his profession with great success, supporting his mother and ten younger brothers and sisters, whom he liberally educated. On the 4th of May, 1833, he was appointed President-Judge of the District Court of Allegheny County, at Pittsburg, where he remained in the same year, and resided until September, 1846. He removed to Philadelphia on the 4th of August, 1846, was nominated Associate Justice of the Supreme Court by President POLK, in place of Justice BALDWIN, deceased, and was unanimously confirmed by the Senate. This position he continued to fill until his failing health a few months ago compelled him to resign and take the benefit of the act of Congress of April, 1869, which continued to him the same salary which he received as Judge.

In early life Judge GRIER was a Federalist, and in later years acted with the Democratic Party, but on the breaking out of the rebellion he pronounced unmistakably in favor of the efforts made for the preservation of the Union. He presided at a public meeting at Williamsport, Penn., in 1861, and earnestly exhorted the people to the defense of the Union. In ability and learning, he held a high rank among American jurists, and in his private life was greatly esteemed as a high-minded and patriotic citizen, and a man of pure and upright character. He has passed away after a long and useful life, and leaves a place which few public men are capable of filling.

Rev. P. P. Ahearn, Assistant Pastor of the Church of the Holy Cross, Flatbush.

Rev. P. P. AHEARN, assistant pastor of the Church of the Holy Cross, was laid to rest yesterday in the Cemetery of the Holy Cross, followed by the tears and regrets of his afflicted and mourning flock. Father AHEARN died suddenly on Saturday, of disease of the heart. Born on the 20th of June, 1842, in the City of Cork, Ireland, he early evinced a decided preference and reverence for sacred things, and his parents, deciding to train him up for the sacred office, placed him under the instruction of the Christian Brothers. Having completed his preparatory course, he entered All Hallows College, where he soon distinguished himself by his application to study, and earned the respect of many of the eminent theologians of that seat of learning. He was ordained priest on the 24th of June, 1866, and assigned his field of duty in America. On the 2d of August, 1869, he was assigned by Bishop LAUGHLIN to the assistant pastorate of the Church of the Holy Cross in Flatbush, Father MORAN being in charge as pastor. By his quiet, devout and unobtrusive demeanor, serving his sacred office among the poor of his parish with unceasing earnestness, he won the love and respect of the Catholic residents of Flatbush and its vicinity. The funeral ceremonies took place at the Church of his ministration, the celebrant on the occasion being his schoolmate and friend, Rev. MICHAEL HICKEY, of St. John's Church, Gowanus, who was assisted by the Rev. JOHN FURNELL, of St. Patrick's, Brooklyn, as deacon, and Rev. JOSEPH McNAMEE, of Our Lady of Mercy, as sub-deacon. Rev. JOHN REILY, of St. James', acted as master of ceremonies. Rev. Dr. BURNS, of St. Charles Borromeo, Sydney-place, delivered an eloquent and appropriate funeral oration, at the conclusion of which the large concourse assembled followed the remains to the cemetery.

A Correction—The Reported Removal of a Relative of Gen. Schurz from Office.

To the Editor of the New-York Times:

The statement has been freely printed in the newspapers of the country recently, that President GRANT had removed from office EDMUND JUSSEN, a Collector of Internal Revenue in the West. The reason assigned for this removal is the fact that Mr. JUSSEN is a brother-in-law of Hon. CARL SCHURZ, and that this latter gentleman is to be punished for his political course in Missouri by the decapitation of all his friends in office. The fact is that the President was not aware, until a day or two since, that Mr. JUSSEN was related to the Senator from Missouri, and that Mr. JUSSEN has not only not been removed, but no report or recommendation to that effect has been made to the President or to the Revenue Department. So long as Mr. JUSSEN discharges his official duties properly, the fact that he is related to CARL SCHURZ is not likely to injure him with the Administration.

POLITICAL.

LOCAL POLITICS.

The Tammany Nomination for Sheriff—Judge Shandley Withdrawn—He Believes He Has Been Overreached.

The struggle for the Tammany Hall nomination for Sheriff is about over, Judge EDWARD J. SHANDLEY, the only other contestant with MATTHEW T. BRENNAN, having, as will be seen by his speech, given below, made last evening in the parlors of the Oriental Club, formally and very unexpectedly withdrawn. The Club-house, which is in East Broadway, near Clinton-street, was quite full of members and their visiting friends, when Marshal TOOHEY, accompanied by twenty other prominent Thirteenth Ward Democrats, entered, and addressed Mr. SHANDLEY as follows: "Judge, the gentlemen you see before you are a committee appointed by the Thirteenth Ward Democratic Legion under instruction from that body to wait upon and present to you in its name this paper, bearing a copy of a resolution expressive of the preference for you as a candidate for the Shrievalty. The very greatly increased political strength you have recently developed justifies the assumption that your nomination by Tammany Hall would most materially add to the fullness of the success which awaits the State and County ticket this Fall, as it would arouse to the highest pitch the enthusiasm of the Democracy, particularly of the Oriental District. I have known you from boyhood, and this knowledge animates the hope I have long entertained, that the devotion of the cast side Democracy may be recognized, and its constitutive majorities rewarded by the selection of their representative man as the nominee of the party for one of the most important of our county offices. (Applause.)

The Judge responded as follows: Marshal and Gentlemen of the Committee, I was led to anticipate your visit here 40-night, but shall, nevertheless, speak briefly in reply to the communication you have made. I accept the resolution, and return thanks in return. I am about making an announcement which I know, in view of the greatness of the evidence daily accumulating of the political friendship borne me by a portion of the Democracy of the City of New-York, will be received with regret: I am not now a candidate for the nomination by Tammany Hall for Sheriff! (Sensation.) I have reasons for this, the propriety of the entertainment of which no good Democrat and adherent of Tammany Hall will question. Suffice it to say that with good help I've made an almost successful effort to be in the field this Fall a regular nominee, but have been overreached, and I shall be the loser of fortune. To the candidate of my party I shall give the warm, honest, sincere support I should have looked for from him had my aspirations been crowned with success. (Loud applause.) From all my friends I ask a continuance of their devotion to my interests by giving to the entire country ticket, when nominated, hearty and generous support. In reference to our prospects this Fall, I may say that I really believe the enormous majority given our State ticket last May will be increased, and New-York County will do better than it ever has before. Let the cast side of the City do wonders. Let not the disappointment naturally created by my announcement breed discontent, but rather a determination to prove worthy of recognition in some future day. I again thank the good people of the Thirteenth Ward for their preference, and hope their Legion will do great service in the approaching campaign.

Loud applause greeted the conclusion of the remarks of the Judge, after the subsidence of which he invited the party to the supper-rooms, where all partook of a generous repast. Several prominent politicians were present, by whom the Judge's advice to his friends to "prove worthy of recognition in some future day," was deemed significant of the reasons of his withdrawal. Among others in the parlors were: Gen. WM. M. TWEED, Jr., Police Commissioner SMITH, Inspector JAMESON, BERNARD SMYTHE, President of the Board of Education JOHN SAVIN, President of the Board of Assistant Aldermen, Assemblyman CAMPBELL, Judge KOCH and Fire Commissioner BLAIR.

The Campaign Among the Germans.

In pursuance of a call of the German Central Campaign Club, published in the Times, a German Campaign Club for the Nineteenth Ward, irrespective of previous party affiliations, has been formed, fully endorsing the action of the Central Campaign Club, and the nominations of the Saratoga Convention. Last night a meeting was held at No. 786 Third-avenue. The enrollment of members was proceeded with, and the delegates to the Central body were elected. The German Central Campaign Club will meet, this evening, to complete its organization. Five delegates from each district organization will be received.

A number of German voters of the Ninth Assembly District, irrespective of party, at a meeting held at No. 202 Bleecker-street, also took steps toward the formation of a campaign club, in accordance with the call issued by the German Central Campaign organization.

In the 11th Assembly District a German club has been formed under the Presidency of CARL SCHROEDER, and delegates to the German Central Campaign Club were elected, as follows: AUGUST SCHOEFFEL, CAPT. LIEBEN, BERNARD HESS, H. FESTE and EMIL HAAS.

Soldiers' and Sailors' Woodford and Kaufman Campaign Club.

The Soldiers' and Sailors' Woodford and Kaufman Campaign Club No. 1 held a meeting last evening at No. 730 Broadway, Lieut. GEO. E. HILL in the chair. Speeches were made by Col. TEMPLE, Mr. CLARKE and others. Col. CLARKE urged the necessity of active organization. Speech-making, he said, would be found of little use. The Republicans must go among their friends, talk with them, and put them right on public questions.

Col. FORBES stated on behalf of the Executive Committee that preparations are being made to have soldiers at the polls.

Col. DE COSTA said he was in for a fight against Tammany Hall, and on another occasion, when he had the proper affidavits to sustain him, he would name the men who were working with Tammany greenbacks in their pockets. He did not mean Col. DUGANNE. He was a brave soldier; but on another occasion he would stamp the traitors to the principles for which they had struggled.

Mr. JACOB STEWART, a representative of the colored Republicans of the Fifteenth Ward, said he had come in when passing to listen to something about the country he loved. He had not been a soldier, but he had nursed many of them, and before he was a man, nursed some of those who had fought against his interests. He was conscious now, however, that through the struggles of the Union soldiers he stood before them a man. He never felt so proud as when he deposited his first ballot, a copy of which he had preserved. He concluded the most sensible and best pronounced address of the evening by urging them to guard well the cartridge box, the ballot box, and the jury box.

The meeting then adjourned.

Democratic Primary Elections at Newtown.

The primary election of the Newtown Democracy came off yesterday, at the hotel in Columbusville. The Ring having control of the Town Committee called a meeting at a late hour, and in a such a manner, that they supposed the opposition would not get wind of it, but contrary to expectations, the call was promulgated throughout the town, and the result was an assemblage of not less than 3,500 persons, 500 more than there are voters in the town. The Long Island City Democracy having made terms with Hon. J. R. MADDEN, who has heretofore acted against them, determined to defeat the Ring with their entire strength. At 7 o'clock the caucuses were pressed into the service, teams being hired from Jamaica, Flushing, Williamsburg and New-York, and besides, large numbers of voters were transported by the Long Island and the Flushing Railroads. One man purchased in advance 500 tickets of the Flushing Railroad authorities.

The meeting was called to order, by those in the interest of the Ring, at 11½, and Justice McKENNA was elected Chairman. At 12, OLIVER CROOKE took the stand, and without noticing the Chairman called the meeting to order, as a member of the Town Committee, and J. R. MADDEN was declared elected Chairman. The proceedings at this point began amid confusion, both Chairmen trying to keep order and each greeting most of the disturbance. The meeting finally adjourned to the open air, and two delegations for the Assembly Convention and two for the County Convention were declared elected. The proportion of Long Island City Democrats were about three to one Ring candidate.

Democratic Convention of Hudson County.

HUDSON, N. J., Sept. 26.—The Democratic County Convention met in this city today and nominated the following tickets: For Sheriff, HOFFMAN SWEET; County Clerk, EDWIN F. TEFFT; Superintendent of the Poor, SAMUEL B. MYERS; Justice for Sessions, JAS. E. FERGUSON; Coroners, RUSSELL D. WILBER and WM. McGILL. Resolutions indorsing the State ticket and the Rochester platform were adopted.

The Young Democracy—James O'Brien for Mayor.

The Eleventh Ward O'Neill Democratic Club was reorganized, last night, as the "O'Brien Club," with FRANCIS O'NEILL as President and FRANCIS LYONS Secretary. Gen. SPINOLA addressed the meeting in denunciation of the political misdeeds of HALL, CONNOLLY, TWEED and SWEENY, charged the party they belong to with treachery in selling half the patronage of the Democratic stronghold to the Republicans, and declared, amid enthusiastic applause, that the present Sheriff, JAMES O'BRIEN, should be elected to the Mayoralty. In order to save an honest man, we at last in the position. A resolution in accordance with these views was adopted.

The Jas. "Jim" O'Brien Eighteenth Ward Club met last night. BERNARD O'CONNOR, President, in the chair, when, after several addresses, a resolution was passed pledging the Club to use every effort to elect their candidate to the Mayoralty.

Sixteen Mixed Politics.

WILLIAM C. DENTON, of Tompkinsville, one of the Police Commissioners, is before the people seeking the nomination for Sheriff of Richmond County on the Democratic ticket. Alderman BEN BROWN, of Stapleton, is also after the office.

SAMUEL B. SMITH, Jr., of Stapleton, and JOHN DICKEN, the present representative, are aspirants for the seat in the Assembly.

The Committee appointed by the Republican General Committee to organize a campaign club met at Union Hall, Port Richmond, on Saturday, and selected the following officers: Honorary President, George William Curtis; Acting President, Tompkins Westervelt, and Vice-Presidents from each township. Col. D. H. Fell, Benjamin F. Morris, R. B. Stapleton, G. C. Dame and Jr. W. Simonson form the Executive Committee, with William H. Washburne, Recording, and D. J. Judd, Corresponding, Secretary.

The Republican slectors of Castleton have organized a Woodward and Kaufman Club, with S. McFarlane DAVIS, President, C. T. Flagg, Treasurer, and JAMES HUNT, Secretary.

Political Brevities.

Col. E. H. BROWN has been nominated by the Republicans of Atlantic County, N. J., for Sheriff, and Mr. C. H. RAVE for County Clerk.

The Union Republican Association of the Fifteenth Assembly District will hold a ratification meeting, this evening, at Continental Hall, corner of Eighth-avenue and Thirty-fourth-street. Several eminent speakers will address the meeting.

At a meeting of the Tenth Assembly District Soldiers' and Sailors' Association, at No. 88 Bowery, last Monday evening, the following resolution was adopted: Resolved, That the Central Soldiers' and Sailors' organization: Capt. ED TAYLOR, Lieut. Edward T. Hourke, Lieut. Van R. Wood, Sergt. Thomas Cunningham and Private William Cashan.

A large and enthusiastic meeting of the Richard C. Walsh Association of the Seventh Ward was held, last evening, at their hall, No 124 East Broadway. The meeting was addressed by Ex-Mayor HALL for Sheriff, and Mr. EDWARD ASEN. The former introduced resolutions for nominating Hon. CHARLES E. LOEW as his candidate for the Tammany nomination for County Clerk, and the latter introduced similar ones expressing a determination to support Hon. M. T. BRENNAN for Sheriff. The resolutions were all adopted.

The Democracy of Flushing were exercised all day yesterday over their primary election. The excitement was high over the Assembly nomination, the two candidates being Hon. WM. TURNER, formerly member of Assembly, and F. N. LAWRENCE. Both candidates threaten to bolt, if defeated. The polls were held open until late in the evening. It is supposed that nearly every Democratic voter in the town will be called out. The result was not known at a late hour last night.

GENERAL NOTES.

All the Fall elections, so far, have resulted in Republican victories.

The indications are that an unusually heavy vote will be polled at Philadelphia this Fall.

Hon. GEO. W. TUCKER is urged for the Republican nomination in the Fourth, Virginia, District.

Gen. SIGEL denies that he is going to canvass in the Third, Ohio, District, in favor of Mr. SCHENCK.

JOHN H. OLIVER is the nominee of the Republicans in the Sixth Congressional District of Pennsylvania.

There are several Democratic candidates already in the field for the office of Commissioner of the new Troy Police.

The Georgia *New Era* and Georgia *Republican* have nominated Attorney-General AKERMAN for Vice-President in 1872.

Hon. JAMES ATKINS is favorably spoken of in connection with the Republican nomination for Congress from the Atlanta, Ga., District.

Col. HENRY D. MCHENRY has been nominated for Congress by the Democracy in the Second, Mr. W. H. BEAD in the Fourth (Kentucky) Districts.

Hon. THOMAS WEIGHTMAN, the Republican nominee for Congress in the Sixth Kentucky District, worked as a journeyman printer at Albany thirty years ago.

The effort of ANDREW JOHNSON to introduce the discussion of the doctrine of secession into the politics of Tennessee, is denounced by the Louisville *Courier-Journal* as a miserable sham.

The New Orleans *Times* is not satisfied with the nomination of the Democratic Convention for city officers, and comments upon them as follows: "There are exceptions—some good and some bad—but the majority are not of the sort this city and people need. The days of implicit and blind acquiescence in the choice of party nominations are pretty much passed away, and the people are forced to look to the personal merits, qualifications and histories of candidates. Recognizing this necessity, we labor under the general disadvantage of the citizens of this city, of an entire ignorance of the qualifications and antecedents of most of the persons named."

A special to the Chicago *Tribune* from Iowa says: "The campaign in this State progresses rather quietly. Some fifteen or twenty Republican speakers are actively at work. The Democrats, as yet, have not commenced their canvass, and apparently do not intend to. It seems to be their tactics to let the general fight go by default and wage a guerrille warfare in spots by means of hybrid tickets, independent candidates, and any and all kinds of coalitions with sore-headed Republicans. Of the six candidates for Congress, but two have been induced to take the stump. The New-York Free Trade League is sending speakers into Iowa. One is following up the candidates for Congress in the Fourth District, and two or three others are prodding around in different parts of the State."

Discoveries in New-Mexico—Aztec Ruins, Aztec Fires, Skeletons, &c.

Advices from Santa Fe state that Gov. ARNY, the Special Indian Agent for that Territory, has found the Cañon de Chelly, which was explored for twenty miles. The party found cañons whose walls tower perpendicularly to an altitude of from 1,000 to 2,000 feet, the rock strata being as perfect as if laid by the skilled hands of masons, and entirely symmetrical. Among these ruins were found deserted ruins of ancient Aztec towns, many of them showing the evidence of having been populous to the extent of many thousands of inhabitants. In one of these cañons, the rocky walls of which rose not less than 2,000 feet from the base, and whose summits on either hand inclined to each other, forming part of an arch, there were found high up, hewn out of the rock, ruins of Aztec towns of great extent, now tenantless, desolate. In each of these rockycies there remained in a state of good preservation a house of stone, about twenty feet square, containing one base and gloomy room, and a single human skeleton. In the centers of the rooms were the evidences that fire at some time had been used. The only solution of this enigma thus far ventured is, that these solitary rooms were the altar places of the Aztec fires; that from some cause the people at a remote period were constrained to abandon their homes, but left one faithful sentinel in each instance to keep alive the flame that, according to the Indian traditions of these regions, was to light the way of MONTEZUMA again to his people—their hoped-for Messiah and their Eternal King. A close examination of many of the ruins proved that the builders thereof had been skilled in the arts of fracture and use of edged tools, masonry, and other mechanical arts. But who these people were, whence they came, or whither they are gone, is now, probably, one of the mysteries to remain eternally unsolved. Some of the ruins are reported to be stone buildings seven and eight stories in height, being reached by ladders placed against the walls. Roundhouses, twenty feet in diameter, built in the most substantial manner, of cut-stone, and plastered inside, were also found in excellent preservation. Astonishing discoveries have been made of gold and silver regions richer than yet known on this Continent. They are supposed by well-informed persons to be the East mines, of which tradition has handed down the most marvelous tales, and the mines themselves discover unmistakable evidences of having been successfully worked ages ago.

Probable Murder in Jamaica, L. I.

On Sunday evening two colored women living in the western part of Jamaica, named GEORGIANA BRODES and FRANKIE MOORE, quarreled about a trifling domestic matter, when FRANKIE seized an ax and commenced belaboring her adversary. She inflicted several bodily wounds, and at last dealt her a blow on the head, which made a deep incision and fractured the scull. Dr. HENDRICKSON dressed the wounds, but has little hope of GEORGIANA's recovery. FRANKIE was arrested by Officer SNEDEKER and committed to await the result of GEORGIANA's injuries. But for the interference of some parties who heard her cries, the latter would have been killed outright.

State Commission on Prison Labor.

The Commissioners appointed to consider the question of prison labor resumed their investigations, last evening, at the Bible House. A number of prominent working men were present, among whom were Hon. JOHN R. HENNESSY, Mr. JESSUP, of the Working Man's Union; Mr. FENGES, Mr. SOMERS and Mr. CROWNS, of the Crispins, and others. VALENTINE FIELDMAN, a shoe-maker employed in the House of Refuge from 1859 to 1867, gave a statement of the horrible treatment the boys were subjected to there, and considered that the reformation of the boys was a secondary object with the officials. Mr. Jessup, corresponding secretary of the Working Men's Union, gave some very interesting testimony. He considered the contract system very injurious to the working men. He was of opinion that the abolition of the contract system and the delivery of the State Prisons from party control should put hand in hand together. Some others also gave their testimony and the meeting closed at 10 o'clock.

IT RESISTED ALL ATTEMPTS AND

REAL ESTATE TRANSACTIONS.

The only business transacted at the Exchange yesterday (Sept. 26) was the adjournment by JAMES M. MILLER until Oct. 4, of the sale of two lots on Ninety-first-street, 125 feet east of Fourth-av. No other sales were noticed for the day, and quite a large number of persons in attendance, after discussing the prospects of the market for a time, quietly took their departure. For the remainder of the week business will be more active, as several interesting sales are to take place.

To-day, at the Exchange, considerable City property is to be disposed of, and at 8 P. M. on the premises, LAWRENCE, OAKLEY and FLEURY will hold their auction sale of North Orange, N. J. This proposed transaction has been already liberally advertised, and will undoubtedly receive that attention from those interested in real estate, which its merits demand.

Reference was made, yesterday, to the Linden Park enterprise, which, since its organization during the early part of the month, has resulted so satisfactorily to its promoters. Another similar scheme for the disposition of property on the $10 monthly-payment plan, also worthy of notice, is now in progress for the sale of building lots at Richmond Hill, Long Island. The lots are marked from $75 upward, and persons visiting the grounds have the opportunity of making their own selections. A free excursion will be made to the property on Thursday, for which tickets can be procured of JOHNSON & MILLER, Auctioneers, No. 25 Nassau-street, or of ADOLPH BANDMAN, No. 38 Bowery.

In addition to the public sales of real estate on auction, particular attention is called to the list of private sales of desirable City and country property, advertised daily in the TIMES. Persons who intend to make investments of this character, will find it to their interest to consult the columns of this paper, while advertisers and owners of real estate will be fully repaid in thus presenting their property for the favorable consideration of the public.

REAL ESTATE AT AUCTION.

O. H. PIERSON, Auctioneer.

BY A. D. MELLICK, JR., & BRO.

Auctioneers and Dealers in New-Jersey Real Estate,

NO. 4 PINE-ST., NEW-YORK.

FIRST GREAT SALE AT

SCOTCH PLAINS,

Fanwood Station, one hour from the New-York side of the river, by the Central Railroad of New-Jersey, on

THURSDAY, OCT. 6, 1870,

at 12 M., on the premises,

SIX HUNDRED CHOICE LOTS

will be positively sold at auction, situated immediately at the village; CHURCHES, SCHOOLS and STORES adjoining; PLANK WALK to station.

PLANK WALK IN FRONT OF EACH LOT.

This property is without doubt among the most desirable ever offered on the line of the Central Road, no expense having been spared in preparing for immediate occupancy. The streets are handsomely graded. The location is most beautiful, being just at the base of the blue range of mountains, and lovely views are obtained. A clear mountain stream crosses the property.

REMARKABLY EASY TERMS.

ONLY TEN DOLLARS PAYMENT REQUIRED ON EACH LOT; BALANCE PAYABLE IN INSTALLMENTS. GREAT OPPORTUNITY FOR MEN OF MODERATE MEANS.

FREE TRAIN AND COLLATION.

GRAFULLA'S SPLENDID SEVENTH REGIMENT BAND WILL ACCOMPANY THE EXCURSION.

For descriptive maps and railroad passes apply to

COUDERT BROTHERS, Attorneys, No. 49 Wall-st.,

R. O. GLOVER, No. 1 Dey-st.,

A. D. MELLICK, JR., & BROTHER, No. 4 Pine-st.

S. Duncan, Auctioneer.

NOTICE TO TRAVELLERS.
Families or gentlemen going to travel on the Continent of Europe, who can afford the expense of a courier, should never leave Paris without one; their services are invaluable; they save much money, multiplicity of cares and troubles respecting passports, examination and conveyance of baggage; in securing the best accommodations; in protecting the traveller from imposition, and in infinity of annoyances to which they are exposed in various parts of the Continent. Competent and trustworthy couriers and travelling servants may always be obtained by applying to the COURIER SOCIETY, No. 8 Rue d'Alger, near the Tuileries Garden, Paris.

UNITED STATES PASSPORT BUREAU.—United States passports, indispensable to travellers, issued by J. E. NONES, Passport Agent, No. 208 Broadway.

FINANCIAL.

8 per Cent. Interest
FIRST MORTGAGE BONDS.
Principal and Interest Payable in Gold.

The First Mortgage Eight Per Cent. Gold Bonds of the ST. JOSEPH AND DENVER CITY RAILROAD COMPANY are for sale by the undersigned. Price, 97½ and Interest. The amount of Bonds issued is $1,500,000 on 111 miles of road, of which 50 miles are completed, and the grading of the balance finished, while the iron and materials are on the track in some places.

This road, completed and about being finished, includes with rolling-stock, lands, property of every description, and franchises, is mortgaged to the Farmers' Loan and Trust Company in trust for the security of these bonds. This property has a value more than double the amount of the mortgage. The net earnings of the Company are constantly on the increase, and with interest of the amount required to pay the interest on these bonds. The payment of the interest and principal is therefore fully secured. The bonds are in denominations of $1,000 and $500. Interest payable semi-annually in New-York, London or Frankfort on the Main. We unreservedly recommend them, and will furnish maps and pamphlets upon application.

BANKRUPT NOTICES.

THERE IS TO GIVE NOTICE—THAT ON the 12th day of September, A. D. 1870, a warrant in bankruptcy was issued against the estate of JOSEPH N. GIMBREDE, of New-York, in the County of New-York and State of New-York, who has been adjudged a bankrupt on his own petition; that the payment of any debts and delivery of any property belonging to such bankrupt, to him, or for his use, and the transfer of any property by him, are forbidden by law; that a meeting of the creditors of the said bankrupt, to prove their debts, and to choose one or more assignees of his estate, will be held at a Court of Bankruptcy, to be holden at No. 44 Wall-st., in the City of New-York, before Edward Jordan, Esq., on the 14th day of October, A. D. 1870, at 12 o'clock, M.
GEORGE H. SHARPE, U. S. Marshal.
as Messenger. Southern District of New-York.

DISTRICT COURT OF THE UNITED States, for the Southern District of New-York.—In the matter of THEODORE D. BOUGHTON and SYLVESTER C. BOUGHTON, individually and as partners of the firm of T. Boughton & Co., bankrupts.—In Bankruptcy.—A warrant in bankruptcy has been issued by said Court against the estate of Theodore D. Boughton and Sylvester C. Boughton, of the County of New-York, of the State of New-York, in said district, adjudged bankrupts upon the petition of their creditors, and the payment of any debts and the delivery of any property belonging to said bankrupts to them or to their use, and the transfer of any property by them are forbidden by law. A meeting of the creditors of said bankrupts, to prove their debts and choose one or more assignees of their estate, will be held at the Court of Bankruptcy to be holden at the office of the Register, No. 202 Broadway, in the City of New-York, in said district, on the 10th day of October, A. D. 1870, at 10 o'clock M., at the office of Isaac Dayton, one of the Registers in Bankruptcy of said Court.
GEORGE H. SHARPE, Marshal.—Messenger.

IN THE DISTRICT COURT OF THE United States, for the Southern District of New-York.—In the matter of HENRY E. DIEBLER, DAVID P. BINGLEY, JOHN J. KRAUSS, bankrupts.—In Bankruptcy.—Notice is hereby given to the creditors of the above named bankrupts, and all persons in interest, that on the 10th day of October, 1870, at 2 o'clock P. M., at my office, No. 27 Chambers-st., New-York City, I, Isaiah T. Williams, Register in Bankruptcy, in charge of this case, will proceed, by virtue of an order of the Court made herein, dated May 9, 1870, to inquire and report as to the proper amount to be allowed in any judgment to Garret Clark & Co., the petitioning creditors in the petition under which the decree of bankruptcy herein was passed, for expenses incurred in the prosecution of said case prior and up to the assignment to the assignee in bankruptcy, and under the orders of this Court, dated May 12, June 7, and July 17, 1869, at which time and place I shall take such testimony as may be offered.—Dated New-York, Sept. 24, 1870.
I. T. WILLIAMS, Register.

T. S. ARMOUR, Secretary.

LEGAL NOTICES.

SUPREME COURT—CITY AND COUNTY OF NEW-YORK.—JOHN D. LEWIS and ARTHUR M. COCK, plaintiffs, against ABRAM J. DUTTENHOEFER, defendant.—To the defendant: You are hereby summoned and required to answer the complaint in this action, this day filed in the office of the Clerk of the County of New-York, at the City Hall, in the City of New-York, and to serve a copy of your answer on the subscribers, at their office, at his office, No. 7 Warren-street, in the City of New-York, within twenty days after the service of this summons on you, exclusive of the day of such service; and if you fail to answer the said complaint within the time aforesaid, the plaintiffs in this action will take judgment against you for the sum of five hundred and sixteen dollars and twenty-five cents, with interest from the 8th day of September, 1870, besides the costs of this action.—Dated New-York, Sept. 8, 1870.
JOHN A. FOSTER, Plaintiffs' Attorney,
46-1awtw To* No. 7 Warren-street, New-York.

AMUSEMENTS.

BALLE SIMBENINE NILSSON.
ON WEDNESDAY.
Mr. MAX STRAKOSCH very respectfully announces that Mlle. CHRISTINE NILSSON will positively appear in
THREE GRAND NILSSON CONCERTS
on the following days, viz:
The fourth Concert of the first series will take place Tomorrow, (Wednesday,) Sept. 28.
The SECOND Concert of the second series will take place Friday, Sept. 30.
The first Concert of the first series will take place Monday, Oct. 3.
And
THE SECOND GRAND NILSSON MATINEE
on SATURDAY, 1st OCTOBER, at 1 P. M.
Mlle. CHRISTINE NILSSON will be assisted by

TRADE PROSPECTS.

Prominent Lines of Business in This City.

Briskness in Dry Goods, Hardware, Clothing, Boots and Shoes, Hats and Caps, Furs, and Other Goods—In What There Has Been Increase or Decrease of Prices.

Trade of all kinds seems to be brisk, if we may judge by the statements made by prominent firms in all branches of business. The demand for goods from the South and West continues to be sustained, and it is expected that the Winter trade for 1870-71 will be unusually good, provided no untoward complications of political and national affairs tends, by affecting the price of gold, or otherwise, to produce a different result.

DRY GOODS.

Trade in the dry-goods line has been, and is, remarkably active. All classes of goods are being well and closely sold, and the demand is now brisk. There is a scarcity of cammon prints, and the prices of these goods have appreciated somewhat over those which obtained at this time last year. The scarcity is due, however, not to a lack of cotton supply, as has been erroneously stated in some quarters, but to the lowness of water in the New-England streams, which is the motive power by which the mills are driven. The drouth caused a total stoppage of these mills, in many instances, and, of course, left short stock on the market. Then, too, the late strike in the mills in Lowell left most of the looms, for a time, inactive, and added to the scarcity in this line of goods. Fall prints have been closely sold, the demand following quickly on the heels of the supply, and finally overtaking it. There is a good demand for American dress goods, and it is increasing rapidly. The lines of this class of goods that have been put on the market sold well, and a good trade in them is expected for the balance of the season. The call for these goods is generally better during the latter part of the Fall than at any other time. The trade in woolens is more active than it has been for many seasons past, and excellent prices have been obtained. A heavy demand has arisen for alpacas of the Atlantic Delaine Company of Providence, R. I. (HOYT, SPRAGUE & CO., of this City, selling agents,) a new style of goods equal to any imported, which has become very popular, and stocks of this line have gone off with remarkable rapidity. Considerable export trade in prints is being carried on with Canada, and the prospect of an increase in this direction is counted on. The trade in silks, and in the higher lines of costly and fancy goods, has been and continues to be brisk. Prices of dry goods generally are somewhat less than they were one year ago. Taken altogether, this branch of business is being profitably prosecuted, and the end of 1870 will close on the most successful year in this particular since the war.

IRON AND HARDWARE.

There has not been any great increase in the demand for iron over that of last year, though the trade has been brisk most of the time. There are being opened up several new sources of supply, especially in Tennessee; but prices have not as yet been affected by them.

In the line of general hardware the trade is remarkably good. During this season there has been a relative dropping off of prices, but the call for large invoices seems to increase as prices depreciate. Manufacturers have managed to meet the demands of purchasers very generally; though in the matter of shovels, spades and hoes, the capacity of many factories has been thoroughly tested. It is noticeable that improved qualities of goods are in demand for the Southern market since free labor has come into use in that region. Quantities of shovels and spades are being sent to Canada and Australia, where they are largely bought in preference to goods of English manufacture. It is a noted fact that British laborers on the railroads now being built by English capital in Asia and Africa, are using spades and shovels of American manufacture. Screws, once imported here, are now exported largely. The manufacture of saws, which was begun among us not ten years ago, has grown so largely that our whole country is supplied from domestic sources. The demand for heavy iron met with a check in consequence of the prostration of ship building; but, on the other hand, the custom of using iron, in lieu of stone or brick for building fronts, has, to a great extent, made up, in this direction, for the decreased consumption resulting from the prostration of the shipping interest.

All the table cutlery now sold here is of American manufacture. There is probably little cutlery used by our people (except the item of razors) that is not made by our own manufacturers. As to this last-mentioned article we are still dependent on ROGERS, and WADE & BUTCHER, of England.

Builders' hardware has been in great demand. All of this class of goods is made in this country, and good prices are readily obtained. The special duties imposed on files have to a great extent kept those of foreign make out of the market. American files are selling well, though preference would be given to those of English manufacture, could they be had at the same scale of prices. The hardware merchants are very generally satisfied with the condition of trade, and regard the prospect for future business as being very good.

CLOTHING.

In the clothing line there is a reduction of prices for most styles of goods. An excellent demand prevails, and has prevailed during the season. The extremely hot weather of the past Summer caused a brisk demand for all the lighter articles of wear, and good prices were generally obtained. The retail trade for heavy goods does not set in generally until the first cold snap of the season makes its advent; so the call for Winter clothing can never be prophesied. In anticipation of a large trade, however, the prominent houses have been manufacturing heavily; so there will be a sufficient stock on the market to supply any requisition that may be made upon it. Western orders have not equaled those of 1869 from that section, but an increased demand has been prevalent from the South. A better quality of goods is being shipped Southward than used to be ordered from there. The trade, taken as a whole, is generally satisfactory, and the prospect for a continuance of it is remarkably bright.

BOOTS AND SHOES.

The demand for boots and shoes has been good, and continues to be so. Prices for lower qualities are slightly less than they have been, but, if averaged, will about equal those obtained last year. The increase of the demand from California—especially for heavy wear—is a marked feature of this branch of business. The stock in market is setting to be coarse, as nearly all lines of goods are being sold up closely, and the manufacture has not been as heavy as it should have been, in order to supply orders. There has been, very lately, a slight appreciation in the prices of American leathers, and a very large advance, owing to the war, in French and German stock, of which there is a small supply in market. The Western trade has been remarkably healthy. The South has bought sparingly, in anticipation of a low price for cotton, the supply of which for 1870 promises to be very large. In the various styles of first-class goods there has been a slight advance, caused by the appreciation in values of the best quality leathers, and also by the demand for extra work, which is now put on the higher-priced goods. It is a noticeable fact that the very commonest lines of goods now sold are better made than they were some years ago. A boot or shoe which would "pass muster" as a fairly-made article a few years before the war, would not now be worn. The stoutest article of men's wear must have an attractive appearance or it will not sell to advantage. In the lines of women's wear, all the gloss and fancy work that can be put on adds to the chances of sale. In the South, under the old slave system, common "russet" shoes were largely bought by the planters for the use of their negroes; and of even this class of wear one pair per year for each slave was considered a liberal allowance. Now, manufacturers say, the demand for "russets" is reduced to almost nothing. Since the colored people have become accustomed to sell their own labor they ask a better quality of goods and more of them. Three pairs of well-made shoes per year for each adult negro is the average now demanded on the plantations, and this demand is mostly supplied from the North—the effect being to triple the trade in nearly all the Southern States. The experiment of teaching Chinamen to manufacture shoes is regarded as being successful. There is no evidence exhibited among manufacturers of a desire to employ the Celestials in preference to workmen of our own race; but they insist that they will do so rather than submit to any unjust and improper demand on the part of the latter, alleging that "strikes" among the "Knights of St. Crispin" have no longer any terrors for them.

HATS AND CAPS.

There has been, of late, quite a revival in this branch of trade, which, during the Spring and early Summer, was unusually dull. Light goods have sold at fair prices during the very hot season, but there was not much demand for silks of the highest grades. Felts are just now beginning to go off rapidly, in anticipation of cold weather, and it is expected that there will be a good demand for fur caps to suit the same season. Dress goods have sold lower this year than they did in 1869. Orders for heavy felts, to supply the California market, began to come in rapidly after the completion of the Union Pacific Railroad, but they have rather slackened since the opening of last Spring, in consequence of the establishment of factories west of the Pacific slope. Dealers, generally, anticipate a brisk trade and fair prices for all varieties of heavy wear during the coming season.

FURS.

The jobbing trade in furs usually opens in July—paradoxical as this statement may appear—because of the fact that goods can be then obtained at smaller figures than at any other season of the year. Owing to the intense heat of the past Summer, however, the demand, as compared with that of last year, was somewhat behind hand. Musk-rat and mink retain the prices of last year, but the inferior qualities of other furs have increased in value. The orders from the West are large, especially for mink. Musk-rat goods are now generally sold in dyed skins, striped with four or five stripes. There is a short stock on the market of all classes of goods, as last Winter was so mild that furriers did not manufacture to any extent. It is thought, however, that if the weather—by such as is characteristic of an "old-fashioned Winter"—during the coming season, furs of all kinds will promptly go up to very high prices; in fact, there is already an appreciation of fifteen per cent over the prices that obtained last year. Jobbers are now buying at close figures, reducing the margins of the heavy houses very materially, but the demand is fair from all quarters. The export of musk-rat goods is satisfactory, but considerably less than it was last year, the demand for the French market having seriously affected it since the war. Hudson's Bay sables, which are in high repute, have already advanced ten per cent on the prices of last March, and will almost surely go up still higher. Should there be a good sleighing season, robes, (both buffalo and wolf,) will command high prices. Of wolf skins the market is almost cleaned, and the supply of buffaloes is limited. Both classes of these skins are prevented from coming to market at the present time, in consequence of the action of the Government, by order of which they are retained as Fort Benton, owing to the prevalence of smallpox among the Indians, and the fear that this disease may be propagated if they are allowed to be distributed throughout the country. There are indications that fur caps and capes for men's wear, will be more than ordinarily in demand, this Winter, and dealers are endeavoring to provide for this to the best of their power. Fur coats made of seal skin are also coming into fashion, which will make a still further demand on the unmade stock in market. Of seal skins, however, there is probably a full supply. The acquisition of Alaska seems, as yet, at least, to make no difference as to the current supply of the class of furs. In the main, seal furs will be higher priced than they have been for many years, as the Governmental restrictions put upon the seal-catchers in Alaska are fully as great as those which were enforced by the Russian Government, and prevent a sufficiency as over before, a large supply from reaching this market. On the whole, those who desire to buy furs this Winter will have to pay roundly for them.

The Commencement of the Jewish New-Year.

Sunday evening, at sunset, the children of Israel scattered all over the land, celebrated the beginning of the New Year with the most imposing ceremonies. As among Christians there are differences in regard to form and outward observance, so also with the Jews, many of whom have begun to disregard the Rabbinical code, hitherto deemed binding, as a mere obsolete regulation of form, inconsistent with the progressive and advancing spirit of the present age. Nevertheless, though there may exist those differences as to form, there was not a true Israelite who did not celebrate the advent of the New Year with as much fervor and enthusiasm as did the fathers of the race a thousand years ago. The Jews have been preparing themselves for the great festival during the past week, known as the Propitatory Week. Sunday evening—the opening of the first day of their year—the public ceremonies in the synagogues commenced. There are twenty-seven synagogues in this City, every one of which was crowded by the Israelites to celebrate the great festival of Rosh Hoshanna. Yesterday the services commenced as early as 9 o'clock, and lasted till 1; and in some of the synagogues were a repetition of the services of the day before. In some of temples—for instance Temple Emanu-El—the congregation acted just as do the Christians in their houses of worship, while in others the Jews—of the older class—covered their heads, and wore around their shoulders the taled, or praying robe, which conflicts to mind the paintings, we so often see, of the Jews of ancient times.

The Reformed Jews ended their ceremonies last evening, but their orthodox coreligionists will continue the celebration of the great festival until sunset this evening. The great majority of the Jews were silent and vacated, yesterday, for the communion of the day, and no secular labor is performed. Yesterday, Chatham-street, the Bowery, and the various other streets where the chosen people do business, presented a Sunday appearance. Not a solitary store belonging to the Israelites was open, and but very few of the men or women were visible in the streets. They all secluded themselves within their houses, or spent a large portion of their time in their synagogue. The day was observed by them in the most devout manner.

Serenade to Commissioner Manierre—Welcome Home Demonstration—Address by Mr. Manierre, Horace Greeley and Others.

Hon. BENJAMIN J. MANIERRE, of the Board of Police Commissioners, was tendered a serenade by his numerous and political friends at his residence, No. 36 West Twenty-fourth-street, last evening, on the occasion of his return from Europe. The serenading company assembled at the Republican head-quarters, corner of Fifth-avenue and Twenty-second-street, and marched to the house. The latter was handsomely illuminated with Chinese lanterns, and was also draped with flags. Among the gentlemen present were Hon. Horace Greeley, Hon. Waldo Hutchins, Police Commissioners Henry Smith, M. T. Brennan, F. A. Bosworth, Gen. Barnum, John J. Gridley, Judge Fithian, Col. Alexander, M. B. Brown, Isaac J. Oliver, Jacob Sharp, E. Harrison Reed, Ex-Marshal Murray, Police Captains Mills, Cameron, McDonnell, Devlin, together with a host of other prominent persons. An address was read by Hon. JAMES L. HAKTIE, Chairman of the Committee of Arrangements, warmly welcoming Mr. MANIERRE.

Mr. MANIERRE, in reply, warmly expressed his gratitude for the demonstration, and expressed his gratification at the nomination of WOODFORD and KAUFMAN.

In conclusion, he said, permit me to add that I am a Republican, and that the nominations of the party will at all times be supported by me with all energy and ability where I can command. With my best wishes for the happiness and prosperity of one and all I now bid you good night.

At the conclusion of the address Mr. GREELEY was called on to speak. He made a fine address, eulogizing the institutions and people of this country. He took occasion to announce that no rivalry or jealousy existed between him and Gen. STEWART L. WOODFORD on account of the Saratoga nominations.

A letter was read from Senator FENTON, regretting his inability to be present. The demonstration terminated amid enthusiastic acclamations for Mr. MANIERRE. The Committee of Arrangements included Messrs. Robt. C. Brown, Moses S. Gridley, Abraham Brown, Jr., Henry Beeny, Chas. H. Cooper and others.

The Evening Schools.

The registration of pupils for the evening schools was begun yesterday, and the indications are that during the coming Winter the schools will be largely attended. Registration at the Evening High School was begun on the 19th inst., and last week a large number of pupils presented themselves for examination. In this school twenty-one teachers will be employed this Winter, and in addition to instruction in the higher English studies, French and German are also taught. Extensive preparations have also been made by the Committee of the Board of Education, in charge of this school, for the successful teaching of the sciences, all the necessary supplies and apparatus having been supplied. Both the High and other schools in the Models have noticed will open on Monday next, Oct. 3, registration being continued through the present week.

LOCAL NEWS IN BRIEF.

NEW-YORK.

There were thirty-three complaints awaiting adjudication, by Commissioner MANIERRE, yesterday. Fourteen of these were made by the grand roundsmen. Capt. McDERMOTT, of the Eighth Precinct, charged Patrolman THOS. O'DONNELL, of his command, with being intoxicated and unfit for duty on the evening of Sept. 19. BENJAMIN COX, formerly a member of the Police Department, charged Grand Roundsman STUYSUNO with being asleep in a car of the Grand and Forty-second street line on the morning of Aug. 21. The complaint was dismissed.

Sixteen car-loads of peaches came to town yesterday. The season for them will end in ten days. They bring from 75 cents to $2 per basket, according to quality. Apples are full, and range from $1 50 to $3 per barrel. Bartlett pears are worth $15 a barrel, and Seckel pears $12. Delaware grapes bring 7 to 10 cents a pound; Concords, 7 to 8 cents; Isabellas, 6 cents; Dianas and Catawbas, 10 cents; Tokays, 10 cents. Grapes are now in better demand than on their first arrival.

Last evening a wild bullock escaped from a drove passing along Canal-street, and knocked down and seriously injured JOHN SMITH, a butcher, of Philadelphia, at the corner of Desbrosses and West streets. He afterwards knocked down and severely injured CHRISTOPHER WARD, of No. 28 Harrison-street. Several pistol shots were fired at the animal, but he fled along Canal-street, and at last accounts had not been captured.

While WM. GREENWOOD, aged twelve years, and WASHINGTON HALL, aged eleven years, of No. 121 West Thirty-third-street, were returning homeward from the public school, No. 68 West Thirty-fifth-street, yesterday, they quarrelled and GREENWOOD kicked HALL. The latter drew a small pocket-knife and stabbed GREENWOOD in the right shoulder, causing a serious wound, which bled freely. He was taken home and a surgeon summoned. HALL was arrested and locked up in the West Thirty-fifth-street Police Station.

It was warm in the sun, yesterday, but toward evening the weather moderated, and it was cool and comfortable. The following were the indications of the thermometer in the shade, at the hours mentioned, at WILLIAM P. ETHERIDGE'S Mineral Spring, No. 169 Broadway: 6 A. M., 65°; 8 A. M., 69°; 10 A. M., 75°; Noon, 78.5°; 2 P. M., 80°; 4 P. M., 77°; 6 P. M., 68°; 8 P. M., 67°; 10 P. M., 66°; 12 P. M., 65°.

President GRANT arrived in this City yesterday morning from Long Branch, en route for Cambridge, Mass. He was driven in Secretary FISH's private carriage to the residence of that gentleman, where guest he was during his brief sojourn in the City. He left for Massachusetts in the afternoon.

The Department of Public Parks announces that if the weather be fine there will be music by the Central Park Band in Tompkins-square today from 3½ to 5½ o'clock P. M.

In the Yorkville Police Court, yesterday, HATTIE EAGLE charged BERNARD SMITH, a professional thief, with robbing her of a gold watch and chain and some gold trinkets attached, all of the value of $60, on Thursday last, between 3 and 4 o'clock P. M., while she was standing on the sidewalk near her own residence, No. 152 Avenue A. SMITH came along and snatched the watch and chain, and handed them to a boy who was with him, and who ceased. He was committed to answer in default of $1,500 bail. On Sunday, in the same Court, SMITH was committed to answer for a similar crime, and there are numbers of charges not yet preferred hanging over his head.

MARY SHEA, JAS. SHEA, CATHERINE SHEA and JOHN MCCARTHY were brought up at the Essex Market Police Court, yesterday, before Judge SCOTT, charged with robbing an old woman named MARY RHEA, who resides at No. 75 Henry-street, of $625. It appears that on Saturday last Mrs. RHEA visited the prisoners, who are relatives of hers, at their residence, 47 Monroe-street, and, having information that she had the money in her possession, assaulted and robbed her. They were committed for examination.

Two boys, each under eleven years of age, named WASHINGTON HALL and WM. GREENWOOD, had an altercation, yesterday, when the former produced a knife, with which he stabbed his opponent in the back, inflicting a painful wound. HALL was locked up, and, on being arraigned before Judge COX, at the Jefferson Market Police Court, was held to answer.

The divorce case of ZADACINTA CROWE vs. THOMAS D. CROWE came up, yesterday, before Judge JONES, in the Common Pleas, Special Term, on a continuation of the argument on the plaintiff's motion to refer. The argument was cut short by the announcement by counsel that both parties consented that the cause be referred on the issues of fact. The Court directed an order to be entered accordingly.

The body of FRANK DONNELLY, who resided at No. 229 East Twenty-third-street, and who was drowned in the East River on the night of the 16th inst., the supposition being that he fell overboard from the Hunter's Point ferry-boat, was found, and, from indications on the body there, he had evidently Mr. DONNELLY was robbed on the boat and then thrown overboard. A large amount of money, which the deceased had on his person, was missing, and his pockets were found turned wrong side out.

All the white hats were forcibly called in at the Stock and Gold Exchanges yesterday by the enthusiastic brokers, who issued a decree to that effect. All who appeared on 'Change with white hats had them smashed over their heads.

The body of an unknown man, supposed to be that of GEORGE BURNS, who is reported to have committed suicide, last week, by leaping off a ferry-boat, was yesterday recovered from the North River, and sent to the Morgue for identification.

JOHN MAHOUS, liquor-dealer, Fifty-third-street and First-avenue, who stabbed PATRICK LANDERS, of No. 227 East Forty-second-street, on Sunday night, while the latter was attempting to break into MAHOUS's liquor-store, was yesterday locked in $2,000 bail to answer, by Justice COULTER, in the Yorkville Police Court.

Early yesterday morning an unknown man wearing dark clothing, and who was much under the influence of liquor, fell overboard from one of the Destroyers' ferry-boats and was drowned. The body was not recovered.

The condition of THOMAS DONOHUE, who was shot by JOHN SCANNELL, was yesterday much improved. He has had no hemorrhage since Saturday, and the attendant surgeons say that there is every probability that in two or three days he will be out of danger.

WM. J. ROBINSON, an Ex-Sergeant of Police, was yesterday sworn in as Inspector of Customs.

BROOKLYN.

The body of an unknown woman was found floating in the river at the foot of Kent-street yesterday morning. She was evidently about fifty years of age, and had been, apparently, for a considerable time in the water.

A meeting for the benefit of the Colored Orphan Home and Industrial School, at Richmond, Va., will be held in Bridge-street M. E. Church, near Myrtle-avenue, this evening, at 7½ o'clock. Addresses will be delivered by Gen. STEWART L. WOODFORD, Rev. Dr. GARNET, Rev. Mr. WINDER, Rev. THEODORE GOULD, President REY, of Liberia, and others.

THOMAS BURROUGHS, a blacksmith, residing on Franklin-avenue, near Myrtle, was arraigned before Justice BILBY, yesterday morning, charged with attempting to cut his wife's throat on Sunday. He was at the time of the action, under the influence of liquor. The wife frustrated his design by knocking him down and holding him until the Police, upon whom she called, came to her assistance.

The body of the man found in the river at the foot of Harrison-street, on Sunday, was identified yesterday as that of Mr. MORGAN. He was a resident of Smith-street, named WILLIAM HIRTON, and had been absent from his home since Friday last. Before going out he declared his intention of committing suicide to one of his friends. He was unmarried.

Dr. WILLIAM RAFFOLD, of No. 750 Flushing-avenue, was fined $50, yesterday morning, by Justice WALSH, for failing to report to the Health Officer the fact that a patient of his was sick with the small-pox. Other cases of the same nature are still pending.

LONG ISLAND.

Yesterday morning, a whale, thirty-six feet long, was discovered in the surf at Rockaway Beach, at about a mile's distance from the Pavilion, in a most enfeebled condition. In the afternoon it died. It is thought that the fish contains about ten barrels of oil.

The case of the shooting of the boy HENRY GARBY on Saturday, by EFFINGHAM WALLACK, is alleged not to have been accidental. The story of the boys is that GARBY was playing with JOHN MCLOUGHLIN, when WALLACK, a young man about fifteen or sixteen years old, came along with his gun. After bantering the boys for some time, attempting to persuade them to fight, he told MCLOUGHLIN that if he would punch GARBY six times he would give him six percussion caps. GARBY becoming frightened, commenced to run, when WALLACK told him to stop or he would fire, which, GARBY not heeding, he blazed away, striking him on the neck, elbow and back. The wounded boy was immediately taken to Dr. DWINELLE, who dressed the wounds. The only wound which is at all dangerous is the one in his back, one of the fine shot having entered the boy's spine. The father of young WALLACK reported that the shooting was accidental, but the explanation of the two boys contradicts that statement.

On Sunday evening, as the 6 P. M. train from Flushing, on the Flushing and North-side Railroad, was passing Jackson-avenue, in Hunter's Point, a man, who unknown, jumped from the train and, unless a concerted figure of the right leg, Sergeant Bailey by name, observed the wounded man and conveyed him to the hospital.

STATEN ISLAND.

The unknown man who, a few days ago, attempted to commit suicide by jumping from the steamer Huguenot into the bay, died on Saturday, and soon after an inquest was held by Drs. KING and MARTINDALE. The jury returned a verdict in accordance with the facts.

The Democratic Trustees of Edgewater have received claims against the village to the amount of $60,000, which they have decided on paying, having discovered some new rule of arithmetic whereby $40,000 can be paid out of $20,000, the entire sum allowed by the Legislature to be levied as tax on the residents. The Trustees expect to have a balance, out of the $20,000, left to their credit.

JAMES BROWN, a lad aged thirteen years, while playing with other boys on the new wall near the ferry-house, at West Brighton last Sunday, fell into the water and was drowned before any assistance could be rendered.

WESTCHESTER COUNTY.

The country residence of Mr. WARREN LELAND, at Harrison, was broken into a few nights ago, by a burglar, who entered the sleeping apartment occupied by Mrs. LELAND, and carried off her gold watch, and also some overcoats. Mrs. LELAND being aroused from her slumbers by the movements of the rogue, he fled precipitately from the premises. Mr. LELAND's son and Mr. RICHARD KIRBY were alarmed; they started for the City by the early trains to look out for the thief. About 10 o'clock in the forenoon, a negro got off a train at Forty-second-street, with one of the stolen coats on his back, and Mrs. LELAND's watch in his pocket. The burglar was recognized as a negro who had worked for Mr. LELAND about three years ago. When arrested, he had sold one of the stolen over-coats in Mount Vernon, on his way to the City. He was brought back and committed to the County Jail for trial.

Mr. ANDREW WILSON, Jr. sat up in bed on Saturday morning after his illness appeared so much better as to raise strong hopes of his early recovery, but relapsed in the course of the afternoon, and subsequently failed very rapidly until he died about 2 o'clock on Sunday morning. His death has caused a general gloom in Mamaroneck. The inhabitants seem to feel that they have lost a valuable citizen.

NEW-JERSEY.

The funeral of JOHN RODGERS, Secretary of the Morris Canal and Banking Company, took place, yesterday afternoon, at the First Presbyterian Church, Jersey City. The address was delivered by the pastor, Rev. CHARLES K. IMBRIE, D. D., who was assisted in the services by Rev. Dr. VAN CLEEF, of the Reformed Church; Rev. Dr. PARKLY, of the Baptist Church, and Rev. Mr. STEVENSON, of the Second Presbyterian. Among those present were the officers and directors of the Morris Canal and Banking Company and the Provident Savings Bank. Also, Ex-Senator FRELINGHUYSEN, Ex-Gov. WARD, Chancellor ZABRISKIE, Hon. GEO. A. HALSEY, and many others from different parts of the State. Mr. ROGERS graduated at Princeton College in the class of 1841, entered the profession of law, subsequently becoming cashier of a bank in Burlington, N. J. For the past five years he had been connected with the Morris Canal. He was an active Republican and took great interest in the welfare of his State. He remains were taken to Boundbrook, N. J., for interment, where his father, Rev. RAVAUD K. RODGERS, resides, who has been pastor of the Presbyterian Church in that place for more than forty years.

The Methodist State Convention meets today in Trenton. The Convention will celebrate the centennial of Methodism in New-Jersey, the first Methodist Society in the State having been formed by Capt. THOMAS WEBB, a local preacher in Burlington in 1770. There are now two annual conferences in the State, with 350 regular itinerant preachers. There are 460 Methodist church edifices, in which 60,000 members worship, and it is calculated that one-fourth of the whole number of inhabitants of the State are either intimately or remotely connected with the Church.

The corner-stone of the proposed new Centenary Methodist Episcopal Church, which is to be erected in Pavonia-avenue, near Hamilton-square, Jersey City, was laid yesterday afternoon. The services were conducted by Rev. A. L. BRICK, the presiding elder of the Jersey City District, assisted by Rev. J. B. FAULKS. Addresses were delivered by Rev. Messrs. FAULKS, FREEMAN, of the Methodist Episcopal Church, and TUNSON, of Hoboken. A collection was taken, the proceeds of which, added to the amount raised on Sunday, foot up $3,700. The church, when completed, is to be 60 feet wide by 80 feet deep, and will cost $15,000.

In the New-Jersey Legislature, last Winter, laws were passed declaring that the issuing of licenses for the sale of liquor in a number of townships should be in the hands of the people, and be decided by vote. An effort is now being made throughout the State to have the selling of liquor and the issuing of licenses in the larger cities decided by the votes of the inhabitants.

Coroner BURNS, last evening, commenced an inquest, at the Hudson County Court-house, on the body of the man MURPHY, who died last week in the County Jail from a fracture of the skull, caused by falling upon the stone floor. MURPHY was arrested in Jersey City for drunkenness, and was committed to the County Jail in a mental condition that bordered very near on delirium tremens. During the evening of the day upon which he was committed to the jail, he fell to the floor or against the stove, and died from the effects of the wound then received on the following morning. The testimony, last evening, was contradictory as to whether MURPHY stumbled and fell, or was intentionally thrown down by one of the Keepers. Coroner BURNS adjourned the inquest to Wednesday evening, when some more definite testimony may possibly be obtained.

HENRY EVERS, a man over seventy years of age, was committed to the Paterson Jail, yesterday, for assaulting his battery. He was covered with blood, and was bound hand and foot with rope. It appears from the best information that can be gathered that he became involved in an altercation with Capt. ISAIAH RYNDERS, in a saloon in Paterson, and that his wounds were inflicted by the Captain. EVERS was called a wealthy ship-builder, in Holland, but with reverses became subject to fits of insanity. It is said that he attacked Capt. RYNDERS, while suffering from one of his fits of insanity.

The Germans of Paterson gave a grand concert at Continental Hall last evening, to raise funds to aid the families of the killed and wounded German soldiers. The affair was a great success. The hall was crowded, many hundreds of persons not of German origin being present. The programme, which contained excellent musical collections, was printed in both German and English. The receipts were something over $600.

A desperate fellow, named HENRY BROWER, was yesterday arrested in Newark, charged with having beaten PETER CONDREN, of Chatham-street, in a most outrageous manner, and robbed him of a sum of money. He has been locked up to answer.

Col. WM. R. MURPHY, Hon. DANIEL HAINES and SAMUEL ALLISON have been appointed by Gov. RANDOLPH delegates to the National Congress on Penitentiary Discipline, to be held in Chicago next month.

Mr. CONRAD SCHEIMAN, residing in Orchard-street, Orange, was attacked Sunday night in his own house and terribly beaten by an unknown man. He jumped through a window and cried for help. He was soon found covered with blood and almost beside himself. He is now in a very critical condition.

An unknown man, while intoxicated, fell from the ferry-boat *D. S. Gregory* as she was entering the Desbrosses-street slip on Sunday night, and was drowned. The river at the slip was dragged for two or three hours, but the body was not recovered.

ARMY AND NAVY RECORD.

WASHINGTON, Sept. 26.—The report in circulation that Admiral POTTER is to be relieved from further duty in the Navy Department on account of failing health, seems to be believed at the Navy Department, though nothing positive is known there in regard to the matter as yet. Admiral Porter will be here, it is expected, on Wednesday next.

Lieut.-Col. Alfred Sully, unassigned, is relieved from duty as Superintendent of Indian Affairs in Montana Territory. The following additional officers are also relieved from the same duty: First Lieuts. R. McCaleb, Wm. E. Pease and George H. Ford. The following, by direction of the President, have been honorably discharged from the service at their own requests: Capt. Daniel D. Lyon, First Lieuts. Patrick N. Flood and Leonard Wightman. The following unassigned army officers are relieved from duty as Indian Agents: Capt. James W. Long, First Lieuts. W. E. Bourne and Frank D. Garretty. Capt. W. A. Elderkin, Commissary of Subsistence, is ordered to Denver, Col., to take post as purchasing Commissary. Second Lieut. George R. Spencer is ordered to take command of the Recruits awaiting orders at Cincinnati, Ohio, for his regiment.

Two hundred recruits for mounted service, now stationed at Carlisle, Penn., are ordered to the Department of the Platte for duty.

By direction of the President, the head-quarters of the Department of Texas are transferred from Austin to San Antonio.

Commander Wm. G. Temple, Lieut.-Commanders A. P. Cook and Leroy Fitch, Master Albert L. Sprague, Ensigns W. J. Brinstle, Chas. C. Cornwell, Richard Bush, P. V. Cunningham, Nathan C. Stiles, Henry B. Manning and J. H. Patton are ordered to examination for promotion. Lieut.-Commander John C. Soley is ordered to the Naval Academy on the 30th inst.; Boatswain John Hall to duty in the Ordnance Yard, Boston Navy-yard; Ensign Robt. T. Gasser is detached from the *America* and ordered to examination for promotion; Surgeon Thos. C. Walton, detached from the *Seneca*, to return home and await orders; Assistant-Surgeon J. G. Ayres, from the Washington Naval Hospital, and ordered to the *Rhode Island*; Gunner Andrew Gunn, from the Washington Navy-yard, and ordered to duty in the Yosemite navy; Midshipman Charles W. Rae, from the Washington Navy-yard, and ordered to duty in the Yosemite navy; Midshipman Seymour Bagnall, detached from the Yosemite navy, and ordered to duty in the Washington Navy-yard.
